PROTECT YOUR LEXUS AGAINST CORROSION

WHAT YOU CAN DO

Your Lexus vehicle has been specially designed and built to resist corrosion. The exterior sheet metal was formed from Excelite II, which is an antirust sheet steel that is coated with zinc. This steel will provide superb antirust performance. Additionally, your vehicle is equipped with antichip paint and side-protective urethane claddings.

Application of additional rust-inhibiting materials is not necessary to protect your Lexus, nor is it required in order to keep any remaining portion of the six-year warranty coverage provided under the New Vehicle Limited Warranty in effect.

In order to help protect your Lexus vehicle against corrosion, it is important that you care for your vehicle by following these recommendations:

- Wash your vehicle regularly using cold water and a mild vehicle wash soap.
- If insects, tar, or other similar deposits have accumulated on your vehicle, wash it as soon as possible.
- Wash your vehicle in the shade.

- Under certain conditions, special care should be taken to protect your Lexus against corrosion. If you drive on salted or dust-controlled roads, or if you drive near the ocean, hose off the undercarriage at least once a month.
- It is important that the drain holes in the lower edges of the doors and rocker panels be kept clear.
- If you detect any stone chips or scratches in the paint, touch them up immediately. You can have either your Lexus dealer perform the touch-up, or you can perform the touch-up yourself by first contacting your Lexus dealership Parts Specialist to assist you in purchasing touch-up paint.
- If you carry special cargo, such as chemicals, fertilizer, or de-icer materials, be sure that such materials are well packaged and sealed.
- If your Lexus vehicle is damaged due to an accident or similar cause that destroys the paint and protective coating, have your vehicle repaired as soon as possible.

Lexus' corrosion perforation warranty does not cover non-genuine sheet metal parts or damage caused by the installation of such non-genuine sheet metal parts.

LEXUS KEY REPLACEMENT

Lexus has designed a special vehicle key that incorporates many unique features. As an added security feature, the inner cut grooves of the Lexus key make normal duplication difficult.

To provide a special service to our customers, Lexus has established a system that enables you to have additional keys made. Simply visit your Lexus dealer. An order will be placed for the number of additional keys you require. In most cases, your order should be ready for pickup within five (5) business days.

Emergency orders (for MASTER keys only) can be placed by calling: 1-800-25-LEXUS (1-800-255-3987)

If your vehicle is equipped with the remote unlock key feature, replacement keys can be purchased in sets of one, two, or three. Please see the Parts Specialist at your Lexus dealership for assistance.

SAFETY BELT INFORMATION

THE EXPERTS SAY, "BUCKLE UP!"

The importance of using seat belts cannot be overemphasized. The safety experts from government and private organizations say, "Buckle Up!" Here are a few good reasons why:

- Properly adjusted seat belts can help reduce driving fatigue and help the driver maintain better vehicle control.
- Studies show that generally the safest place in a collision is inside your vehicle. Seat belts can help keep you there.
- Eight out of ten injury accidents occur at speeds under 40 mph, but even below 5 mph, children can be injured during quick turns or sudden stops. Children who are too small to wear regular seat belts should always be provided with a Child Restraint System dynamically tested to meet federal standards.

In addition to seat belts, every Lexus vehicle is equipped with a driver's side* restraint system (SRS airbag). Airbags have been designed to supplement the three-point seat belt by providing additional protection by restraining the driver's forward motion in the event of a more serious frontal accident. **The SRS does not replace use of the seat belt.** To obtain maximum protection in an accident, the driver and all passengers in the vehicle should always wear their seat belts.

GET THAT GOOD FEELING

Familiarize yourself with the operation of your seat belts, as explained in your *Owner's Manual*. Wear them every time you drive your Lexus, and encourage those who ride with you to do the same.

Remember: For peace of mind, buckle up...it's a good feeling!

* Some Lexus models are equipped with a passenger-side supplemental restraint system. See your *Owner's Manual* for details.

ROADSIDE ASSISTANCE PROTECTION

HOW TO GET HELP

To obtain emergency Roadside Assistance, simply perform the following procedures:

1. Call 1-800-25-LEXUS (1-800-255-3987)
2. Have as much of the following information as possible available to expedite the dispatch process:
 - Vehicle Identification Number (This consists of 17 digits and can be found on the lower front corner of the dashboard on the driver's side and on a sticker on the driver's side door post.)
 - Owner's Name and Address
 - Vehicle License Plate Number
3. The dispatch operator will ask you to provide the area code and first three digits of the telephone number from which you are calling to determine your location.
4. After determining the specific location of your vehicle and the services requested, the dispatch operator will keep you on the line while arranging for a local roadside service provider to respond to your call.
5. The dispatch operator will then come back to the line and provide you with an estimated time of arrival.
6. The local roadside service agency will then provide the necessary assistance.

YOUR CONSTANT TRAVEL COMPANION

Across the continental U.S. and Canada, Lexus provides:

- Roadside services such as flat tire, lockout, jump start and emergency fuel delivery (up to 3 gallons).
- Unlimited towing to the nearest Lexus dealership.
- Assistance in locating substitute transportation and lodging.
- A travel protection guarantee (for warrantable repairs) that covers substitute transportation and lodging and meal expense reimbursement. Please see the Special Services section on page 6 for terms, conditions, and restrictions.
- And, as a further service to Lexus owners, at the end of your two-year Roadside Assistance coverage, you will be invited to purchase membership in a special motor club for Lexus Owners. Roadside Assistance coverage, trip planning and hotel and travel discounts are just a sampling of the special benefits that are available.

NATIONAL SERVICE HISTORY DATABASE

As a Lexus owner you will be able to visit any Lexus dealer in the continental U.S. for service, knowing your vehicle's Lexus-performed service history is available at that dealership.

This has been made possible through Lexus' establishment of the first National Service History database in the automotive industry.

Whenever you have your Lexus serviced at an authorized Lexus dealership located in the continental U.S., your servicing information is automatically transmitted to our central National Service History database. Once this information is in our system, it is readily accessible to any Lexus dealership.

If you move or are traveling, any Lexus dealership will have access to your vehicle's service history. When you decide to either sell or trade in your current Lexus for a newer model, your vehicle's service history can be obtained and presented along with your vehicle as confirmation of the excellent condition in which it was kept.
