

2016

GX

GX 460

301-hp,¹ 4.6-liter V8; dual Variable Valve Timing with intelligence (VVT-i); six-speed automatic Electronically Controlled Transmission with intelligence (ECT-i); full-time four-wheel drive (4WD) and seven-passenger seating.

GX 460 PREMIUM

Features additional upgrades including an interior trimmed in supple leather and Mahogany wood accents, a third zone of climate control for rear passengers, Intuitive Parking Assist² and 3-D Navigation.³

GX 460 LUXURY

Features the above as well as the addition of an Adaptive Variable Suspension, an interior trimmed with semi-aniline leather and a power-folding third row.

INTRODUCING THE 2016 GX

BEAT YOUR OWN PATH.

Jump in. And journey on. Whether it's rugged terrain⁴ or an urban landscape, the GX gets you there with confidence and in unparalleled comfort. Along the way, available 3-D Navigation³ helps keep you on track while full-time 4WD and available CRAWL Control⁵ give you the capability to blaze your own trail.

INDULGE YOUR WHIMS

BUILT FOR ADVENTURE

When spontaneity calls, answer it with a 4.6-liter V8 engine that delivers an impressive 301 horsepower.¹ Downhill Assist Control (DAC)⁶ works with the Anti-lock Braking System and Active Traction Control to help keep the GX at a slow, constant descent speed, while Hill-start Assist Control (HAC)⁶ is designed to increase control during climbing or stopping by helping to prevent rollback. Up, down or jetting around town, the GX is up to the challenge.

AND YOURSELF

Comfort yourself in luxury. First-class seating features supple, yet durable, available fine leather trim and 10-way power-adjustable front seats that include lumbar adjustability, ensuring a blissful journey. The GX interior is also meticulously crafted right down to the Linear Espresso or available Mahogany wood trim. Wherever you roam, the GX provides indulgence for all of the senses.

Superior comfort surrounds all seven passengers no matter what the elements are outside. Available heated and ventilated front seats, heated outboard second-row seats and three-zone climate control make the trip as enjoyable as the destination that awaits. Meanwhile, a tilt-and-slide seat feature simplifies passenger-side access to the third row.

CHANGE IT UP.

VERSATILITY ON THE GO

The GX is ready for adventures big and small. Not only does it feature a second-row 40/20/40-split seatback to accommodate various kinds of cargo,⁷ but the third-row seats can fold flat into the cargo-area floor manually or, when equipped, with the press of a button, making packing easier than ever. And, for added convenience, the glass hatch allows you to place small items like shopping bags in the vehicle without opening the rear door.

CONQUER ALL EXPECTATIONS.

Wherever it roams, the 301-horsepower¹ GX powers through every task put before it. On-road, the six-speed sequential-shift automatic transmission provides a smooth ride, effortless acceleration and faster shifting response. And, when street turns to tundra, you'll enjoy the benefits of a full-time 4WD system that features a TORSSEN[®] torque-sensing limited-slip center differential.⁸ Combined with 4-wheel Active Traction Control, this system efficiently delivers engine power to the wheels with traction, helping to minimize tire spin in slippery conditions. For maximum off-road traction, the center differential can be locked with the press of a button.

POWER CENTRAL

The GX was specifically engineered with power to spare—and then some. So bring the adventure along with you. Robust body-on-frame construction and 329 lb-ft of torque¹ at low rpm enable the GX to tow up to 6,500 pounds^{9,10} broadening your possibilities for fun.

And, for peace of mind, Trailer Sway Control¹¹ helps detect and prevent excessive trailer movement. To help reduce sway, braking is applied independently to each wheel and the throttle is moderated to help reduce vehicle speed. A flashing indicator alerts the driver when the system is taking corrective measures.

ROCK STEADY

Commanding the most daunting terrain is made easy with the advanced off-road⁴ technology of the GX. With the press of a button, available CRAWL Control⁵ carefully manages the throttle and brakes to help you maintain a slow, consistent speed over rugged terrain.⁴ All without your feet ever touching the pedals.

DYNAMIC SUSPENSION

The ingenious Kinetic Dynamic Suspension System is designed to change with the terrain. By automatically fixing the front and rear stabilizer bars in place when on-road, it helps to minimize body lean while cornering. Off-road,⁴ it allows each wheel to move more independently, so the wheel on uneven ground can react while the other wheels are relatively unaffected. Whether you're navigating rocky mountains⁴ or busy streets, the GX is equipped for either task.

WIELD THE POWER WITHIN.

Boasting a 4.6-liter V8 engine, the GX is filled with ample power. To help ensure power is used in the right way, at the right time, Variable Valve Timing with intelligence helps to improve low-speed torque and high-speed horsepower, anticipating the power you need and delivering it instantaneously.

In addition to the benefits of the Kinetic Dynamic Suspension System, the GX also offers an Adaptive Variable Suspension. Personalize your driving experience using three settings, which adjust the suspension to make the ride as engaging or smooth as you'd like it to be.

INNOVATION AT HAND.

From an available Navigation System³ with 3-D views to available rear-seat climate controls and dual-screen Rear-Seat Entertainment System,¹² innovation surrounds you inside and out, where either way a world of accommodation awaits.

Options shown.

THE NEXT LEVEL OF CONNECTIVITY

Lexus Enform¹³, our available suite of branded connected services, consists of five products, each of which offers unique ways to enhance the driving experience. With a complimentary first year of service—entertainment, convenience and peace of mind are now within reach.

SAFETY CONNECT

Lexus Enform Safety Connect¹⁴ offers you the peace of mind of knowing that assistance can be there when you need it most. Whether you're involved in a collision and unable to call for help, your vehicle is stolen, or there is some other type of emergency, assistance can be sent directly to your vehicle's GPS location.

SERVICE CONNECT

Our new Lexus Enform Service Connect¹⁵ offers remote access to information about your vehicle's status and maintenance needs. Easily accessed through LexusDrivers.com or the My Lexus and Beyond mobile app, you can get information on everything from your vehicle's fuel level and mileage to maintenance alerts and vehicle health reports.

REMOTE

The Lexus Enform Remote¹⁶ mobile app can remotely start the engine, lock and unlock doors, check the status of doors and windows as well as your fuel level, and can help find your vehicle's location in a parking lot. And, should you loan your Lexus to another driver, you can receive instant alerts if, for example, a preset speed or mile limit is exceeded.

DESTINATIONS

Lexus Enform Destinations¹³ offers convenient 24-hour, en-route navigation assistance from a live response center agent who can help you find locations and automatically upload the destinations to your available Navigation System.³ Planning a trip? You can also search, save and upload destinations from the comfort of your home or office.

APP SUITE

The Lexus Enform App Suite¹³ offers access to your favorite mobile applications through your vehicle's center-console display. After downloading the app on your compatible smartphone, you can search local listings, stream music, place restaurant reservations and buy movie tickets—all from the center-console display.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other Lexus features, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled iPad^{®17} apps like FaceTime.^{®18} Learn more about these complimentary services at lexus.com/specialists.

SAFETY. COMFORT. CONVENIENCE.

WIDE-VIEW FRONT AND SIDE MONITOR SYSTEM

The GX helps you see the world around you. This available system¹⁹ features a wide-angle front-mounted camera to help you see around blind corners, such as when exiting a parking garage. A second camera located underneath the passenger-side mirror is particularly useful when parallel parking, navigating narrow passageways and in tight parking spaces.

BLIND SPOT MONITOR WITH REAR CROSS-TRAFFIC ALERT

To help you change lanes with confidence, the available Blind Spot Monitor²⁰ is designed to detect and warn you of vehicles approaching or positioned in the adjacent lanes. Rear Cross-Traffic Alert²¹ can provide peace of mind when backing out of a parking space by notifying you of vehicles approaching from either side.

PRE-COLLISION SYSTEM AND DYNAMIC RADAR CRUISE CONTROL

The available Pre-Collision System²² is engineered to detect an imminent frontal collision and, while designed to retract the front seatbelts, automatically prepares Brake Assist²³ to help provide increased braking pressure the moment you step on the brake pedal. To help you maintain a preset following distance from the vehicle ahead, Dynamic Radar Cruise Control²⁴ uses radar technology to sense the speed of the vehicle in front of you. If the GX gets too close to the vehicle ahead, the throttle is automatically reduced and the brakes are applied. As soon as the road ahead clears, the GX returns to its preset speed.

MARK LEVINSON® AUDIO

Designed exclusively for Lexus, the available Mark Levinson Premium Surround Sound System²⁵ features 7.1-channel architecture, 17 speakers and 330 watts of maximum power. The result is an audio experience that resembles a concert hall, immersing the cabin in multidimensional sound that was once reserved for six-figure home-audio systems.

REAR-SEAT ENTERTAINMENT

Rear-seat passengers can enjoy individualized entertainment with the available dual-screen Rear-Seat Entertainment System.¹² With 7.0-inch LCD screens located behind the driver's and front passenger's headrests, the system features a pair of wireless headphones²⁶ and can be used as a DVD player, audio player or game console via audio and video input jacks.

3-D NAVIGATION

This available voice-activated system³ can map millions of points of interest across the country and can display information in English, French and Spanish. And, in addition to offering up-to-date traffic and weather information,²⁷ 3-D city views, and simulated views of approaching highway junctions, it displays the current speed limit and can automatically identify nearby fuel stations if you begin to run low on fuel.

VOICE RECOGNITION

Command your GX with ease. Advanced voice command, available with Navigation,³ enables you to place compatible Bluetooth^{®28}-enabled phone calls and operate climate, audio and navigation functions using normal, everyday speech. If you say "It's too hot in here," for example, the climate control will automatically lower the temperature by four degrees. With Enhanced Bluetooth technology,²⁸ compatible Bluetooth²⁸ mobile-phone address-book contacts can be viewed and accessed on the Navigation System³ display or via voice command.

THE HIGHEST LEVEL OF LUXURY

For those who want it all while escaping it all, the GX Luxury model provides sophisticated comfort you can take with you—and semi-aniline leather is just the start. This refined leather-trimmed interior is velvety soft from being dyed all the way through, unlike leathers with conventional surface dyes. It also requires a higher grade of leather to be used since imperfections cannot be hidden. As versatile as it is luxurious, the GX Luxury model also includes power fold-flat third-row seats, Adaptive Variable Suspension, and 18-inch split-six-spoke alloy wheels²⁹ with Liquid Graphite finish.

WARRANTY Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *GX Warranty and Services Guide* at your Lexus dealer for details.

DISCLOSURES 1. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 2. Do not rely exclusively on the Intuitive Parking Assist system. Always look over your shoulder and use your mirrors to confirm clearance. System effectiveness depends on many factors. See *Owner's Manual* for details. 3. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability & accuracy of the information provided by the Navigation System is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available at an additional cost from your dealer. See *Navigation System Owner's Manual* for details. 4. The GX 460 is designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Lexus encourages responsible operation to help protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in cargo area. Tow hitch receivers/ball mount kits are not intended to provide crash protection. 5. CRAWL Control is designed for driving on difficult terrain at low speeds. It assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. The GX 460 is designed to meet off-road driving requirements, but off-roading is inherently dangerous. Always wear seatbelts. 6. DAC is designed to help the driver maintain vehicle control and speed on steep downhill descents. HAC is designed to help minimize backward rolling on steep ascents. Neither system is a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC and HAC will be effective in preventing a loss of control. See *Owner's Manual* for further details. 7. Cargo and load capacity limited by weight and distribution. 8. TORSER[®] is a registered trademark of Zexel Torsen, Inc. 9. Please consult your Lexus dealer or *Owner's Manual* for towing and load specifications. 10. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. Calculated with the new SAE J2807 method. 11. Trailer Sway Control (TSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether TSC will be effective in preventing a loss of control. See *Owner's Manual* for details. 12. A single-disc DVD player is included. A separate DVD player or game system utilizing the center console's video/audio inputs is required in order to use the split-screen function of the dual-screen system. 13. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/Services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See lexus.com/enform for details. 14. Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. See lexus.com for details. 15. Information provided is based on the last time data was collected from the vehicle and may not be up to date. System functionality depends on vehicle connectivity. 16. Use only if aware of circumstances surrounding the vehicle, and it is legal & safe to do so (e.g., car uncovered in open area, no people or pets in or nearby). If vehicle has not been driven for over a week, services will not be available until next time vehicle is started. Functionality depends on many factors, such as vehicle and smartphone connectivity. See usage precautions, service limitations & *Owner's Manual*. Data charges may apply. Registration, app download are required. Must have active Safety Connect subscription. Annual fee required after 1-year trial. 17. iPhone[®] and iPad[®] are registered trademarks of Apple Inc. All rights reserved. 18. FaceTime[®] is a registered trademark of Apple Inc. All rights reserved. 19. The Wide-view Front and Side Monitor system does not provide a comprehensive view of the front and side areas of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. 20. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor, see *Owner's Manual*. 21. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see *Owner's Manual*. 22. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See *Owner's Manual* for further information. 23. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance, tire and road conditions. 24. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See *Owner's Manual* for details. 25. Mark Levinson[®] is a registered trademark of Harman International Industries, Inc. 26. Headphones are for passenger use only. Do not use while operating vehicle. 27. HD Radio[™] Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio[™] and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. 28. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you. The Bluetooth[®] word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. A compatible Bluetooth-enabled phone must first be paired. Phone performance depends on software, coverage & carrier. 29. 18-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. 30. Maximum possible cargo and load capacity indicated. 31. Preliminary mileage estimates determined by Lexus. EPA mileage estimates not available at time of publishing. Actual mileage will vary. 32. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 33. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org. 34. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. 35. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. 36. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See *Owner's Manual* for further information/warnings. 37. The Driver Attention Monitor is designed to alert the driver if a potential hazard is detected ahead and the driver's face appears to be turned away. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors. See *Owner's Manual* for further information. 38. Lane Departure Alert is designed to read lane markers under certain conditions and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See *Owner's Manual* for more information. 39. Intelligent high-beams system operates at speeds above 21mph. Situations such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn off. See *Owner's Manual* for details. 40. F SPORT Accessories are warranted for 12 months from the date of installation or for the balance of the new-car or Certified Pre-Owned (CPO) warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. F SPORT Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase only, and the warranty coverage is limited to the replacement value of the F SPORT Accessories. These warranties do not cover maintenance services such as replacement of brake pads/linings and clutch linings or noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Part failure caused by improper installation by anyone other than an authorized Lexus dealer may void the F SPORT Accessories warranty, the new-vehicle warranty or both. F SPORT is a trademark of Toyota Motor Corporation. Products available through participating Lexus dealers. 41. This floor mat was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat must be secured with its fasteners. Do not install a floor mat on top of an existing floor mat. 42. Roof rack with rails not recommended for luggage. 43. Roof rack capacity is 176 lb. See *Owner's Manual* for details.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
