Daring design.
Imaginative technology.
Dynamic performance.

Because crafting every detail to surpass all expectations means nothing if it doesn’t lead to the experience of something greater.

The all-new 2019 Lexus ES.

Experience Amazing
The first-ever ES F SPORT features styling and performance upgrades such as an available Adaptive Variable Suspension system with Sport S+ mode, exclusive bolstered sport seats, and 19-inch wheels, the largest ever on an ES.

ES 300h
Two lightning-fast electric motors combine with a potent 2.5-liter engine for the most powerful ES h yet. The most fuel-efficient among all non-plug-in luxury vehicles, it features a combined 41/48 MPGe estimate. New low-light pedestrian-detection technology and the world's first Mark Levinson® PurePlay sound system are available on all ES models.

ES 350
Experience an all-new 302-horsepower, 3.5-liter direct injection V6 engine and precision-tuned Direct-Shift eight-speed automatic transmission with paddle shifters. Amazon Alexa™ integration is offered across the ES line. And every ES model also features available Apple CarPlay® compatibility and class-leading standard Lexus Safety System+ 2.0.*

ES F SPORT shown in Ultra White (left), ES shown in Moonbeam Beige Metallic (middle), ES shown in Nebula Gray Pearl (right) // Options shown
The ES touts a spacious and inviting cabin with class-leading rear legroom. Other interior comforts include an available power rear sunshade and supple semi-aniline leather-trimmed seats, which feature a caliber of leather derived from only a fraction of the world's hides.
An available panoramic glass roof allows more light into the cabin than conventional moonroofs. Its unique outer-sliding design creates a seamless appearance while providing ample skylight and added rear headroom.
ES FSPORT shown in Atomic Silver // Options shown
The innovative ES is the first Lexus to feature Lexus Safety System+ 2.0. This suite of class-leading standard active safety equipment includes more advanced features like Lane Tracing Assist™ that can help you stay in the center of your lane, even in heavy traffic and on highways with gradual curves.
With a longer, wider, more athletic stance, the all-new ES is striking from every angle.
With sculpted character lines, the all-new ES pairs daring exterior design with innovative engineering for a dynamic yet refined ride. Boasting an incredibly low center of gravity and a forward-leaning stance, the ES doesn’t just make you feel more connected to the road, it helps you hear less of it. Building on the sound-dampening capabilities of the flagship LS, the ES features redesigned components that minimize engine vibration and significantly reduce road noise, allowing you to focus on what matters most—the drive.
Exclusively available on the ES F SPORT, the Hadori Aluminum trim is inspired by a traditional Japanese sword-making technique. Our Lexus takumi master craftsmen exhaustively researched the centuries-old process, and then developed a special polishing technique to mimic the design. The result? A one-of-a-kind interior trim with exceptional depth and luster. Complementing this ornamentation, intricate hand-stitching on the dash provides a unique tactile quality and dimension that elevate the interior even further.

CRAFTSMANSHIP
BORN FROM IMAGINATION

Every curve, innovation and feeling is a product of mastery.

From the hand-stitching on the dash to the available Hadori Aluminum accents and three-dimensional quilted seat design, this is the epitome of unconventional craftsmanship. The ES features exquisite Linear Espresso and Linear Dark Mocha wood trims, multilayered works of art inspired by a Lexus-exclusive design that requires 67 manufacturing steps over 38 days. It also inherits the precision-crafted steering wheel found in the uncompromising LS. By measuring the distribution of palm pressure on multiple points of the wheel during countless hours of test driving, its unique shape was achieved for the most natural grip regardless of hand position. And pairing optimal performance with optimal comfort, this unrivaled wheel offers heating around its entire circumference.
LUXURY, REIMAGINED

Experience where refinement and innovation combine in a driver-centric cockpit and the largest available display in its class.

With contemporary styling and cutting-edge technology, the ES offers a refreshing point of view on modern luxury. Discover interior comforts like 10-way adjustable power seats with available heating and ventilation, designed to envelop you and connect you to the road. Unlike conventional ventilated seats, these pull air directly from the climate-control system to more effectively and efficiently cool you. These refined luxuries are complemented by numerous expressions of modern style and technology, from an available 12.3-inch split-screen multimedia display to available ambient lighting that accentuates the sculpted lines throughout the cabin.
The ultimate expression of the ES, the ESh builds upon the bold exterior styling with a sleek, concealed exhaust. Providing an incredibly refined ride, the all-new platform and Lexus-first Hybrid-Acoustics™ offer unprecedented sound-dampening measures such as high-precision noise-canceling technology to ensure the quietest drive possible. And a Super Ultra-Low Emission Vehicle certification means it produces fewer smog-forming emissions than conventionally powered vehicles.12
EXHILARATING PERFORMANCE

With three all-new models, including a 302-horsepower V6 engine and an eight-speed automatic transmission, this is the most engaging ES ever.

Craftsmanship isn’t only about creating the finest materials—it’s about creating the most visceral experience behind the wheel. After years of research and exhaustive testing, one result is a robust 302-horsepower, 3.5-liter direct injection V6 engine. Further amplifying its breathtaking performance, an all-new eight-speed automatic transmission delivers intuitive responsiveness and seamless acceleration. The new ES line also includes a more aggressive F SPORT model and an even more powerful EHS. And for the first time in the ES, paddle shifters are featured on all three models, putting the thrill of lightning-fast gear changes at your fingertips.
Coupe-like styling meets extraordinary engineering with an all-new, more rigid platform and lower center of gravity. More agile than ever before, the ES gives you greater responsiveness and control. And for added exhilaration, the F SPORT model offers the same Adaptive Variable Suspension system found in the high-performing LC.
**TWO POWER SOURCES.**
**ONE EXHILARATING DRIVE.**

The most powerful ES yet.
The most fuel-efficient Lexus ever.
The most ES, period.

Combining next-generation hybrid technology and a highly potent 2.5-liter engine, this is the best of everything the ES has to offer. Its newly developed battery is not only smaller and lighter, but also strategically placed as close to the middle of the vehicle as possible for optimized front/rear weight distribution and a lower center of gravity. And with paddle shifters that deliver driving dynamics similar to the ES 350, it brings you closer to the road than ever before.

Pairing powerful performance with a combined 44-MPG estimate, the ES isn’t just the most fuel-efficient Lexus ever—it’s the most fuel-efficient among all non-plug-in luxury vehicles, period.
**F SPORT PERFORMANCE**

With agile handling, the first-ever ES F SPORT offers performance as dynamic as its style.

Introducing the first-ever ES F SPORT. Inheriting the DNA of the high-performance LC, it offers the same next-generation Adaptive Variable Suspension system with Sport S+ mode for reduced body roll and maximum responsiveness. And, complementing its thrilling performance, it delivers an even more throaty engine note at higher rpm.
F SPORT STYLING

From sliding gauges inspired by the world-renowned LFA supercar to Circuit Red–trimmed sport seats with enhanced bolsters, every aspect of the ES F SPORT interior reflects its exhilarating performance. The sport steering wheel features the same varied grip profile used in the high-performance LC for optimal control. Strikingly styled from the ground up, the ES F SPORT also features exclusive 19-inch wheels, the largest ever on an ES.
UNPRECEDENTED TECHNOLOGY

Offering all-new, class-leading audio technology and Lexus-first innovations like Lexus Safety System+ 2.0° and Apple CarPlay™ compatibility, this is the most advanced ES yet.
PEACE OF MIND, STANDARD

Introducing Lexus Safety System+ 2.0, an integrated suite of class-leading standard active safety equipment.73

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

By enhancing the radar and camera capabilities, it’s now possible for the system to help detect not only the vehicle ahead, but also a preceding pedestrian in daytime and low-light conditions. Should it detect a potential frontal collision, it can help automatically brake the vehicle to a stop.

LANE TRACING ASSIST

When All-Speed Dynamic Radar Cruise Control is enabled, this hands-on system monitors visible lane markings or the path of the preceding vehicle to help the driver keep their vehicle centered in the lane by providing steering assistance. Designed for added convenience and to help reduce driver strain, the system can even be used in traffic and on highways with gradual curves.

LANE DEPARTURE ALERT WITH STEERING ASSIST

This system utilizes a camera to monitor visible lane markings. If an inadvertent lane departure, or potential departure due to swaying, is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take slight corrective measures to help keep you within your visibly marked lane.

ROAD SIGN ASSIST

This system uses a built-in camera to help provide road sign information in the instrument panel. In addition to displaying speed limit information, the system can alert you of Do Not Enter, Yield, and Stop signs you otherwise might have missed.

ALL-SPEED DYNAMIC RADAR CRUISE CONTROL

This system uses radar and camera technology to help maintain a preset speed and following distance from the vehicle ahead. Whether at highway speeds or in stop-and-go traffic, the system is designed to detect if you get closer than the preset distance and automatically slow your vehicle—even to a complete stop. If driving at highway speeds and the road ahead clears, your Lexus returns to its preset speed.

INTELLIGENT HIGH BEAMS

To help provide greater visibility for you as well as other drivers, Intelligent High Beams offer added illumination to help keep you focused on the road.

LEXUS SAFETY SYSTEM +
In addition to class-leading standard Lexus Safety System+ 2.0**, the all-new ES offers features such as a Blind Spot Monitor*** to help you safely switch lanes, and an Adaptive Front Lighting System**** to seamlessly illuminate curves as you steer.
TECHNOLOGY INNOVATION AT YOUR FINGERTIPS. AND BEYOND.

LEXUS ENFORM

Lexus Enform\textsuperscript{22} elevates connected technology and provides concierge-level convenience. From emergency assistance and available onboard Wi-Fi\textsuperscript{TM} to the ability to start your engine remotely\textsuperscript{23} through your smartphone, smartwatch or using the Lexus skill on Amazon Alexa\textsuperscript{6}-enabled devices, our premium suite of connected technology offers peace of mind with every drive.

AMAZON ALEXA

Now bring all the convenience of Amazon Alexa\textsuperscript{6} on the road. Using only your voice, you can easily access thousands of the same skills you get with Alexa at home. Listen to audiobooks, stream Amazon Music, make lists, check the weather, get news briefings and much more. You can also use it to control compatible smart-home devices such as lighting, thermostat and security systems. Offering added in-vehicle convenience, Alexa even syncs to your Navigation System\textsuperscript{24} to provide on-the-go recommendations.

APPLE CARPLAY

With new Apple CarPlay\textsuperscript{®7} compatibility, you can access the same familiar interface from your iPhone\textsuperscript{®25} through an available 12.3-inch multimedia display, the largest in its class\textsuperscript{8}. Simply connect your iPhone to get directions, make calls, send and receive messages via Siri,\textsuperscript{®26} and get access to your favorite apps like Spotify,\textsuperscript{®} Audible\textsuperscript{®} and Apple Podcasts.\textsuperscript{™27}

HEAD-UP DISPLAY

The available 10.2-inch full-color Head-Up Display, the largest in its class\textsuperscript{8}, can project key information including speed, current gear and rpm onto the windshield. Display information can also be adjusted to suit the driver.

PANORAMIC VIEW MONITOR

This available system\textsuperscript{28} utilizes four high-resolution cameras mounted on the front, sides and rear of the vehicle to give you a bird’s-eye view of the near environment. Moving View and See-Through View options create a composite image of the vehicle’s surroundings as on-screen guides assist with parking and tight maneuvering. The advanced Panoramic View Monitor\textsuperscript{28} is also linked to the Rear Cross-Traffic Braking system\textsuperscript{29} which is designed to help you avoid a potential collision with a static object, or even a pedestrian.

HANDS-FREE POWER TRUNK

The available power open/close trunk with kick sensor\textsuperscript{30} can be operated using a button on the key fob, the trunk lid or next to the steering wheel. For added convenience when your hands are full, the open/close function can be performed by waving your foot under the rear bumper.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other features in your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime.\textsuperscript{11} Learn more about these complimentary services at lexus.com/hspecialists.

ACCESSORIES

- REAR SPOILER
  Enhances the bold, aerodynamic presence of your vehicle.
- ILLUMINATED DOOR SILLS
  Illuminated door sills include a protective stainless-steel overlay.
- BODY SIDE MOLDINGS
  With a high-quality body-color finish, these help protect from scratches and dents.
- ILLUMINATED TRUNK SILL
  This luminous, etched stainless-steel plate offers distinctive style and additional protection when loading cargo.
- LEXUS UNIVERSAL TABLET HOLDER
  This secures onto the headrest to hold an iPad or other multimedia device to help keep your rear-seat passengers entertained.

For a complete list of Genuine Lexus Accessories, visit lexus.com/ES/accessories. Options shown.
The ES offers noise-reduction wheels that force sound waves through resonator holes, increasing friction and converting unwanted sound energy into heat energy that’s then dissipated into the air. It’s a stylish ride made that much smoother.
