

Electronic Brakeforce Distribution (EBD)

Direct Tire Pressure Monitor System²⁵

Full-time four-wheel drive with TORSEN[®]13 limited-slip center differential

Crawl Control⁴

Manual-locking center differential

Hill-start Assist Control (HAC)²⁶

Variable Gear-Ratio Steering (VGRS)

Highly rigid body structure with front and rear crumple zones

Reinforced ladder-type frame

Side-impact door beams

Impact-dissipating upper interior trim

Collapsible steering column

Dual-swivel Adaptive Front Lighting System (AFS)

Headlamp washers

Daytime running lights

Integrated foglamps

LED taillamps

Rain-sensing intermittent windshield wipers with mist cycle and deicer

Intermittent rear-window wiper with washer

Rear-window defogger with auto-off timer

Vehicle theft-deterrent and engine-immobilizer system⁹, with in-key transponder

Power-adjustable, auto-folding outside mirrors with defoggers, puddle lamps and auto tilt-down in reverse

First aid kit

Tool kit

OPTIONS AND ACCESSORIES

Mark Levinson 19-speaker, 450-watt @ less than 0.1% THD, 20-20,000 Hz²⁷ Reference Surround Sound Audio System³ with Hard Disk Drive, 7.1 architecture and in-dash, single-feed, six-disc DVD/CD auto-changer featuring DVD-audio and DVD-video playback with Lexus Link[®]29

Pre-Collision System (PCS)² with Dynamic Radar Cruise Control¹⁹

DVD Rear-Seat Entertainment System (RSES)

Intuitive Parking Assist with Wide-view Front and Side Monitor System¹

Climate-comfort front seats and heated second-row seats

Premium carpet floor mats

Glass breakage sensor

Wireless headphones²⁹

Cargo mat

Wheel locks

Cargo net

All-weather cargo mat

All-weather floor mats

Leather care kit

Roof rack attachment – bike rack

Roof rack attachment – ski/snowboard rack

Touch-up paint

Towing equipment – trailer ball¹²

DISCLAIMERS

1. The Wide-view Front and Side Monitor does not provide a comprehensive view of the front and side areas of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy.

2. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information.

3. Mark Levinson is a registered trademark of Harman International Industries, Inc.

4. The LX 570 is designed to meet most off-road driving requirements, but off-roading is inherently dangerous. Abusive use may result in bodily harm or damage. Lexus encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times.

5. The Navigation System is designed to assist in locating an address or point of interest. XM NavTraffic requires a monthly service fee and is designed to provide real-time traffic or alternative routes of travel. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your *Navigation System Owner's Manual* for further details.

6. The Bluetooth[®] technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus.

7. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy.

8. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system.

9. The engine immobilizer is a state-of-the-art anti-theft system. The key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key, it can be costly to replace. If you lose a key, your Lexus dealer can help, or you can find a qualified independent locksmith to perform high security key services at www.aloa.org.

10. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease.

11. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt.

12. Before towing, confirm your vehicle and trailer are compatible, hooked up properly and you have any necessary additional equipment. If gross trailer weight is above 5,000 lbs (2,268 kg), it is necessary to use a weight distributing hitch with sufficient capacity. Do not exceed any Weight Ratings and follow all instructions and cautions from your trailer-hitch manufacturer and vehicle *Owner's Manual*. The maximum amount you can tow depends on the total weight of any cargo, occupants and available equipment.

13. TORSEN[®] is a registered trademark of Zexel Torsen, Inc.

14. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering

input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details.

15. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions.

16. 20-in tires are expected to experience greater wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending on driving conditions.

17. Active headrests can help prevent or limit the extent of whiplash in certain types of rear-end collisions.

18. All the airbag ("AB") systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-Force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings.

19. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important cautions and instructions.

20. 2008 EPA MPG estimates. For model year 2008, the EPA has revised the way the estimated fuel economy rating is determined. Actual mileage will vary.

21. Functioning XM Satellite Radio requires a compatible receiver and monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions subject to terms and conditions available at www.xmradio.com. Available only in the 48 contiguous United States.

22. iPod is a registered trademark of Apple Inc.

23. Roof rack with rails is not recommended for luggage.

24. Roof rack capacity is 130 lb. Please see your *Owner's Manual* for details.

25. The Lexus Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details.

26. HAC is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details.

27. Continuous average power, all channels driven, at less than 0.1% THD; 20-20,000 Hz.

28. Contact with the Lexus Link[®] Call Center is limited by cellular connection availability and reception of GPS satellite signals, so sometimes you may be unable to contact the Call Center or receive emergency service support. Lexus Link system includes one-year Safe & Sound service. Enrollment and Subscription Service Agreement required. Additional service packages are available for additional charges.

29. Headphones are for passenger use only. Do not use while operating vehicle.

30. Measurement of vehicle in X-AHC Normal setting.

31. Cargo and load capacity limited by weight and distribution.

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *LX Warranty and Services Guide* at your Lexus dealer for details.
