Bold design.
Seamless connectivity.
Agile performance.

Because crafting a crossover to conquer the modern frontier means nothing if it doesn’t lead to the experience of something greater.

The first-ever 2019 Lexus UX.

Experience Amazing
UX shown in Nori Green Pearl (left), UX shown in Atomic Silver (middle), UX F SPORT shown in Ultra White (right) // Options shown

UX 200
Experience the responsive acceleration of a 2.0-liter four-cylinder engine paired with a Lexus-first 10-speed Direct-Shift Continuously Variable Transmission. With numerous innovations, every UX model features Amazon Alexa5 compatibility, as well as Apple CarPlay® 6 integration and Lexus Safety System+ 2.0, which includes preceding pedestrian and bicyclist detection.7, 8

UX 250h AWD
The UX 250h combines a high-output electric motor with a 2.0-liter four-cylinder engine for added power and delivers a 39-MPG combined estimate, the best of all non-plug-in SUVs. It also includes all-wheel drive3 and available Lexus-first Predictive Efficient Drive4 that learns your driving patterns and adapts to your commute.

UX F SPORT MODELS
Take both models to the next level with F SPORT performance and style upgrades such as an exclusive F SPORT-tuned suspension, 18-inch wheels, bolstered sport seats, and digital instrumentation.

UX shown in Nori Green Pearl (left), UX shown in Atomic Silver (middle), UX F SPORT shown in Ultra White (right) // Options shown
In addition to our most advanced standard safety system to date, all UX models feature an available Blind Spot Monitor1° to help you change lanes with confidence, and a Rear Cross-Traffic Braking2° system that can provide added peace of mind when backing out of parking spaces.

MODERN STYLE

Provocative details and cutting-edge craftsmanship come together in a crossover designed for the modern pioneer.

Delivering a refreshing take on crossover styling, the UX offers a striking triple-beam LED headlamp and integrated daytime running light design, and features aerodynamic tail lamps that blend 120 LEDs into one continuous line that tapers to a mere three millimeters in the center. And merging traditional Japanese aesthetics with contemporary luxury, available washi trim is uniquely crafted to mimic the soft grain of Japanese paper, adding distinctive texture and style to the dash.

UX shown in Atomic Silver // Options shown
DESIGN

A REFLECTION OF THE CITY
FROM EVERY ANGLE

From its smart size to its sculpted character lines, every element of the first-ever Lexus compact crossover is an embodiment of the city itself. Engineered to fit in, yet designed to stand out, the UX excels even in the tightest spaces. Compact enough to maneuver around narrow streets and nimble enough to impress whether parking or driving, it also has ample cargo and cabin space to fit everything and everyone you’ll want to take on your next weekend adventure.

UX shown in Atomic Silver // Options shown
THE INTERSECTION OF FORM AND FUNCTION

While there are many ways to measure space, the most important is what you can do with it.

With an expansive cabin, ample cargo space and an available power rear door that opens with a convenient kick sensor, every aspect of this first-of-its-kind crossover was crafted to anticipate the driver’s every need. As you settle into the available heated and ventilated NuLuxe®-trimmed driver’s seat, you’ll notice controls that are intuitively positioned toward you—with an enhanced Remote Touchpad® and audio switches ergonomically located in the palm rest. Even the dash is thoughtfully designed. Inspired by the Japanese architectural concept of marrying the inside with the outside, known as engawa, it appears to flow seamlessly into the hood. The result: among the widest field of vision in its class and optimal visibility of the road ahead.

Featuring generous rear legroom and 60/40-split folding rear seats, the UX also offers additional compartments in the cargo area, as well as a 110V power outlet, wireless charger and four USB ports throughout the cabin. This is versatility fit for the modern explorer.
Technology isn’t just something you use. It’s always with you. Which is why the UX offers innovation that blurs the line between driver and vehicle. Now you can start your engine remotely™ with your smartwatch, or start your favorite podcast in your kitchen and finish it on your drive to work with Amazon Alexa compatibility. Apple CarPlay® integration allows you to access the same familiar interface from your iPhone®20 on the multimedia display to send and receive messages and enjoy your favorite third-party apps like Waze and Google Maps.™ And for added convenience, an available 10.3-inch high-resolution split-screen multimedia display—the largest in its class—provides immediate, simultaneous access to Lexus Enform™ apps, Navigation™ and more.

Options shown.
BEYOND ADVANCED

With seamless Apple CarPlay integration and more, this is the next level of innovation: personalization.

APPLE CARPLAY

With standard Apple CarPlay integration, you can access the same familiar interface from your iPhone through the 7.0-inch or available 10.3-inch multimedia display—the largest in its class. Simply connect your iPhone to get directions, make calls, send and receive messages via Siri and get access to your favorite apps like Spotify, Waze and Apple Podcasts.

AMAZON ALEXA

Bring all the convenience of Amazon Alexa on the road. Using only your voice, you can easily access thousands of the same skills you get with Alexa at home. Listen to audiobooks, stream Amazon Music, make lists, check the weather, get news briefings and much more. You can also use it to control compatible smart-home devices such as lighting, thermostat and security systems. Offering added in-vehicle convenience, Alexa even syncs to your Navigation System to provide on-the-go recommendations.

LEXUS ENFORM

Lexus Enform elevates connected technology and provides concierge-level convenience. From emergency assistance and available onboard Wi-Fi to the ability to lock and unlock doors as well as start your engine remotely through your smartphone, smartwatch or using the Lexus skill on Amazon Alexa-enabled devices, our premium suite of connected technology offers peace of mind with every drive.
With available world-first predictive technology, you’ll spend less time fueling your tank and more time fueling your curiosity.

Freeway on-ramps. Steep hills. Narrow one-way streets. Offered exclusively in the nimble UX 250h, Predictive Efficient Drive learns your driving patterns and adapts to your commute for optimal efficiency. The advanced system is the first in the world to sync with available Navigation to automatically determine when to rely on battery power alone to conserve fuel and when to recharge the battery, seamlessly switching between the two power sources.

**LEARNs**
The system learns that you frequently stop at this intersection. When you release the gas, it increases regenerative braking to recharge the hybrid battery.

**CONSERVES**
During downhill stretches, the system uses battery power alone to conserve fuel.

**ADAPTS**
For optimal efficiency when driving uphill, the system can switch to electric power to conserve fuel and utilize more of the hybrid battery, knowing it will be replenished on the way down.

**ANTICIPATES**
Using navigation data, the system can detect congestion ahead and proactively charge the hybrid battery in order to reduce engine starts once you’re in traffic, creating a smoother drive and optimizing fuel efficiency.
Introducing Lexus Safety System+ 2.0, an integrated suite of class-leading standard active safety equipment.13

PEACE OF MIND, STANDARD

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

By enhancing the radar and camera capabilities, it’s now possible for the system to help detect not only the vehicle ahead, but also a preceding pedestrian in daytime and even a preceding pedestrian in daytime and low-light conditions. Should it detect a potential frontal collision, it can help automatically brake the vehicle to a stop.

LANE DEPARTURE ALERT WITH STEERING ASSIST

This system utilizes a camera to monitor visible lane markings. If an inadvertent lane departure is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take slight corrective measures to help keep you within your visibly marked lane.

LANE TRACING ASSIST

When All-Speed Dynamic Radar Cruise Control is enabled, this hands-on system monitors visible lane markings or the path of the preceding vehicle to help the driver keep their vehicle centered in the lane by providing steering assistance. Designed for added convenience and to help reduce driver strain, the system can even be used in traffic and on highways with gradual curves.

ROAD SIGN ASSIST

This system uses a built-in camera to help provide road sign information in the instrument panel. In addition to displaying speed limit information, the system can alert you of Do Not Enter, Yield, and Stop signs you otherwise might have missed.

ALL-SPEED DYNAMIC RADAR CRUISE CONTROL

This system uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. Whether at highway speeds or in stop-and-go traffic, the system is designed to detect if you get closer than the preset distance and automatically slow your vehicle—even to a complete stop. If driving at highway speeds and the road ahead clears, your Lexus returns to its preset speed.

TECHNOLOGY

INTELLIGENT HIGH BEAMS

To help provide greater visibility for you as well as other drivers, Intelligent High Beams offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it detects the headlamps or tail lamps of vehicles ahead.

LEXUS SAFETY SYSTEM +

UX shown in Silver Lining Metallic // Options shown.
Every UX model makes a statement that can’t be ignored. Choose the responsive 2.0-liter four-cylinder engine of the UX 200 or the all-wheel drive capability of the UX 250h. And for even more exhilaration, experience the sport-tuned suspension and bold styling of both F SPORT models. When combined with an all-new platform that delivers incredible agility, this is performance that makes every drive more enjoyable than the last.
DUAL-POWERED
FOR A SINGLE PURPOSE

With a 39-MPG combined estimate\(^1\) and on-demand torque off the line, the UX 250h is not only the most powerful UX model; it’s the most efficient non-plug-in SUV available.\(^2\)

Explore even further with the UX 250h. Paring a strong 2.0-liter engine with a powerful battery for a 39-MPG combined estimate, the best of any non-EV SUV\(^1\), the UX Hybrid delivers peak performance at peak efficiency. Its exclusive all-wheel drive system\(^3\), the lightest and smallest ever in a Lexus, optimizes fuel efficiency by powering the rear wheels when the system detects that additional traction is needed. The UX 250h also offers unprecedented technology like Predictive Efficient Drive\(^4\) that uses data from your Navigation System\(^2\) and real-time traffic information to optimize battery regeneration. Combining innovative technology, and impressive power and acceleration off the line—all while achieving exceptional MPG—the UX has to offer.

AWD\(^3\)
can send up to 80% of the power to the rear wheels
The all-new UX 200 boasts a dynamic 2.0-liter four-cylinder engine with a new 10-speed Direct-Shift Continuously Variable Transmission. This first-of-its-kind technology delivers more responsive acceleration, on-demand torque and the feel of a gear-driven transmission—all while maximizing fuel efficiency.

Merging the visual appeal of a low, wide stance with the performance benefits of an extremely lightweight and rigid new platform, the UX is truly a feat of engineering. It uses structural adhesives and laser screw welds, which significantly reduce the need for weighty screws and fasteners while enhancing agility and ride quality. It also utilizes high-strength aluminum throughout the vehicle. The result is not only efficiency to do more, but also a lower center of gravity for nimble handling and easier navigation of every road.
ENGINEERING
FOR EXPLORATION

With a best-in-class turning radius and specially tuned suspension, the UX performs as well in tight spaces as it does on the open road.

Purposefully crafted for city driving, everything from its ideal size to its highly responsive steering system was engineered to take on the modern frontier. By tilting the wheels inward during tight maneuvers, the UX features a best-in-class 17.1-foot turning radius that makes three-point turns a thing of the past. Meanwhile, its suspension was specially tuned to enhance agility and ride quality over well-worn streets. Delivering more efficiency and more responsiveness on the open road, the UX allows you to choose one of three distinct drive modes with a simple turn of a dial. And to combat the road noise of busy highways, bustling downtowns and everything in between, the UX utilizes innovative sound-absorbing materials and uniquely designed components to help channel airflow. Even its platform was specifically engineered to reduce vibrations and improve cabin comfort.

17.1 ft
best-in-class turning radius
Both UX F SPORT models offer the next level of dynamic handling, rigidity and responsiveness. From lightning-fast paddle shifters to an exclusive sport-tuned suspension, they deliver performance as aggressive as their design. For an even more visceral driving experience, they also emit a throaty engine note at higher rpm. Meanwhile, F Performance digital gauges move in concert with a sliding bezel, expanding and retracting digital readouts when information is accessed.
Aggressively designed inside and out, the UX F SPORT delivers bold style that’s a true reflection of high performance. Both F SPORT models feature a leather-trimmed shift knob, aluminum pedals and a perforated leather-trimmed steering wheel that includes a varied grip profile for optimal control. They also boast exclusive F SPORT seats with embossed headrests, enhanced bolsters and a unique foam-injected construction designed to cradle the driver during high-G turns. Their low position helps place the driver’s hip point as close as possible to the vehicle’s center of gravity for a more dynamic driving experience. Beyond the track-inspired seating, its exclusive 18-inch F SPORT wheels and expressive LED cornering and foglamps deliver unmistakable F SPORT style.

**STANDARD ON EVERY UX**
- SmartAccess with push-button Start/Stop
- Drive Mode Select with Sport, Normal and ECO drive modes
- Lexus Multimedia System with color display and compatible Scout GPS Link with MapStream. Complimentary for the first three years of ownership.
- Apple CarPlay integration
- Lexus six-speaker Premium Sound System
- Lexus Enform Remote app and Amazon Alexa® compatibility. Complimentary for the first year of ownership.
- Lexus Enform Wi-Fi. Complimentary 4GB one-year trial is included.
- Lexus Enform App Suite 2.0
- Amazon Alexa® compatibility
- Bluetooth® and USB® smartphone connectivity
- Four USB® ports
- Subscription-free Traffic and Weather updates via HD Radio®
- Voice Command and Siri Eyes Free
- 70-in color LCD multi-information display
- Dual-zone automatic climate control with interior air filter
- NuLuxe® interior trim
- Eight-way power-adjustable front seats with two-way driver lumbar support
- 60/40-split folding rear seats
- Folding tonneau cover
- Bi-LED headlamps, LED taillamps and daytime running lights
- Leather-trimmed steering wheel and shift knob
- Heated outside mirrors
- Backup camera
- Electronic parking brake
- 10 standard airbags
- Lexus Safety System+ 2.0 (Pre-Collision System, Pedestrian Detection, Lane Tracing Assist, Lane Departure Alert with Steering Assist, Road Sign Assist, All-Speed Dynamic Radar Cruise Control and Intelligent High Beams)
- Lexus Enform Safety Connect and Service Connect. Complimentary for the first 10 years of ownership.

**INDIVIDUAL OPTIONS**
- Premium Triple-Beam auto-leveling LED headlamps with foglamps and headlamp washers
- Blind Spot Monitor
- Auto-dimming rearview mirror with HomeLink® garage door opener
- Head-Up Display
- Wireless charger
- Intuitive Parking Assist with Auto Braking and Rear Cross-Traffic Braking
- Power Rear Door with Kick Sensor
- Power lift-and-slide moonroof
- Heated steering wheel
- Windshield de-icer
- Navigation System (10.3-in color multimedia display, Dynamic Voice Command, Lexus Enform Dynamic Navigation—complimentary for up to the first three years of ownership, Lexus Enform Destination Assist—complimentary for the first year of ownership, Lexus eight-speaker Premium Sound System, auto-dimming rearview mirror with HomeLink® garage door opener, power lift and telescopic steering column)
- Lexus Enform Wi-Fi. Complimentary 4GB one-year trial is included.
- Lexus Enform App Suite 2.0
- Amazon Alexa® compatibility
- Bluetooth® and USB® smartphone connectivity
- Four USB® ports
- Subscription-free Traffic and Weather updates via HD Radio®
- Voice Command and Siri Eyes Free
- 70-in color LCD multi-information display
- Dual-zone automatic climate control with interior air filter
- NuLuxe® interior trim
- Eight-way power-adjustable front seats with two-way driver lumbar support
- 60/40-split folding rear seats
- Folding tonneau cover
- Bi-LED headlamps, LED taillamps and daytime running lights
- Leather-trimmed steering wheel and shift knob
- Heated outside mirrors
- Backup camera
- Electronic parking brake
- 10 standard airbags
- Lexus Safety System+ 2.0 (Pre-Collision System, Pedestrian Detection, Lane Tracing Assist, Lane Departure Alert with Steering Assist, Road Sign Assist, All-Speed Dynamic Radar Cruise Control and Intelligent High Beams)
- Lexus Enform Safety Connect and Service Connect. Complimentary for the first 10 years of ownership.
UX PREMIUM

- Heated and ventilated front seats
- Power tilt-and-slide moonroof
- Rain-sensing windshield wipers
- Washi interior trim

UX LUXURY

Includes UX Premium features, plus:
- Lexus Memory System for driver’s seat (except lumbar) and outside mirrors
- Wirelessly powered LED-illuminated air-vent knobs
- Electrochromic (auto-dimming) power-folding outside mirrors with auto tilt-down in reverse
- Acoustic front side glass
- Power Rear Door with Kick Sensor
- Blind Spot Monitor

UX F SPORT

- F SPORT 18-in split-five-spoke alloy wheels with run-flat tires
- F SPORT-tuned suspension
- F SPORT exterior styling including unique front and rear bumpers, grille and badging
- LED foglamps and cornering lamps
- Active Sound Control
- F SPORT bolstered front seats
- Perforated leather-trimmed F SPORT steering wheel and shift knob
- Paddle shifters
- F Performance digital gauges with moving dial
- B.O. in multi-information display
- F SPORT interior details including aluminum pedals and front and rear aluminum door-sill scuff plates

ACCESSORIES

- ILLUMINATED DOOR SILLS
  - Heighten the thrill of stepping into your Lexus with illuminated door sills for the driver and front passenger doors.
- ALL-WEATHER CARGO MAT
  - A lightweight, removable and waterproof mat with a multidimensional surface and custom channel design helps keep your cargo area clean and dry.
- REAR BUMPER APPLIQUÉ
  - Helps protect your bumper from scratches, gouges and marring.
- ALL-WEATHER FLOOR LINERS
  - Tub-style perimeter design helps provide optimal protection and an ideal fit.
- DOOR EDGE FILM BY 3M
  - Protects your vehicle’s vertical door edges from dings and paint chips.
