INTRODUCING
THE FIRST-EVER 2015 RC

RC 350 F SPORT
Athletic performance with a highly rigid body, exclusive F SPORT styling, Adaptive Variable Suspension, 19-inch split-10-spoke wheels and an LFA-inspired gauge cluster. Available in RWD or AWD.

RC 350
Aggressive coupe body style, a 3.5-liter V6 delivering 306 horsepower, available all-new Remote Touchpad controller and six- or eight-speed transmission with paddle shifters. Available in RWD or AWD.
FASTEN YOUR EVERYTHING.

How do you engineer a vehicle that delivers radical performance matched only by its radical design? Start from the ground up. With an all-new coupe body style that boasts sculpted lines and a wide, low stance, the RC seamlessly balances eye-catching design with breathtaking performance.
Taking design cues from the sophisticated lines of the coupe body, the interior of the RC F SPORT is a sleek and aggressive command center. Its enhanced bolstered front sport seats are engineered to grip you through every turn, and a perforated leather-wrapped steering wheel and LFA-inspired instrumentation help satisfy your craving for performance. Exclusive stitching and sculptural interior lines will realize your demand for cutting-edge design.
ADAPTIVE VARIABLE SUSPENSION
This available system monitors and adjusts the shock absorber setting at each wheel, helping to reduce body lean as you enter and exit turns. In Sport S+ mode, AVS is automatically tightened for more dynamic handling, while the throttle and available Variable Gear-Ratio Steering (VGRS) systems are enhanced for greater response.

DYNAMIC REAR STEERING
Depending on speed, this available feature turns the front and rear wheels in the same or opposing directions to help provide optimal agility.

VARIABLE GEAR-RATIO STEERING
This available advanced system is engineered to anticipate and help deliver the ideal steering response for virtually any situation.

F-SPORT BRAKES
The rear-wheel drive RCF SPORT features larger, two-piece front brake rotors, high-friction brake pads* and a unique multistage booster for optimized control, response and feel.

Get more of what you want when you want it. The available Lexus Dynamic Handling system and other performance features found on the RCF SPORT allow you to customize everything from suspension to throttle response. So go ahead and get exactly what you desire – performance on demand.
Too much power? Too much control? No such thing. Own the road in a way that’s totally your own with a six- or eight-speed transmission with paddle shifters for optimum control. Delivering heart-racing, split-second gear changes, the paddle shifters in the RC help you realize the full potential of its 306-hp V6 engine.
LIFT A FINGER, RAISE YOUR HEART RATE.

REMOTE TOUCHPAD
Equal parts functionality and form, the available Remote Touchpad is more than a way to access multimedia, climate control and more. Offering an easy-to-press surface area, pulsation feedback and intuitive interaction via pinch, swipe and flick gestures just like your smartphone, the touchpad found in the RC offers innovation at your fingertips.

DRIVE MODE SELECT
Drive Mode Select’s Sport mode holds lower gears longer and provides more dynamic throttle response. The available Sport S+ mode tightens the suspension and varies the available Variable Gear-Ratio Steering (VGRS) system to deliver enhanced responsiveness. And if you choose ECO mode, the throttle response and climate-control systems are moderated for increased fuel efficiency.

BOLSTERED F SPORT SEATS
Feel confidence through every curve with available front sport seats designed to hold you through even the most aggressive of turns. Featuring a unique foam construction and designed to contour to the needs of the driver, these sport seats will have you wrapped from hip to shoulder—especially in high-G situations. Their low position helps place the driver’s hip point as close as possible to the car’s center of gravity for a more dynamic driving experience.

ADVANCED BLIND SPOT MONITOR
Only the most progressive technologies belong in a vehicle as advanced as the RC. Featuring an available updated Blind Spot Monitor, the RC lets you focus on owning the road. This system not only alerts you when it detects vehicles approaching from behind, but also is capable of doing so for vehicles approaching at higher speeds.

LEXUS ENFORM REMOTE
The new available Lexus Enform Remote™ mobile app can remotely start the engine, lock and unlock doors, check the status of doors and windows as well as your fuel level, and can help find your vehicle’s location in a parking lot. And, should you loan your RC to another driver, you can receive instant alerts if, for example, a preset speed or mile limit is exceeded. Lexus Enform Remote™ is complimentary for the first year of ownership. Learn more at lexus.com/enform.

ADVANCED CONNECTIVITY
The available full-color LCD display within the gauge cluster allows you to quickly and easily read the data you need to keep optimum performance. Readouts include drive mode, shift position and odometer information. Additionally, this in-dash display offers multimedia linkage so that you can view incoming calls, current song titles and more.

CRATEMANSHIP
While the exterior of the RC screams exhilarating performance, the interior makes an audacious statement of its own. From available features such as the eye-catching perforated leather-trimmed seats and exclusive wood trim to the scintillating heated and ventilated front seats and heated steering wheel (AWD only), you’ll find that the RC delivers an ideal combination of performance and luxury.
DESIGNED TO TAKE YOUR SENSES OVER THE EDGE.

Whether it’s the striking beauty of the intensely sculpted lines found on the outside of the RC or the profound strength delivered by its reinforced rockers and newly designed underbody bracing, you’ll discover the unconventional design of the RC can elicit a response as visceral as the one evoked by its radical performance.
Throw caution to the wind. Or the rain. With the brilliantly engineered All-Weather Drive system offered on the RC, you experience control in nearly every driving condition. By monitoring current conditions, the available all-wheel drive automatically distributes engine power between the front and rear axles to provide optimum traction and control—especially in inclement weather.
A. Push-button Start/Stop
B. Available Navigation System
C. LED headlamps and daytime running lights
D. Driver’s cockpit shown in available Playa leather trim
E. Available accessory rear spoiler. For a complete list of Genuine Lexus Accessories, visit lexus.com/accessories
F. Available F SPORT Silver Performance trim
G. Available F SPORT perforated leather-trimmed shift knob
H. Electrostatic temperature controls and available Mark Levinson® audio system
I. Available F SPORT 19-in split-10-spoke alloy wheels
J. F SPORT rear seating shown in Rioja Red NuLuxe trim
INTRODUCING THE NEXT LEVEL OF F:
THE 2015 RC F

SERVICES AS INNOVATIVE AS THE RC ITSELF.

WARRANTY
Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the RC Warranty and Services Guide at your Lexus dealer for details.

1. DISCLOSURES: 1. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 2. It is important to obey traffic regulations and maintain awareness of road and traffic conditions. 3. 18- or 19-inch tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. 4. High-friction brakes require periodic inspection and measurement as outlined in the Warranty and Services Guide. The pads and rotors are expected to experience greater wear than conventional brakes. Pad life may be less than 20,000 miles, and brake rotor life may be less than 50,000 miles depending on driving conditions. F SPORT models may feature Brembo® brakes. It is an inherent characteristic of materials used in high-performance brake systems that brake noise equalization may result. 5. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range, and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor, see Owner’s Manual. 6. Use only if aware of circumstances surrounding the vehicle, and it is legal & safe to do so (e.g. car uncovered in open area, no people or pets in or nearby). If vehicle has not been driven for over a week, services will not be available until next time vehicle is started. Frequency depends on many factors, such as vehicle and smartphone connectivity. See usage precautions, service limitations & Owner’s Manual. Data charges may apply. Registration, app download are required. Must have active Safety Connect subscription. Annual fee required after 1-year trial. 7. Always drive safely, obey traffic laws & focus on the road while driving. Siri® is available in Baja only on Phone® 4S, iPhone® 5, iPad® with Retina® display, iPad® mini, & iPad® touch.

THE LEXUS DELIVERY AND TECHNOLOGY SPECIALISTS. To assist you in getting the most out of your RC, the Lexus Delivery Specialist will conduct a personalized delivery focused on every feature, setting and function you desire. To answer questions that arise after delivery, the Lexus Technology Specialist can offer expert guidance in person or without you ever leaving the driveway, via camera-enabled iPad® apps like FaceTime®. Learn more about our Lexus Delivery and Technology Specialist services at lexus.com/specialists.
