INTRODUCING THE ALL-NEW 2016 RX

RX 350
Completely redesigned for 2016 with a striking, chiseled exterior; 295-horsepower, 3.5-liter V6 engine with eight-speed automatic transmission; available color Heads-Up Display, Lexus Safety System and 12.3-inch multimedia display with full-screen map. Front-wheel drive or available all-wheel drive.

RX 450h
Lexus Hybrid Drive with Atkinson-cycle V6 engine, 308 total system horsepower; 30-MPG combined rating; Intelligent Shift Control, standard Navigation System and heated and ventilated front seats. Front-wheel drive or available all-wheel drive.

RX F SPORT MODELS
Take both models to the next level with Adaptive Variable Suspension, bold interior and exterior styling, including sport seats with enhanced bolsters and new 20-inch alloy wheels with Dark Graphite finish, and standard all-wheel drive.
SOPHISTICATION. SHARPENED.

Never has luxury been this expressive.
VISION IN FOCUS

THE SEDUCTIVE STRENGTH OF THE 2016 RX

A larger, more aggressively sculpted body; a sumptuous, futuristic interior; enhanced driving performance with advanced V6 engines; the most comprehensive safety system ever offered on the RX—this is luxury in sharp focus.
The cutting edge doesn't have to sacrifice comfort. The RX offers power-reclining* and power-folding 60/40-split heated rear seats, as well as heated and ventilated front seats.
THE WAY FORWARD

A warning to the lukewarm. This is luxury without apology. The RX embodies a commanding, evocative design philosophy that demands a passionate point of view. Staying under the radar is off the table.
OF EXPRESSION

A muscular body with a solid, powerful stance, sharp LED headlamps, an extended wheelbase, and available panoramic glass roof—discover a luxury crossover that crosses the line from simple elegance to pure expression and emotion.
SPUR THE SENSES

DESIGN IN FLUX

Engineered to turn heads, the angular and assertive 2016 RX makes the message clear—aggressive design and expressive styling are not for the shy of heart. Molded to change its silhouette when viewed from different angles, the RX flaunts razor-sharp character lines and a sleek profile leading to a distinctive floating roofline—and a new era of Lexus design.
ELEMENTS OF STYLE

Experience intense elegance with available features such as the panorama glass roof, dramatic LED taillamps, Gray Sapele Wood with Aluminum trim, customizable wheel inserts, semi-aniline leather trim with seductive crimson stitching, and dual exhaust (RX).
Simple, broad flowing lines form a center instrument panel that’s as captivating as it is convenient. The creation of distinct interior spaces—separating the display zone from the operation zone with open, fluid design elements—adds to an enticing cockpit atmosphere. The available new 12.3-inch multimedia display, Panoramic View Monitor, color Heads-Up Display and Remote Touch ensure that the RX interior remains intelligently intuitive.
The RX offers passionate design with peace of mind, as seen in the available Panoramic View Monitor. Four high-resolution cameras mounted on the front, sides and rear of the vehicle give drivers a bird’s-eye view of the near environment. Moving View and See-Through View options create a composite image of the vehicle’s surroundings as on-screen guides assist with parking and tight maneuvering.

The RX lets drivers see the bigger picture—the available 12.3-inch high-resolution multimedia display. Providing immediate, simultaneous access to audio or climate controls and various systems including Navigation, the new display offers a full-screen map for added convenience.

Bringing the futuristic design of the RX full circle, the available new full-color Heads-Up Display can project dynamic information like speed, turn-by-turn navigation and alerts directly onto the windshield, merging impressive design with safety technology. Even customizable to different heights, the Heads-Up Display helps drivers stay focused and informed.

Discover high-fidelity sound in high style with the available 835-watt, 15-speaker Mark Levinson Premium Surround Sound Audio System. Lexus and Mark Levinson engineers collaborated to plan, develop and place every component for the most accurate reproduction of artists’ original recordings.

This available voice-activated system can map millions of points of interest across the country and can display information in English, French and Spanish. And, in addition to offering up-to-date traffic and weather information, 3-D city views, and simulated views of approaching highway junctions, it can display the current speed limit and can automatically identify nearby gas stations if you begin to run low on fuel.

Options shown.
DUAL-SCREEN REAR-SEAT ENTERTAINMENT SYSTEM

Enhanced for 2016, the available dual-screen Rear-Seat Entertainment System offers an HDMI input that enables two video sources to be viewed at the same time on two expansive 11.6-inch LCD screens. Using a single remote control, one can be used as a DVD/CD player, for example, and the other as a game console or audio player. A wireless remote, wireless headphones and a two-prong AC power outlet are also included.

TOUCH-FREE POWER REAR DOOR

A Lexus first, the available touch-free power rear door harnesses intuitive technology to offer RX drivers the height of convenience. A sensor on the rear door enables a raised hand, or elbow, held near the Lexus emblem to effortlessly open the door.

POWER-FOLDING REAR SEAT

Offering ample space with ultimate convenience, the RX offers power-reclining and power-folding 60/40-split rear seating. Switches located on the side of the rear seats and the inside of the luggage compartment allow for customizable cargo space while a jam prevention function automatically reverses seat movement if an obstruction is detected.
LEXUS E NFORM

THE NEXT LEVEL OF CONNECTIVITY

LEXUS Enform, our available suite of branded connected services, consists of five products, each of which offers unique ways to enhance the driving experience. With a complimentary first year of service—entertainment, convenience and peace of mind are now within reach.

SAFETY CONNECT

LEXUS Enform Safety Connect® offers you the peace of mind of knowing that assistance can be there when you need it most. Whether you’re involved in a collision and unable to call for help, your vehicle is stolen, or there is some other type of emergency, assistance can be sent directly to your vehicle’s GPS location.

SERVICE CONNECT

Our new LEXUS Enform Service Connect® offers remote access to information about your vehicle’s status and maintenance needs. Easily accessed through LEXUS Drivers.com or the My LEXUS and Beyond mobile app, you can get information on everything from your vehicle’s fuel level and mileage to maintenance alerts and vehicle health reports.

REMOTE

The LEXUS Enform Remote® mobile app can remotely start the engine, lock and unlock doors, check the status of doors and windows as well as your fuel level, and can help find your vehicle’s location in a parking lot. And, should you loan your LEXUS to another driver, you can receive instant alerts if, for example, a preset speed or mile limit is exceeded.

DESTINATIONS

Lexus Enform Destinations® offers convenient 24-hour, en-route navigation assistance from a live response center agent who can help you find locations and automatically upload the destinations to your available Navigation System.® Planning a trip? You can also search, save and upload destinations from the comfort of your home or office.

APP SUITE

The LEXUS Enform App Suite® offers access to your favorite mobile applications through your vehicle’s center-console display. After downloading the app on your compatible smartphone, you can search local listings, stream music, place restaurant reservations and buy movie tickets—all from the center-console display.

SAFETY CONNECT

LEXUS Enform Safety Connect® offers you the peace of mind of knowing that assistance can be there when you need it most. Whether you’re involved in a collision and unable to call for help, your vehicle is stolen, or there is some other type of emergency, assistance can be sent directly to your vehicle’s GPS location.

SERVICE CONNECT

Our new LEXUS Enform Service Connect® offers remote access to information about your vehicle’s status and maintenance needs. Easily accessed through LEXUS Drivers.com or the My LEXUS and Beyond mobile app, you can get information on everything from your vehicle’s fuel level and mileage to maintenance alerts and vehicle health reports.

REMOTE

The LEXUS Enform Remote® mobile app can remotely start the engine, lock and unlock doors, check the status of doors and windows as well as your fuel level, and can help find your vehicle’s location in a parking lot. And, should you loan your LEXUS to another driver, you can receive instant alerts if, for example, a preset speed or mile limit is exceeded.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other LEXUS features, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled iPad® apps like FaceTime®. Learn more about these complimentary services at lexus.com/specialists.

For more details, please visit lexus.com/enform
Experience stunning without sacrifice. With models ranging from the RX 350 to the RX 450h to their performance-minded F SPORT counterparts, the 2016 RX elevates utility with heightened luxury.
Give rush hour a rush of adrenaline. The RX 350 offers more power, more agility and more reasons to get behind the wheel. Experience an advanced 3.5-liter V6 engine, a new eight-speed automatic transmission and Drive Mode Select. A larger, stronger body delivers a quiet drive as optimized suspension tuning harnesses the full power of the muscular new chassis.
THE WORLD’S FIRST LUXURY HYBRID GOES FURTHER

Inventing the first luxury hybrid was just the first step to pushing the category further. The 2016 RX 450h announces the next level of hybrid performance. With a 30-MPG combined rating1 and 308 total system horsepower2 the RX 450h is making big steps forward with a small environmental footprint. And now, with the first-ever F SPORT model, the RX 450h offers efficiency with an edge. Featuring a 3.5-liter Atkinson-cycle V6 with Lexus Hybrid Drive, the RX 450h F SPORT pairs exclusive F SPORT styling with impressive hybrid fuel economy.
Stay in control and in style with the available Active Torque Control all-wheel drive. This intelligent system monitors road conditions in real time, automatically shifting engine power between front and rear axles, while 100% of the power goes to the front wheels during normal driving conditions for improved efficiency.
For those who live on the razor’s edge. Enter the 2016 RX F SPORT. With a new Adaptive Variable Suspension tuned by the same team that fine-tuned the LFA supercar, the RX F SPORT delivers a driving experience far beyond the crossover category. Charge forward with aggressive sculpting, LFA-inspired electronic instrumentation and F SPORT 20-inch alloy wheels* with Dark Graphite finish.

SOPHISTICATION NEVER SURRENDERS
Race-inspired F SPORT bolstered seats support the driver, providing the ideal posture, control and visibility for enhanced driving performance. Exclusive paddle shifters and perforated leather trim with aluminum accents accentuate the muscle behind the F SPORT badge.
SAFE HAVEN

LEXUS SAFETY SYSTEM+ The most comprehensive safety system ever offered on the RX, the available Lexus Safety System+ is an integrated suite of advanced technologies designed to work together in order to help pave the way to a world with fewer collisions and better-informed drivers.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION The Pre-Collision System (PCS) is engineered to detect vehicles and pedestrians in the vehicle’s path under certain conditions. Should the system determine a frontal collision is imminent, it’s designed to automatically prepare Brake Assist for increased brake force, and can even automatically brake the RX to a stop when traveling at speeds above 6 mph.

ALL-SPEED DYNAMIC RADAR CRUISE CONTROL To help you maintain a preset following distance from the vehicle ahead, All-Speed Dynamic Radar Cruise Control uses radar technology to sense the speed and distance of vehicles in front of you. If you get too close to the vehicle ahead, it can automatically reduce your speed accordingly, and can even operate in stop-and-go traffic.

INTELLIGENT HIGH-BEAM HEADLAMPS To help provide added visibility, intelligent high-beam headlamps offer added illumination when the road ahead is clear and temporarily switch to low-beam when they sense another vehicle ahead.

LANE ASSIST TECHNOLOGY Lexus Safety System+ offers multiple technologies designed to help prevent inadvertent lane departure. Lane Departure Alert with Steering Assist can warn you if it determines you are beginning to drift and can even take corrective measures to help keep you within your visibly marked lane. Additionally, Lane Keep Assist can take this a step further by helping the driver remain in the center of the visibly marked lane, to help prevent lane drifting before it occurs.

RX 350

WARRANTY

Eight-year/100,000-mile Hybrid System Warranty. All warranties with zero deductible. See the RX Warranty and Services Guide at your Lexus dealer for details.

DISCLOSURES
1. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 2. 2016 RX450h (AWD) EPA 30/28/30 city/hwy/combined mpg estimates. Actual mileage will vary. 3. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability of the Navigation System is dependent upon many factors. Use common sense when relying on the information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available at an additional cost from your dealer. See Navigation System Owner’s Manual for details. 4. 18- or 20-inch performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles (18-in) or 20,000 miles (20-in), depending upon driving conditions. 5. Do not allow passengers to sit in a seat that has been fully or severely reclined while driving. This feature is intended for use only when the vehicle is parked. While the vehicle is being driven, all vehicle occupants should have the seatback upright, sit well back in the seat and properly wear the seatbelts provided. In the event of a collision, the more the seat is reclined, the greater the risk of death or personal injury. See Owner’s Manual for additional information. 6. The Panoramic View Monitor does not provide a comprehensive view of the area around the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather may limit effectiveness and view may become cloudy. 7. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See lexus.com for details. 13. Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. See lexus.com for details. 14. Information provided is based on the last time data was collected from the vehicle and may not be up to date. System functionality depends on vehicle connectivity. 15. Use only if aware of circumstances surrounding the vehicle, and it is legal & safe to do so (e.g., car uncovered in open area, no people or pets in or near). If a vehicle has not been driven for over a week, services will not be available until next time vehicle is started. Functionality depends on many factors, such as vehicle and smartphone connectivity. See usage precautions, service limitations & Owner’s Manual. Data charges may apply. Registration, app download & sub. required. Must have active Safety Connect service for up to 1-year trial. 16. Phone® and iPad® are registered trademarks of Apple Inc. All rights reserved. 17. FaceTime® is a registered trademark of Apple Inc. All rights reserved. 18. The Pre-Collision System is designed to help reduce the crash speed and damage in certain front collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See Owner’s Manual for further information. 19. The Pedestrian Detection System is designed to detect the presence of the pedestrian. System effectiveness depends on many factors, such as speed, size and position of the pedestrian, driver input and weather, light and road conditions. See Owner’s Manual for further information. 20. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance, tire and road conditions. 21. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See Owner’s Manual for details. 22. Intelligent high-beam system operates at speeds above 11 mph. Situations such as a dark windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn off. See Owner’s Manual for details. 23. Lane Departure Alert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See Owner’s Manual for more information. 24. Lane Keep Assist is designed to read lane markers under certain conditions. It provides a visual and audible alert and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See Owner’s Manual for more information. 25. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. 26. 2016 EPA-estimated ratings. Actual mileage will vary. 27. The Smart Access system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 28. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transmitter chip inside the key/fob matches the code in the vehicle’s immobilizer. Because the transmitter chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.absa.org. 29. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will draw your attention away from the road. Bluetooth word mark and logos are registered trademarks of Bluetooth SIG, Inc. 30. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. 31. All the airbag (AB) systems are Supplemental Restraint Systems. AB systems are designed to inflate under certain conditions and provide visual and audible warnings to alert the driver and passengers that an AB is typically inflating. 32. Roll-Sensing Curtain ABs are in side curtain collisions; Roll-Sensing Curtain ABs also protect occupants in a rollover. 33. Vehicle Dynamic Integrated Management (VDIM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VDIM will be effective in helping prevent a loss of control. See Owner’s Manual for further details. 34. Vehicle Dynamics Integrated Management (VDIM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VDIM will be effective in preventing a loss of control. See Owner’s Manual for further details. 35. Vehicle Dynamics Integrated Management (VDIM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VDIM will be effective in preventing a loss of control. See Owner’s Manual for further details. 36. Vehicle Dynamics Integrated Management (VDIM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VDIM will be effective in helping prevent a loss of control. See Owner’s Manual for further details. 37. Roof rack with rails not recommended for luggage. 38. Roof rack capacity is 155 lbs (74 kg). See Owner’s Manual for details.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. For current availability, contact your local dealer. It differs by vehicle, availability or condition or trim or city. The possible availability or condition or trim or city of the vehicle displayed may differ from the vehicle’s actual availability. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (877-52998) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
