What happens when you combine a blank canvas, an unwavering vision and DNA of the world-renowned LFA supercar? A Lexus you have to experience to believe. You'll feel it in the way the all-new chassis' added rigidity, wider stance and lower posture help keep you firmly positioned when attacking corners. And how it provides a noticeably quieter and smoother ride when cruising. You'll experience it in the way its new, lighter and more nimble suspension systems deliver invigorating steering feel and razor-sharp response while markedly reducing body lean. And, for those craving added exhilaration with their exhilaration, you'll feel it even more with the more aggressively tuned GS F SPORT. This is performance worthy of a standing ovation. This is the Lexus model line that will change the way you see Lexus.

PERFORMANCE FROM THE GROUND UP

In designing the all-new GS platform, Lexus engineers traveled one million miles to maximize the driving dynamics. As a result, the stance was made wider and body rigidity was increased by 14% through additional optimally placed spot- and laser-weld points.

All-new front and rear suspensions were engineered with aluminum components, reducing unsprung weight and delivering significantly greater rigidity. In the rear, improved suspension geometry further enhances control and tire cornering force. Learn more at lexus.com/GS/platform.
INTRODUCING THE ALL-NEW 2013 GS MODEL LINE

Introducing the new face of Lexus. Where multiple performance-driving modes and a commanding seating position invigorate you. Bold lines, sequential ambient lighting and an accommodating interior welcome you. Where available industry-leading technology keeps you connected like never before. And Premium and Luxury Packages surround you with our finest materials and innovations. Available in multiple versions, including all-wheel drive, Hybrid and F SPORT, the GS model line doesn’t just raise the bar. It sets a new one altogether.

GS 350
Experience a bold step forward in performance, technology and design. Available with Premium and Luxury Packages, the all-new GS features exceptional agility by performance driving-modes and offers seamless connectivity to your favorite mobile apps. All with an assortment of leather and wood trims to make the interior of your own. And for even more personalized comfort, the Luxury Package features amenities like 18-way power front seats and rear-seat climate and audio controls.

GS 350 F SPORT
Taking the exhilarating performance of the GS to the next level, the GS F SPORT connects you to the road like never before. Among its upgrades, it boasts an even more aggressive Sport S+ driving mode, a specially tuned sport suspension, staggered-width 19-in wheels (RWD), an available Lexus Dynamic Handling system with Dynamic Rear Steering (DRS). It also features a variety of exclusive design elements, including a more aggressive front fascia and a 16-way Sport driver’s seat with power side bolsters.

GS 450h
Equipped with the Premium or available Luxury Package, the GS Hybrid defies compromise and convention. In addition to dynamic performance features like paddle shifters and new Sport driving modes, you’ll find world’s firsts like an available bamboo-trimmed steering wheel and a port- and direct-injected Atkinson-cycle engine that delivers a 34 mpg (hwy) rating and acceleration that will be the envy of your V8-driving friends.

Vehicles shown with available equipment.

From this car forward, THERE’S NO GOING BACK

INTRODUCING THE ALL-NEW 2013 GS MODEL LINE

Introducing the new face of Lexus. Where multiple performance-driving modes and a commanding seating position invigorate you. Bold lines, sequential ambient lighting and an accommodating interior welcome you. Where available industry-leading technology keeps you connected like never before. And Premium and Luxury Packages surround you with our finest materials and innovations. Available in multiple versions, including all-wheel drive, Hybrid and F SPORT, the GS model line doesn’t just raise the bar. It sets a new one altogether.
CONVENIENCE COMES TO THE BIG SCREEN

The available next-generation Lexus Enform Application Suite uses your compatible smartphone to give you in-vehicle access to your favorite mobile applications. You can connect to Bing, iHeartRadio, MovieTickets.com, OpenTable, Pandora,® Yelp,® and Facebook Places.® And, with wireless updates, new apps will be added as they become available. Learn more at lexus.com/GS/enform.

12.3-INCH MULTIMEDIA DISPLAY

Giving you the ability to see and do more, the GS offers the industry’s first available 12.3-inch high-resolution split-screen multimedia display. It provides immediate, simultaneous access to various systems, including navigation, audio or climate controls. And greet you with a customizable image when the ignition button is pressed. Learn more at lexus.com/GS/display.

THE FUTURE, FRONT AND CENTER.

This is progress on full display. Literally. An available 12.3-inch high-resolution split-screen multimedia display offers seamless access to your favorite apps. The LED indicators on the premium analog clock illuminate, welcoming your approach. Drive Mode Select delivers customized performance. And the next-generation Remote Touch device glides and functions like a computer mouse. With the Luxury Package, progress is taken to the next level. You’ll find a wood- and leather-trimmed steering wheel that’s designed to fit perfectly in your hands regardless of their placement. Eighteen-way power, heated and ventilated front seats trimmed in semi-aniline leather conform to you and your front passenger. And, with its three-zone climate-control system, rear-seat passengers can even use the armrest’s controls to operate climate, audio and rear sunshade functions.

GS 350 shown with available equipment.
YOUR ENTRANCE, CHOREOGRAPHED
Imagine arriving in style even before you’ve left. As you approach, the ground is illuminated in soft white light from the side mirrors. The new LED dome and rear lamps begin to glow, inviting you in. As you unlock the doors, the analog LED clock and ambient lights in the door trim and foot wells come to life. Press the ignition button, and the base of the Remote Touch device glows, the display animation begins, and the welcoming sequence culminates with the reveal of the gauge cluster.

AN INTERIOR ALL YOUR OWN
When you approach interior design as you would a room in your home, the results are dramatic. Four colors of leather trim: timeless Black to a bold new Cabernet. Four types of decorative accents: genuine bamboo to striated aluminum. Even three colors of headliner. Of course, such a wide range of color combinations isn’t all that sets the GS model line apart. Distinctive contrast stitching offers visual and tactile appeal to the center console, door panel, shift knob and the entire length of the sculpted dash. And extensive legroom and headroom let you make the most of its spacious cabin. The Premium Package goes one step further, offering the added comfort of heat and ventilation in the standard 10-way adjustable front seats and the convenience of rain-sensing wipers and power rear sunshade. Tailor your own GS at lexus.com/GS/design.

YOUR PRIVATE CONCERT
Imagine an interior filled with sound as crisp and dimensional, as if your favorite band were sitting in the car with you. And a system so advanced it can account for the volume and tone of unwanted ambient noise. This is the available 835-watt, 17-speaker Mark Levinson® Premium Surround Sound Audio System. A triumph in automotive audio, its industry-first GreenEdge™ Technology makes its speakers more than twice as powerful as conventional ones while utilizing less power.

*Versus competitors.
INTRODUCING THE GS 350 F SPORT
Take performance and style to the next level with the GS F SPORT's unique race-inspired components and design elements. An all-new F SPORT-tuned suspension, larger front brakes with two-piece rotors and four-piston calipers (FWD), 19-inch LFA-inspired wheels and available Lexus Dynamic Handling system deliver jaw-dropping performance. Available all-wheel drive provides improved traction and control. And exterior styling is dramatically enhanced by an aggressive front fascia, F SPORT grille and distinctive rear lip spoiler. Learn more at lexus.com/GS/FSPORT.

LEXUS DYNAMIC HANDLING SYSTEM
Whether carving precisely through a canyon or maneuvering at low speeds, the available all-new Lexus Dynamic Handling system anticipates and delivers the appropriate handling through multiple integrated systems. At high speeds, an all-new Dynamic Rear Steering system turns the rear wheels in the same direction as the front for optimal agility and control. At low speeds, the rear wheels turn in the opposite direction for precise maneuvering and a tighter turning circle. All the while, the Variable Gear-Ratio Steering (VGRS) system provides optimized responsiveness and a more direct steering feel.
DRIVING MODES
Every GS enables you to customize your performance with Drive Mode Select. Feeling relaxed? In ECO mode, a calming blue light surrounds the gauge cluster while climate and throttle settings are optimized for increased fuel efficiency. Feeling a little more daring? Sport S mode changes the lighting to a fiery red and alters the powertrain for faster gear changes and more dynamic throttle mapping. Available Sport S+ mode goes a step further by also tightening the suspension and increasing steering feel. In both Sport modes, the transmission's shift points are automatically altered coming into and out of corners for sharper acceleration. And during manual gear changes, steering-wheel-mounted paddle shifting is enhanced by precise downshift rev-matching.

OPTIMIZED POSITION, PERSONALIZED PERFORMANCE.
While the driver’s seat, pedals and steering wheel in every GS were positioned and angled for maximum visibility and driving engagement, the GS F SPORT delivers an even headier dose of exhilaration. Beyond its aluminum accents and the option of an exclusive Cabernet leather-trimmed interior, you’ll be embraced by a 16-way adjustable Sport driver’s seat with power side bolsters, four-way lumbar and added thigh support. You’ll feel the fitted grip of an extra-thick LFA-inspired F SPORT steering wheel and shift knob, both trimmed in perforated leather. And you’ll experience a surge of adrenaline when you step on its aluminum sport pedals, accelerating from 0 to 60 in as fast as 5.7 seconds, a perfectly tuned exhaust note filling the cabin as you use the lightning-fast paddle shifters to downshift into a corner. One tip: Don’t forget to exhale.
ILLUMINATED DESIGN

The distinctive three-lamp design available on the GS 450h won't just catch your eye; it's designed to help them see more. Utilizing High and Low Beam LED headlamps, the GS 450h can project illumination farther and wider than conventional headlamps. This can provide an added sense of security when driving at night, particularly at high speeds. Innovative design on the 34 MPG* HIGHWAY, 0 TO 60 IN 5.6 SECONDS™

Boasting fuel efficiency and emission ratings that would be the envy of many 2.0-liter compacts, you may be tempted to think performance was somehow sacrificed in the development of the GS 450h. Think again. Equipped with the world's first Atkinson-cycle engine with port and direct fuel injection for greater response, it bursts off the line—generating the G-forces of a high-performance V8. And in Sport S and Sport S+ modes, the voltage levels of both electric motors are boosted to their maximum while the Hybrid System Indicator is replaced with a tachometer. While its performance engineers were clearly focused on efficiency and speed, its interior craftsmen took the opposite approach. In addition to the genuine bamboo trim and available semi-aniline leather, you'll enjoy the feel of an available steering wheel that's unlike any in the world. One that's crafted with bamboo that's hand-selected and painstakingly bowed from a single piece.

GS 450h isn't just limited to technology. A lower rear fascia conceals the exhaust outlets. And, by widening the vehicle's stance and lowering the hybrid battery, not only was more balance achieved, but trunk space was improved dramatically. In fact, it's 13.2-cubic-foot capacity is not only enough to hold four golf bags and two sport bags, it's comparable to many of its gas-powered counterparts.
ONE MORE WAY IT COMMANDS ATTENTION.

You can’t prepare for hazards you can’t see: a simple thought behind the incredibly advanced next-generation Pre-Collision System™ available on the GS. It connects to cameras designed to detect if you have your eyes closed or are facing away from the road when an obstacle is detected ahead. If the system determines either condition is met, it will attempt to warn you through a series of beeps and visible indications. To help you avoid a potential collision, the GS is also designed to automatically begin braking up to a full two seconds before impact. Should an impact occur, however, you can take comfort in knowing the GS is equipped with a class-leading “10-airbag system” and new Whiplash Injury Lessening (WIL) front seats designed to help decrease the severity of whiplash-type injuries in certain rear collisions.

NIGHT VIEW SYSTEM AND LANE KEEP ASSIST

An available Night View System™ uses near-infrared technology to detect objects far beyond the reach of your low-beam headlamps, displaying the image on the multimedia display. Available Lane Keep Assist™ uses a camera to detect visible lane markings. Unlike other detection systems, if you begin to veer, it can actively guide the vehicle back into the center of the lane.

HEADS-UP DISPLAY AND BLIND SPOT MONITOR

Available Heads-up Display can project key information like simple navigation directions, speed, your current gear and RPM onto the windshield in front of you, helping you to remain focused on the road ahead. Using radar technology, the available Blind Spot Monitor™ is designed to detect vehicles positioned or approaching in the adjacent lanes. At speeds above 25 mph, if a vehicle is detected, the driver is notified by an illuminated icon in the outer mirror on the affected side.

LUXURY FEATURES

GS 350

LUXURY AND CONVENIENCE
SmartAccess™ with push-button Start/Stop
Dual-zone automatic climate control with interior air filter,argon-sealed and automatic humidification mode,S/3 low energy-saving air flow control uses occupant detection sensors to optimize front-seat airflow
Power 18- and telescopic steering columns with automatic library
Lexus Memory System to control power driver’s seat (except lumbar), outside mirrors and steering wheel
Power with seat slides monochromatic with one-touch open/close and sliding sunshade
Power windows with one-touch auto-dop mechanism
Retained accessory power for windows and mirrors
Electrochromic (auto-dimming) inside rearview mirror and outside mirrors
White LED interior illumination
Homelink®x external terminal to operate compatible garage, gate, home lighting and home security systems
Lexus Pivoting and Settings (LPS)™ to customize select vehicle functions
Head lamp washers (AWD only)
SEATING AND TRIM
Matte dark brown walnut interior trim
Perforated leather-trimmed interior
Lighter-trimmed steering wheel and shift knob
10-way driver’s and front passenger’s (including lumbar) power seat
Height adjustable headrests for seats
INSTRUMENTATION, COMMUNICATION AND MULTIMEDIA
Drive Mode Select with Normal, Eco and Sport S modes
Lexus 12-speaker Premium Surround Sound System with Automatic Sound Levelizer (AWD) and GS/DVD player
Eight-hour high-resolution color multimedia display,3.5-inch color TFT multi-information display in gauge cluster
Remote Touch controller
 SiriusXM Satellite Radio™ Subscription required, 90-day trial subscription included
HD RadioTM with TrafficTm tagging
USB audio input for iPod®/iPhone®/USB compatible music player integration with audio system
Bluetooth® technology™ with automatic phonebook synchronization
Advanced voice command
Bluetooth audio profile for wireless integration of compatible music players with in-vehicle audio system
Backup camera
Steering-wheel mounted audio, phone and display controls

GS 350 WITH PREMIUM PACKAGE™
Includes all GS 350 equipment plus:

Rain-sensing wipers
Heated and ventilated front seats
Power rear sunshade

GS 350 WITH LUXURY PACKAGE™
Includes all GS 350 with Premium Package equipment plus:

Drive Mode Select adds Sport S+ mode
Adaptive Variable Suspension (AVS) with electronically controlled shock absorbers
Heated steering wheel
High-intensity interior heater
Headlamp washers and Windshield-wiper deicer
Variable-to-fixed ratio power steering
Dynamic technology and Hybrid System indicator, based on selected drive mode
Matte bamboo interior trim
Rear vaclense with concealed exhaust outlets

LEXUS F SPORT ACCESSORIES

Looking to take the performance, handling and aggressive appearance of your GS even further? Consider these 19-inch, full-face forged alloy F SPORT wheels with Liquid Silver finish and track-proven, direct replacement lowering springs. Unlike other aftermarket accessories, these are developed specifically for Lexus performance vehicles by our engineers and distributed exclusively through participating Lexus dealers, so they include comprehensive warranty coverage.

F SPORT LOWERING SPRINGS

Arriving summer 2012, these high-tensile steel lowering springs are designed to improve steering response and cornering ability, while lowering the GS for a more aggressive appearance.

THE ACCESSORY LINE

Whether you’re looking for distinctive style, enhanced capability or added peace of mind, our line of genuine Lexus accessories offers something for every model. Designed and tested exclusively by our engineers for a precise fit and finish, they offer 100% Lexus quality along with a comprehensive, nationwide warranty.

CONFIGURE YOUR GS

Developed without compromise by Lexus engineers, every F product—from the GS F SPORT and F SPORT Accessories to the high-performance F vehicles—is rooted in the rigorous demands of racing. In fact, the F marque itself was inspired by the last five corners of Fuji International Speedway, birthplace of the LFA supercar. To learn more and equip your GS, visit lexus.com/performance.

DON'T JUST OWN THE GS. MAKE IT YOURS.
Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in the contiguous United States. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. 5. Always be sure to obey traffic regulations, maintain awareness of your surroundings and all road and traffic conditions. Select Enform apps use a large amount of data, and you are responsible for all data charges. Apps and services vary by phone and carrier. Not all apps and data services are available initially. Apps identified by “®” are trademarks or registered trademarks of their respective companies and cannot be used without permission. See lexus.com for the latest information regarding apps and services. The Bluetooth wordmark and registered trademark are owned by Bluetooth SIG, Inc., and any use of such marks by Lexus is under license. Features and capabilities vary by phone. 6. Always be sure to obey traffic regulations, maintain awareness of your surroundings and all road and traffic conditions. Select apps use a large amount of data and you are responsible for all data charges. Apps and services vary by phone and carrier. 7. Daily use of Pandora or iHeartRadio may have an impact on your cellular data plan. It is estimated that one hour of streaming Pandora or iHeartRadio consumes roughly 14 to 27MB of cellular data. The other third-party applications, Bing, MovieTickets.com and OpenTable, are expected to consume a negligible amount of cellular data. You can look at the data calculators provided on your vehicle’s website or speak with your wireless carrier to understand what a plan would do to fill the pits of your Pandora® and the Pandora® logo and the Pandora trade dress are trademarks or registered trademarks of Pandora Media, Inc. used with permission. 8. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. 9. Continuous average power, all channels driven, at less than 0.1% THD; 20–20,000 Hz. 10. Mark Levinson® is a registered trademark of Harman International Industries, Inc. 11. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 12. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. 13. The Adaptive Front Lighting System can help improve vision at night. However, conditions such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually change the high beams from on to off. Please see your Owner’s Manual for additional information. 14. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, including traffic regulations, the condition of the vehicle and the driver’s awareness and reaction to the situation. 15. Class Based on “Large Luxury Cars” segment, U.S. News & World Report. 16. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of accidents. Please see your Owner’s Manual for details. 17. VSC should not be used on slippery or uneven surfaces. VSC should also be turned off (using the VSC OFF switch) when using performance tires. 18. Night View is designed to alert the driver to objects beyond the projected light of the low-beam headlamps. Driver should only glance at images occasionally. Factors including cold weather and the vehicle’s air conditioner may limit the effectiveness of the system. 19. Lane Keep Assist is designed to read the lane markers of certain roads and apply slight torque to the steering wheel to help keep the car in the center of the lane. If the vehicle approaches the outer limits of its lane, the Lane Departure Warning feature sounds a warning tone and applies slight torque to the steering wheel to notify the driver that corrective action may be required. These features are not a collision-avoidance system and are not a substitute for safe and attentive driving. System effectiveness depends on many factors. Please see your Owner’s Manual for further information. 20. Do not rely exclusively on the Blind Spot Monitor to determine if it is safe to change lanes. Always look over your shoulder and use your turn signal before changing lanes. There are several limitations to the function, detection, range and clarity of the monitor system or systems, please see your Owner’s Manual for details. 21. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should de-activate this system. 22. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess key to the vehicle, the keys emit a transponder code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle’s immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it is not easily or quickly tampered with. The key (or fob) also has a passive keyless entry function that allows you to start the vehicle automatically with a push of the SmartAccess button when you are within range. 23. iBiquity Digital Corp. 24. iBiquity Digital™ and the HD Radio logo are trademarks of iBiquity Digital Corp. 25. The Lexus Personalized Settings (LPS) can be programmed in two ways: For most models equipped with the available Navigation System, the driver can modify the Settings themselves; for other models, including those without a Navigation System, programming is done by your Lexus dealer via a one-time, complimentary offer available the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information. 26. HD Radio technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio and the HD, HD Radio and “ Arc” logos are proprietary trademarks of iBiquity Digital Corp. 27. iTunes and iPod are registered trademarks of Apple Inc. All rights reserved. 28. Bluetooth® technology enables hands-free calling and audio playback. Bluetooth® technology is enabled on your vehicle for free and works on any Bluetooth® enabled phone. 29. Bluetooth® enabled phones are not necessary to receive Bluetooth® enabled content, such as enewsletters, appointment reminders, and calendar information. 30. The backup camera does not provide a comprehensive view of the area behind the vehicle, and should not be used as a rear-view image. Always check visually to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. 31. The Adaptive Front Lighting System can help improve vision at night. However, conditions such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually change the high beams from on to off. Please see your Owner’s Manual for details. 32. Vehicle Stability Control (VSC) and Vehicle Dynamic Integration Management (VDIM) are electronic systems designed to help the driver maintain control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC/VDIM will be effective in preventing a loss of control. Please see your Owner’s Manual for further details. 33. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance, tire and road conditions. 34. Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the systems will reduce engine power to help brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop technology is not a substitute for safe driving practices. 35. The Night Vision system is designed to detect pedestrians, cyclists, animals, and other objects beyond the range of your vehicle’s headlights. The Night Vision system may not detect pedestrians, cyclists, animals or other objects at a distance. 36. Dynamic Cruise Assist Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your Owner’s Manual for important instructions and cautions. 37. F SPORT Accessories are warranted for 12 months from the date of installation or for the balance of the new-car or Certified Pre-Owned (CPO) warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. F SPORT Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase. 38. On the driver’s side, the lane markers are detected ahead and the driver’s face appears to be turned away. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors. Please see your Owner’s Manual for further information. 39. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your Owner’s Manual for important instructions and cautions. 40. F SPORT Accessories are warranted for 12 months from the date of installation or for the balance of the new-car or Certified Pre-Owned (CPO) warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. F SPORT Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase. 41. To avoid potential interference with pedal operation, do not install a floor mat on top of an existing floor mat, and each mat must be secured with retention hooks (clips). This floor mat was designed specifically for use in this vehicle. 42. The PANDORA® logo and the Pandora trade dress are trademarks or registered trademarks of Pandora Media, Inc. used with permission. 43. To learn more about PANDORA®, visit lexus.com or call Lexus Financial Services at 800-874-7050. Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details.
