

## 2008 LEXUS **LS Hybrid**

**CHANGING THE LUXURY SEDAN. LEAVING THE WORLD AS IS.** Introducing the all-new 2008 Lexus LS 600h L—the world’s first hybrid flagship sedan. It features the world’s first V8 all-wheel drive (AWD) system on a luxury hybrid, boasting a remarkable 438 horsepower<sup>1</sup>. However, power isn’t the sole reason other sedans will have to catch up. An available groundbreaking computer-controlled parallel parking system<sup>2</sup> allows the LS Hybrid to virtually park itself. Plus, a four-zone automatic climate control featuring an infrared temperature sensor<sup>3</sup> is also available. Best of all, the LS 600h L manages to accomplish all of this while taking less of a toll on the environment.
