INTRODUCING THE 2016 LX

LX 570
Redesigned with a muscular body and all-new interior; 383-horsepower, 5.7-liter V8 engine; eight-speed paddle-shift transmission; full-time four-wheel drive and 7,000-lb towing capacity. 1, 2, 3
DESIRE & CONQUER

Crafted to tame demanding terrain from remote off-road vistas to black-tie premieres. Introducing the new 2016 LX 570.
Redesigned for 2016, the Lexus flagship SUV now has more brawn and more bravado. Offering improved acceleration along with available Lexus-first 21-inch wheels<sup>5</sup>, a show-stopping interior and the most comprehensive safety system ever featured on the LX, the 2016 LX doesn’t just blur the line between luxury and capability. It obliterates it.
LED daytime running lights are as daring as they are distinct, and the Premium Triple-Beam LED headlamps boldly announce every arrival.

LX shown in Starfire Pearl.
THE PINNACLE OF POWER AND PRESTIGE

An off-road genius with red-carpet good looks, the LX delivers raw power—and attention—in a highly civilized manner. Here, turning heads means turning the tables on the standard definition of luxury.
Offering a luxurious semi-aniline leather-trimmed interior and a fearless exterior—the LX rewards those who crave supreme power with sublime beauty.
LUXURY WITHOUT MERCY

Indulgence knows no restraint. Lower, wider, longer for 2016 and primed with ample cabin space, dynamic LED headlamps and elegant sculpting, the LX carries cargo as easily as respect.
The ultimate status symbol is under the hood. Engineered with the largest engine of any Lexus vehicle, the 2016 LX boasts a 5.7-liter V8 loaded with 403 lb-ft of torque at low RPM, an advanced eight-speed paddle-shift transmission, enhanced acceleration, improved EPA ratings, and an impressive 7,000-lb towing capability with Trailer Sway Control. Make the morning commute a communion with the open road.
The LX boasts leading-edge technology and convenience with clean, contemporary styling. Standout features like available Mark Levinson® Audio, hand-selected interior trim, a center console with intelligent ambient illumination, a 12.3-inch multimedia display with Remote Touch® and a wood- and leather-trimmed steering wheel make the LX more than an SUV. It’s a sanctuary.
MANIPULATE THE SENSES
Experience luxurious eight-seat supremacy with the completely redesigned LX interior. The available semi-aniline leather trim elevates an expansive cabin space that is versatile as it is elegant. Unwind and indulge with power-sliding second-row seating, a power-folding third-row, available heated and ventilated front and second-row seating, ambient LED lighting and ample cargo space.
Discover the difference with a driver-centric cockpit. Specially engineered to enhance the driver's control, comfort and visibility, the new LX divides interior space into display and operating zones in order to accommodate a focused, seamless driving experience. With a multimedia system featuring a new 12.3-inch display, Remote Touch® and an available color Heads-Up Display, the new LX helps keep eyes ahead and alert. The available heated steering wheel, semi-aniline leather-trimmed interior and a 450-watt Mark Levinson 19-speaker Reference Surround Sound Audio System add to the polish behind the power.

THE MANNERS BEHIND THE MUSCLE
AGE OF ENLIGHTENMENT
AN ALL-NEW INTELLIGENT CONSOLE CASTS LUXURY IN A NEW LIGHT

To experience the next era of intuitive design, just push a button. The 2016 LX features a breathtaking work of technology. With a single touch, the center console comes to life. Commands are revealed from the sleek, modern lines of the deep black finish to create an atmosphere that’s as elevated as it is advanced.
LEXUS ENFORM

THE NEXT LEVEL OF CONNECTIVITY

Lexus Enform, our available suite of branded connected services, consists of five products, each of which offers unique ways to enhance the driving experience. With a complimentary first year of service—entertainment, convenience and peace of mind are now within reach.

SAFETY CONNECT

Lexus Enform Safety Connect® offers you the peace of mind of knowing that assistance can be there when you need it most. Whether you’re involved in a collision and unable to call for help, your vehicle is stolen, or there is some other type of emergency, assistance can be sent directly to your vehicle’s GPS location.

DESTINATIONS

Lexus Enform Destinations® offers convenient 24-hour, en-route navigation assistance from a live response center agent who can help you find locations and automatically upload the destinations to your available Navigation System. Planning a trip? You can also search, save and upload destinations from the comfort of your home or office.

SERVICE CONNECT

Our new Lexus Enform Service Connect® offers remote access to information about your vehicle’s status and maintenance needs. Easily accessed through LexusDrivers.com or the MyLexus and Beyond mobile app, you can get information on everything from your vehicle’s fuel level and mileage to maintenance alerts and vehicle health reports.

REMOTE

The Lexus Enform Remote® mobile app can remotely start the engine, lock and unlock doors, check the status of doors and windows as well as your fuel level, and can help find your vehicle’s location in a parking lot. And, should you loan your Lexus to another driver, you can receive instant alerts if, for example, a preset speed or mile limit is exceeded.

APP SUITE

The Lexus Enform App Suite® offers access to your favorite mobile applications through your vehicle’s center-console display. After downloading the app on your compatible smartphone, you can search local listings, stream music, place restaurant reservations and buy movie tickets—all from the center-console display.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other Lexus features, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled iPad® apps like FaceTime®. Learn more about these complimentary services at lexus.com/specialists.
ADVANCED MULTI-VIEW TECHNOLOGIES

The Panoramic View Monitor™, Multi-Terrain Monitor™ and a backup camera with dynamic gridlines work together to help keep drivers informed and in the clear. A Lexus first, the Panoramic View Monitor takes advantage of high-resolution cameras mounted on the front, sides and rear of the LX to create a bird’s-eye view of the near environment. The backup camera with dynamic gridlines features on-screen guides to help assist with tight maneuvering and parking, while the Multi-Terrain Monitor pairs with Multi-Terrain Select to offer valuable visibility during off-road driving.

INSATIABLE INNOVATION
THE CONSTANT PURSUIT OF SAFETY WITH STYLE

LEXUS SAFETY SYSTEM+

Lexus Safety System+ is the most comprehensive safety system ever offered on the LX. Featuring a Pre-Collision System™ with Pedestrian Detection®, All-Speed Dynamic Radar Cruise Control®, intelligent high-beam headlamps® and Lane Departure Alert®, this integrated suite of advanced technology is designed to help pave the way to a world with fewer collisions and better-informed drivers.

MARK LEVINSON REFERENCE SURROUND SOUND AUDIO SYSTEM

Immerse yourself in concert-hall sound with the available 19-speaker, 450-watt Mark Levinson Reference Surround Sound Audio System. Lexus and Mark Levinson engineers collaborated to plan, develop and place every component, for the most accurate reproduction of artists’ original recordings.

HEADS-UP DISPLAY

The available full-color Heads-Up Display can project dynamic information like speed, compass direction and Pre-Collision System® alerts directly onto the bottom of the windshield, merging impressive design with safety technology. Customizable to different heights, the Heads-Up Display helps drivers stay focused and informed.
AWARD-WINNING RAW POWER

True grit makes glamour go further. The LX has made a name for itself on the desert race circuit by taking the lead without typically taking any stops, any flat tires, any mechanical issues, or any major deviations from the SUV gleaming in the dealership. Owning races like the notorious Mint 400 using stock suspension arms, a standard fuel system and a largely stock engine, the LX has crawled up rock faces, powered through silt beds and persevered through almost 40 consecutive hours of the most grueling races in the world—taking the crown nearly a dozen times across the off-road circuit.
A lockable center differential and two-speed transfer case give the LX an off-road advantage. Technologies like off-road CRAWL Control™ with Turn Assist and 4-wheel Active Traction Control with Multi-Terrain Select deliver intelligent performance.
SEARCH AND DESTROY EXPECTATIONS

Seize the day and ultimate performance with the push of a button. CRAWL Control™ takes cruise control uphill and off-road for maximum capability. Multi-Terrain Select, Adaptive Variable Suspension and Active Height Control work together to precisely manage wheel and body displacement. When the vehicle encounters uneven terrain, these systems optimize suspension articulation to help the LX maintain traction at all four wheels, while also maintaining ride comfort. Just select low-range on the transfer case, lock the center differential, and you’re ready to tame almost anything off the beaten path.
FULL-TIME FOUR-WHEEL DRIVE, FULL-TIME DOMINATION.

Full-time four-wheel drive with 4-wheel Active Traction Control can respond to changes in road conditions and send power to the wheels that can handle the engine’s prodigious output—with no extra effort from the driver.

FORWARD-LOOKING STATEMENTS

The statements contained herein, including the estimated vehicle prices, may not be achieved including due to factors such as changes in market conditions, unavailability of some options, or other factors.

LIMITED AND TOYOTA WARRANTY

See Owner’s Manual for details.

3. Before towing, confirm your vehicle and trailer are compatible and you have any necessary additional equipment. If your trailer weight is above 4,000 kg (8,820 lb), it is necessary to use a weight-distributing hitch with sufficient capacity. Do not exceed any Weight Rating and follow all instructions and cautions from your trailer hitch manufacturer and vehicle Owner’s Manual. The maximum amount you can tow depends on the load and condition of your vehicle, towing equipment, and available equipment. Calculated with the new SAE J2807 method.

5. The Pre-Collision System is designed to help reduce the speed of a vehicle if an impact is imminent and to help reduce impact speed. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as vehicle, driver and road conditions. See Owner’s Manual for further information.

6. The Rear Traffic Alert system is part of the Lexus Safety System+, designed to detect the presence of a vehicle ahead of the vehicle, to determine whether an impact is imminent, and to help reduce impact speed. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as vehicle, driver and road conditions. See Owner’s Manual for further information.

13. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability & accuracy of the information provided by the Navigation System is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change.

16. The Pre-Collision System is designed to help reduce the speed of a vehicle if an impact is imminent and to help reduce impact speed. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as vehicle and smartphone connectivity. See usage precautions, service limitations & Owner’s Manual.

17. Mark Levinson® is a registered trademark of Harman International Industries, Inc. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See lexus.com for details. Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. See lexus.com for details.

18. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See Owner’s Manual for details.

19. Intelligent high-beam system operates at speeds above 1 mph. Situated such as a dirt road, windshield, variable weather, lighting conditions and hill terrain will limit effectiveness, requiring the driver to manually turn off. See Owner’s Manual for details. Lane Departure Alert is designed to read lane markers under certain conditions and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving.

20. Lane Departure Warning System is designed to assist the driver and is not a substitute for safe and attentive driving practices. See Owner’s Manual for details.

21. The Panoramic View Monitor and Multi-Terrain Monitor do not provide a comprehensive view of the area around your vehicle and use your mirrors to confirm clearance. Cold weather may limit effectiveness and view may become cloudy. Backup camera does not provide a comprehensive view of the area behind your vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance.

22. Crawl Control is designed for driving on difficult terrain at low speeds. It assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. The LX 570’s design to meet off-road driving requirements, but off-roading is inherently dangerous. Always wear seatbelts.

24. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt.

25. EPA-estimated ratings. Actual mileage will vary.

26. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range and clarity of the sensor for a complete list of limitations and directions regarding use of the monitor, see Owner’s Manual.

27. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rearward clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see Owner’s Manual.

28. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if equipped) are deployed to inflate only under certain circumstances and in certain types of collisions and may not inflate in all collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate.

29. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat.

31. In the event of an inflating AB, seatbelt may cause serious injury or death. See Owner’s Manual for further information/warnings.

32. Do not rely exclusively on the Intuitive Parking Assist system. Always look over your shoulder and use your mirrors to confirm clearance. System effectiveness depends on many factors. See Owner’s Manual for details.

34. The word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. A compatible Bluetooth-enabled phone must first be paired. Phone performance depends on software, coverage & carrier.

35. The HD Radio® Technology is manufactured under license from iBiquity Digital Corporation USA and Foreign Patents, HD Radio™ and the HD, HD Radio, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based on information available at time of printing, are subject to change, and may not apply to all U.S. vehicles. Some vehicles shown with available equipment. See your Lexus dealer for details.
