INNOVATION ELEVATED
to an art form.

THE ALL-NEW ES 350 | in Starfire Pearl
Progress has a new face. The distinctive lines of the ES 350 draw you into the modern design of its spacious interior. Inside, you’ll find a host of amenities, including 10-way power front seats and an available Navigation System that offers seamless connectivity to mobile apps. Ignite the 268-horsepower V6 engine and you’ll discover an additional type of connection: where its rigid body and a new independent suspension combine to grip the road, helping to provide greater control and more precise handling.

THE ALL-NEW ES 300h HYBRID | in Nebula Gray Pearl
Defying compromise, raising expectations and changing the category in one breathtaking move, the all-new Lexus ES 300h hybrid combines substantial performance with an impressive 40 mpg* combined rating by pairing the ingenuity of an advanced Lexus Hybrid Drive system with the efficiency of an Atkinson-cycle engine. Among its exclusive touches, it offers sustainable bamboo trim, a unique wheel design and a lower rear valance that further accentuates its sleek exterior lines by concealing the exhaust.

INTRODUCING THE ALL-NEW ES AND FIRST-EVER ES HYBRID
When you combine captivating design, state-of-the-art technology and an available hybrid that blends world-class luxury with new levels of efficiency, prepare to be moved like never before. Where a bold spindle grille and sleek lines combine to form a singular presence. A longer wheelbase and redesigned suspension system create an exhilarating connection to the road. And a more spacious, modern interior offers the unprecedented convenience of mobile connectivity. This is the all-new ES and first-ever ES Hybrid: unparalleled innovation, now in an unforgettable form.

*See disclosures on page 10.
ENFORM APP SUITE
The available Lexus Enform®, App Suite® uses your compatible smartphone to give you in-vehicle access to your favorite mobile applications. You can connect to Bing®, iHeartRadio, MovieTickets.com, OpenTable®, Pandora®, Yelp® and Facebook Places. And, with wireless updates, new apps will be added as they become available. Learn more at lexus.com/ES/enform.

Sculpted lines meet
SEAMLESS CONNECTIVITY.

From the moment you open the door, you’ll discover this is far more than a cabin. It’s the intersection of captivating design and cutting-edge technology. Stretched across the elegant lines of the dash, contrasting stitching and stunning available wood trim accentuate its spaciousness. Available ambient lighting adds intrigue to its contemporary design. Look deeper and you’ll find innovative thinking at every turn. Among its many advancements, an available next-generation Remote Touch® device provides effortless control of an array of features and an available Navigation System® offers convenient access to mobile apps®; a live response center agent and destinations entered from your computer.
THE 40 MPG*-RATED ES HYBRID.

THE SEEMINGLY IMPOSSIBLE MADE IRRESISTIBLE.

Introducing the first-ever ES Hybrid: a vehicle so groundbreaking, it not only exceeds expectations, it redefines its category. Providing expansive space and impeccable refinement, it’s a stunning achievement in luxury. But its remarkable interior is only the beginning. It also features a better fuel economy rating than most subcompact cars and has earned the stringent SULEV emission status. Isn’t progress a beautiful thing?

*2013 ES 300h EPA-estimated 40/39/40 (city/highway/combined) MPG. Actual mileage will vary.

EXCLUSIVE STYLING

Among its exquisite amenities, the ES Hybrid offers a steering wheel and accents handcrafted with sustainable bamboo. As well as seating trimmed in available denim-resistant leather, semi-aniline leather or an innovative material called Lexus NuLuxe. Compared to other synthetic leathers, its manufacturing process generates no VOCs and 65% fewer CO₂ emissions. Exclusive exterior enhancements include a unique 17-inch wheel design, an extended rear valance that discreetly conceals the exhaust, and an aerodynamic rear spoiler that further improves efficiency.
A SPACIOUS INTERIOR SO INDULGENT, IT EVEN OFFERS A VIEW.

You don’t have to sit in the driver’s seat to appreciate the uncompromising luxury offered by the new ES. Making the most of the additional space provided by its longer platform, rear-seat passengers will revel in the comfort of its generous headroom and legroom. And, filling this exquisite space with incomparable sound, an available 15-speaker, 835-watt Mark Levinson® Premium Surround Sound Audio System provides sound quality on par with the finest concert halls. Not sure which song to choose? Using nothing more than your voice, innovative Gracenote® technology can search your playlist by artist, genre or year, and even create mixes on the fly.

ULTRA LUXURY PACKAGE

Providing a level of luxury rivaling the finest sedans in the world, the Ultra Luxury Package features seating trimmed in soft, semi-aniline leather to complement the hand-selected wood trim. The driver’s seat cushion extends at the push of a button, providing additional thigh support. And a power rear sunshade, rear-side window shades and, in the ES 350, the luxury of a panoramic glass roof overhead elevate the rear-seat experience to new heights.
A PRECISELY TUNED SUSPENSION

The suspension system on the all-new ES was engineered for exhilaration. In the shock absorbers, new valving and reduced friction help enhance ride comfort and linear steering response. New opposite-wound front coil springs are designed to help improve straight-line control. And, new rear-suspension geometry helps provide better agility and overall control.

The all-new ES leaves an indelible impression, whether moving or not. The striking stance of its longer wheelbase and lower profile commands attention. Its sculpted lines, available 18-inch wheels and distinctive LED daytime running lights turn heads. Set in motion, it becomes even more impossible to ignore. Its lighter, more rigid body and a new, more dynamic suspension combine to help deliver precise handling through turns and added stability on straightaways. It just may be the most captivating blur you'll ever encounter.
**DRIVER POSITION**

Settle into the bolstered, 10-way power driver’s seat, grab hold of the LFA-inspired steering wheel, place your feet upon the pedals, and you’ll immediately sense that all three aspects were designed in tandem to achieve optimal driver engagement and comfort.

And, to ensure that every driver can fully enjoy all this engineering, available memory recalls up to three personalized driving positions (including seat, steering wheel and outer mirror positions) at the touch of a button.

---

**INTUITIVE DESIGN**

The interior of the ES proves the best automotive design doesn’t come from studying automobiles, but rather drivers. The shape of the available Remote Touch® device is based on the curves of the human palm. Its motion mimics a computer mouse. A new steering wheel was crafted specifically to fit perfectly in your hands regardless of their placement. And, to help keep your focus on the road ahead, the center display is purposely positioned closer to the driver’s natural line of sight.

---

**DRIVE MODE SELECT**

Customize the performance of the ES with Drive Mode Select. In ECO mode, a calming blue light surrounds the gauge cluster while climate and throttle settings are optimized for increased fuel efficiency. Normal mode offers the optimal balance of comfort and performance. Sport mode changes the gauge cluster lighting to a fiery red, replaces the ES 300h Hybrid System Indicator with a tachometer, enhances the steering feel and increases the throttle response for more dynamic acceleration.

---

**EMBRACES ALL ASPECTS OF THE DRIVER.**

Even their whims.

Whether you’re in the mood to relax in world-class comfort or eager to impose your will on an unsuspecting stretch of winding road, the level of engagement you crave can vary. Now, with a turn of the innovative Drive Mode Select switch, so does the ES. From the efficiency of ECO mode to the added responsiveness of Sport mode, it’s just one of the many ways ES was designed with the driver in mind.

BLIND SPOT MONITOR
WITH REAR CROSS-TRAFFIC ALERT

Accidents can happen anywhere, from parking lots to major highways. Fortunately, the ES offers two new ways designed to help you avoid both. For the first time on a Lexus, the available Blind Spot Monitor\(^{13}\) features an ingenious Rear Cross-Traffic Alert system that can help detect and warn you of vehicles approaching from behind on either side as you back out of a parking space. And, at speeds above 10 mph, the Blind Spot Monitor can help you change lanes more safely by warning you if it detects vehicles in the adjacent lanes.

EYE-OPENING.
Even in places you can’t see.

Of all the areas worthy of focus on the all-new ES, among the most important is its focus on helping to keep you safe. In addition to offering an ingenious system designed to help warn you of adjacent vehicles when changing lanes,\(^{13}\) available Lane Departure Alert\(^{14}\) helps detect visible lane markings, and if you veer, it can warn you with audible and visual cues. Available intelligent high-beam headlamps\(^{15}\) automatically switch to low-beam when they sense headlamps or taillamps ahead. And in the event that your vehicle’s airbags\(^{16}\) deploy, or you’re involved in a serious rear-end collision, available Safety Connect®\(^{3,17}\) can even contact a response center agent who can notify local emergency services and direct them to your vehicle’s location.

CLASS-LEADING STANDARD
10-AIRBAG SYSTEM

The ES features a class-leading standard 10-airbag system\(^16\) and new Whiplash Injury Lessening (WIL) front seats\(^{20}\) designed to help decrease the severity of whiplash-type injuries in certain rear collisions.

PRE-COLLISION SYSTEM

To help you prepare for and, if possible, avoid potential collisions, an available Pre-Collision System\(^{18}\) with Dynamic Radar Cruise Control\(^{19}\) is designed to monitor the road ahead for obstacles and warn you of their presence with beeps and visible indications. It can even begin braking automatically before impact.

LUXURY FEATURES

**INDIVIDUAL OPTIONS**
- SmartAccess
tm with push-button "Start/Stop"
- Dual-zone automatic climate control with interior air filter, sensor and automatic recirculation mode
- NLUXURY-limited trim
- Power tilt-and-slide moonroof with one-touch open/close and sliding sunshade
- Power windows with one-touch auto open/close feature
- Remote-linked window and moonroof opening
- Retained accessory power for moonroof and windows
- Electronic sunroof (ES8)

**COMMUNICATION, AUDIO AND NAVIGATION**
- Lexus eight-speaker, Premium Sound System with Automatic Sound Levelizer (ES8) and CD player
- SiriusXM Satellite Radio 
  (if equipped)
- Wood- and leather-trimmed shift knob
- Heated front seats
- Retained accessory power for moonroof open/close feature
- Power trunk open/close
- Sound Audio System 11 with 15 speakers
- Lexus Memory System for driver’s seat, including lumbar power seats
- Blind Spot Monitor with Rear Traffic Alert
- One-year trial subscription included
- Remote keyless entry–linked memory 26
- One-year trial subscription included

**INSTRUMENTATION AND CONTROLS**
- Power rear sunshade with manual one-touch open/close and sliding sunshade
- Power rear sunshade
- Power rear sunshade
- Rain-sensing wipers with de-icer
- Heated front seats
- Retained accessory power for moonroof and windows
- Electronic sunroof (ES8)

**SAFETY AND SECURITY FEATURES**

**ACTIVE SAFETY**
- Vehicle Stability Control (VSC
tm)
- Traction Control (TRAC)
- Four-wheel power-assisted disc brakes
- Four-door power windows with one-touch open/close and sliding sunshade

**PASSIVE SAFETY**
- Driver’s and front passenger’s advanced airbag system (SRS) with front passenger’s twin-chamber airbag (SRS)
- Front and rear seat-mounted side airbags (SRS)
- Driver’s and front passenger’s knee airbags (SRS)
- Front and rear side curtain airbags (SRS)
- Three-point seatbelts for all seating positions, pre-tensioners with force limiters for front and outboard rear seats
- Height-adjustable front shoulder belt anchors high-diabolically luxury structure with front and rear crumple zones
- Side impact door beams

**PACKAGES**

**PREMIUM PACKAGE**
- Espresso birch-veneer wood (ES5) or Bamboo (ES9) wood interior trim
- Power tilt-and-telescopic steering wheel
- Lexus Memory System for driver’s seat, outside mirrors and steering wheel
- Remote keyless entry–linked memory

**LUXURY PACKAGE**
- Includes all Premium Package equipment plus
- Perforated semi-aniline leather interior
- Panoramic glass roof (ES)
- Driver’s seat power cushion extender
- Ambient interior lighting
- Power rear sunshade with manual near-door sunshades

**ULTRA LUXURY PACKAGE**
- Includes all Luxury and Premium Package equipment plus
- Perforated leather-lined interior
- Heated and ventilated front seats

**NAVIGATION/PREMIUM AUDIO PACKAGE**
- Navigation System
- Remote Touch
tm device
- Voice command
- High-resolution HD-inch color LCD display
- In-dash DVD/CD player
- SiriusXM Satellite Radio

**PACKAGE**
- Lexus Enform 
  w/ Destination Assist
- Lexus Enform

**Owner's Manual**

Four-year/50,000-mile Lexus Limited Warranty. Eight-year/100,000-mile Hybrid System Warranty. Six-year/ unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the ES Manual for further information. Warranty information is subject to change without notice. Check with your dealer for details.

1. Availability of the information provided by the Navigation System or any SiriusXM services mentioned (if installed) are dependent upon many factors. Use common sense when receiving information provided. SiriusXM satellite radio is not available in every city or roadway. Periodic Navigation updates are available at additional cost. Please see your Navigation System Owner's Manual or contact SiriusXM for details. 2. 2013 EPA city/highway/combined. Actual mileage may vary. 3. Contact with the Lexus Enform and/or Safety Connect response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Lexus Enform- and Safety Connect-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. 4. Lexus Enform premium services Destination Assist and eDestination will function in the contiguous United States. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. 5. Always drive safely, obey traffic laws and focus on the road while driving. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data, you are responsible for charges. Apps/services are subject to change. Apps identified by “™” or “®” are trademarks or registered trademarks of their respective companies. For enrollment, cost and more details, see lexus.com/enform. 6. Always be sure to obey traffic regulations, maintain awareness of your surroundings and all road and traffic conditions. Select apps use a large amount of data and you are responsible for all data charges. Apps and services vary by phone and carrier. 7. Daily use of Pandora or iHeartRadio may have an impact on your cellular data plan. It is estimated that one hour of streaming Pandora or iHeartRadio consumes roughly 14 to 27MB of cellular data. The other third-party applications, including SiriusXM, Songbird, MovieTickets.com, and OpenTable, are expected to consume a negligible amount of data. You can take a look at the data calculators provided on your cellular carrier’s website or speak with your wireless carrier to understand what data plans will fit your budget. 8. **PANDORA®** the PANDORA® logo, and the Pandora trade dress are trademarks or registered trademarks of Pandora Media, Inc., used with permission. 9. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. 10. Based on EPA-estimated 40/39/40 (city/highway/combined) MPG. Actual mileage will vary. 11. 17-inch performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending upon driving conditions. 12. 18-inch performance tires are expected to be applied at the factory. 13. The engine immobilizer is a state-of-the-art anti-theft system. 14. Lane Departure Alert is designed to help the driver take full advantage of the VSC system to avoid lane departure. 15. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and will not prevent collisions. 16. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. 17. Contact with the Lexus Enform and/or Safety Connect response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Safety Connect-equipped vehicles. Additional subscription terms available; charges vary by phone/carrier. 18. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and will not prevent collisions. 19. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; see owner’s manual for further information. 20. Dynamic Radar Cruise Control is designed to help the driver maintain vehicle speed at the set speed in conditions that allow the vehicle to maintain its set speed, including, but not limited to, light traffic. 21. Whiplash Injury Lessening (WIL) front seats can help reduce the severity of whiplash in certain types of rear-end collisions. 22. **CAUTION!** When driving a hybrid vehicle, pay special attention to the area around the vehicle. Because there is little vehicle noise in electric-only mode, pedestrians, people riding bicycles or other people and vehicles may enter the vehicle’s area without warning. 23. Brake Assist is designed to help the driver take full advantage of the VSC system to reduce the distance to a stop. 24. Do not attempt. 25. SiriusXM service and packages are available at siriusxm.com. Other services and packages are available through participating agencies including, but not limited to, SiriusXM, MovieTickets.com, OpenTable, SiriusXM Direct, SiriusXM for Business and XM Direct. For more information, see siriusxm.com. 26. Based on EPA-estimated 40/39/40 (city/highway/combined) MPG. Actual mileage will vary. 27. Contact with the Safety Connect response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Safety Connect-equipped vehicles. Additional subscription terms available; charges vary by phone/carrier. 28. Bluetooth® hands-free telephony and streaming audio. Bluetooth® is a registered trademark owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. Other trademarks and trade names are those of their respective owners. 29. Bluetooth audio device must be authorized by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. 30. Connected continuous average power, all channels driven, at less than 0.01% THD; 20–20,000 Hz. 31. The engine immobilizer is a state-of-the-art anti-theft system. 32. Continuous average power, all channels driven, at less than 0.01% THD; 20–20,000 Hz. 33. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner’s Manual for further details. 34. Smart Stop Technology is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and will not prevent collisions. 35. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the tire pressure monitor. 36. Contact with the Lexus Enform and/or Safety Connect response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency support. 37. If you decide to continue your SiriusXM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates available at siriusxm.com. For enrollment, cost and more details, see lexus.com/enform. 38. Owner's Manual. **Owner's Manual**

For more information, see lexus.comOwner's Manual. 39. **Navigation System Owner's Manual**. For further details. 40. Contact with the Safety Connect response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Safety Connect-equipped vehicles. Additional subscription terms available; charges vary by phone/carrier. 41. Bluetooth® hands-free telephony and streaming audio. Bluetooth® is a registered trademark owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. Other trademarks and trade names are those of their respective owners. 42. Bluetooth audio device must be authorized by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. 43. Based on EPA-estimated 40/39/40 (city/highway/combined) MPG. Actual mileage will vary. 44. Contact with the Lexus Enform and/or Safety Connect response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Safety Connect-equipped vehicles. Additional subscription terms available; charges vary by phone/carrier. 45. Bluetooth® hands-free telephony and streaming audio. Bluetooth® is a registered trademark owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. Other trademarks and trade names are those of their respective owners. 46.
