More sophisticated style.
Enhanced capability.
Next-generation safety technology.

Experience a utility vehicle luxuriously crafted to take you further than ever before.

The 2020 Lexus GX
GX 460

With a redesigned, contemporary front fascia; all-new camera technology that enhances both off-road and on-road capabilities; a powerful 4.6-liter V8 engine; full-time four-wheel drive; a Crawl Control system that’s been enhanced from three to five speeds; and new, distinctive interior trims, this is the epitome of rugged refinement.
In addition to the 40/20/40-split second-row seats, the driver and front passenger enjoy 10-way power seats with lumbar adjustability. The third-row seats prove generous and convenient, as the seating folds flat into the cargo area floor manually, or, when equipped, with the press of a button. And a lift-and-slide second-row seat feature simplifies passenger-side access to the third row. Available heated and ventilated front seats, heated outboard second-row seats and three-zone climate control offer additional indulgence.
GX shown in Black Onyx
From more contemporary craftsmanship to new, evocative illumination, the reimagined 2020 GX leaves an unforgettable impression.
Every GX comes from the hands of masters. The leather for the interior is carefully selected from around the world, and only a fraction of that is considered worthy of the Lexus badge. The available semi-aniline leather trim, now offered in a striking Rioja Red, is dyed all the way through, unlike leathers with conventional surface dyes. A higher grade of leather must also be used, since imperfections cannot be hidden. The available Gray Sapele wood trim adds another level of refinement to the cabin. It marries the natural expression of fine wood with the clean sophistication of brushed aluminum by layering the juxtaposing materials—laser technology engraves the wood surface to reveal the delicate metallic lines underneath.

The 2020 GX also features a more intuitive, three-spoke steering-wheel design with added controls for the ultimate in convenience.

INTERIOR DESIGN

With a new, three-spoke steering-wheel design inherited from the flagship LX, distinctive interior trims and more, this is our most refined GX yet.
While most audio systems are adapted to and installed in a vehicle after it’s produced, Mark Levinson® technicians work alongside Lexus engineers from the outset of the development process. That’s why the GX features a dynamic sound stage uniquely fitted to the cabin. Sound this rich even allows listeners to experience the arrangement of individual instruments and performers, to more accurately express the artist’s original intent. The available Mark Levinson® Premium Surround Sound Audio System features 7.1-channel architecture, 17 speakers and 330 watts of maximum power. The resulting audio experience immerses the cabin in multidimensional sound that was once reserved for six-figure home audio systems.
ENGINEERED TO CONQUER

With enhanced capability and responsiveness, the 2020 GX is crafted to take on any terrain.

The luxury utility vehicle that combines rally-proven off-road performance and responsive on-road handling boldly returns to do it once again. With an intelligent V8 engine, a robust towing capacity and full-time four-wheel drive, the 2020 GX offers high strength in high style.
Utilizing technology proven in FIA World Rally Championship competition, the Kinetic Dynamic Suspension System is designed to automatically act on the front and rear stabilizer bars to vary the degree of roll stiffness depending upon road conditions. This system not only improves on-road handling and ride comfort, it allows for greater suspension travel and articulation off-road so that the vehicle remains remarkably level.

ON-ROAD
The system automatically optimizes the stabilizer bars to increase agility and reduce body lean, especially while cornering.

OFF-ROAD
The stabilizer bars automatically loosen in off-road scenarios for greater wheel articulation while crawling over rocks and navigating uneven terrain.

POWER. POISE.
Experience peak performance on any road with a highly advanced suspension system unlike any in its class.
Engineered to accommodate almost any excursion, the GX is capable of towing up to 6,500 pounds, thanks to a solid body-on-frame construction and a 4.6-liter V8 with 329 lb-ft of torque at low engine speeds. Taking a smart approach to strength, Trailer Sway Control helps detect and prevent excessive trailer movement. To help reduce sway, braking is applied independently to each wheel, and the throttle is moderated to help reduce vehicle speed. For added peace of mind, a flashing indicator alerts the driver when the system is taking corrective measures.
With a variety of on-road technologies, the 2020 GX conquers perhaps the most challenging terrain of all for utility vehicles: the city. The available Adaptive Variable Suspension system monitors and adjusts the electronically controlled shock absorber settings of each wheel according to driving conditions or preference. The Torsen®11 torque-sensing limited-slip center differential efficiently distributes engine power between the front and rear axles to optimize traction. And when navigating some of the most challenging city-driving scenarios, the GX also features Downhill Assist Control12 to help keep the vehicle at a slow, constant descent speed and prevent the wheels from locking up, and Hill-start Assist Control12 to provide you with extra confidence when ascending from a stop by applying the brakes to all four wheels until the vehicle begins moving forward.
OFF-ROAD. ON DEMAND.

Take your weekend adventures to the next level with advanced technology to take on any road.

In addition to full-time 4WD, commanding performance reaches a new peak with the available Off-Road Package. Multi-Terrain Select allows you to choose from multiple surfaces such as loose rocks, mud and sand, moguls and more to optimize drivability. And for greater visibility to match, the Multi-Terrain Monitor® works with Multi-Terrain Select to display a variety of distinct camera views, including a convenient under-vehicle view. The 2020 GX also offers a Crawl Control™ system that was enhanced from three to five speeds. Activated with the simple push of a button, it helps automatically maintain an optimal slow and steady pace over challenging terrain. And to give the most avid off-road driver peace of mind, the package even features a transmission-oil cooler and a fuel-tank protector.

MULTI-TERRAIN MONITOR

UNDER VIEW
Useful when traversing rocks or moguls, this view displays the terrain and tire location underneath your vehicle.

SIDE VIEW
When your excursion leads you into tight spaces, this view allows you to clearly see the areas to the left and right of your vehicle.

FRONT VIEW
This view displays both the front panoramic and overhead views to give you a 360-degree perspective of your vehicle.

REAR VIEW
When you put the vehicle in reverse, the backup camera and overhead views are shown on the multimedia display in full color with dynamic gridlines to help you avoid obstacles.

GX shown in Nebula Gray Pearl
From new advanced camera technologies that help provide greater visibility to a larger digital multi-information display within the gauge cluster that delivers key data at a glance, the 2020 GX forges a deeper connection between driver and vehicle. Lexus Enform™ offers concierge-level convenience, allowing you to access your favorite apps, receive destination assistance and more. And with available entertainment features such as a dual-screen Rear-Seat Entertainment System, the GX offers control that caters to the entire family.

CRAFTED TO CONNECT

With added innovations inside and out, this is the most advanced GX ever.
SEEN MORE. DO MORE.

With new advanced camera technology and the flexibility to start your engine remotely from your smartphone, the 2020 GX offers a new perspective on exploration.

PANORAMIC VIEW MONITOR

Designed to help drivers avoid potential obstacles and make parking more convenient, the available Panoramic View Monitor, with wide front view and side view, uses four high-resolution cameras to create a composite image of the vehicle’s near surroundings. It can be paired with backup view or wide back view to assist with parking and maneuvering in hard-to-see areas in real time.

LEXUS ENFORM

Lexus Enform elevates connected technology and provides concierge-level convenience. From emergency assistance and a live response center agent, to the ability to start your engine remotely using your smartphone, smartwatch, the Lexus skill for Amazon Alexa built-in devices, or the Lexus action on Google Assistant-enabled devices, our premium suite of connected technology offers peace of mind with every drive.

REAR-SEAT ACCOMMODATIONS

Providing first-class entertainment and convenience to second- and third-row passengers, the GX offers a dual-screen Rear-Seat Entertainment System and a highly intelligent climate-control system. The available three-zone automatic climate control with interior air filter, smog sensor and automatic recirculation mode helps to provide peak comfort in any type of weather.

BLIND SPOT MONITOR WITH REAR CROSS-TRAFFIC ALERT

To help you change lanes with confidence, the Blind Spot Monitor is designed to help detect and warn you of vehicles approaching or positioned in the adjacent lanes. And for added confidence, Rear Cross-Traffic Alert is designed to help you when backing out of a parking space by notifying you of vehicles approaching from either side.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other features in your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime. Learn more about these services at lexus.com/specialists.
TECHNOLOGY

PEACE OF MIND, STANDARD

Introducing Lexus Safety System+, an integrated suite of the most advanced active safety equipment ever offered on the GX.24

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION
This system25 is engineered to help detect a vehicle or a pedestrian in the path of your Lexus under certain conditions. Should it detect a potential frontal collision, it’s designed to automatically prepare Brake Assist26 for increased brake force and, in some cases, even automatically brake the vehicle to a stop.

LANE DEPARTURE ALERT
This system27 utilizes a high-resolution camera to monitor visible lane markings and determine the vehicle’s position within a lane. If an inadvertent lane departure is detected at speeds above 32 mph, the system attempts to alert the driver with audible and visual warnings and steering-wheel vibrations.

HIGH-SPEED DYNAMIC RADAR CRUISE CONTROL
This system28 uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. If you get closer than the preset distance, the throttle is automatically reduced and the brakes may be applied. As soon as the road ahead clears, your Lexus returns to its preset speed.

INTELLIGENT HIGH BEAMS
To help provide greater visibility for you as well as other drivers, Intelligent High Beams29 offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it detects the headlamps or taillamps of vehicles ahead.
**GX STYLES**

**GX**
- Standard features on every GX:
  - Body-on-frame construction
  - Premium Triple-Beam LED headlamps
  - Color multi-information display
  - Lexus Multimedia System† with color display and nine speakers
  - Voice Command
  - Bluetooth® and USB® smartphone connectivity
  - Subscription-free Traffic and Weather updates via HD Radio®
  - Siri® Eyes Free™
  - Lexus Enform Safety Connect™ and Service Connect™ Included for the first 10 years of ownership.
  - Lexus Enform Remote®, with the Lexus skill for Amazon Alexa® and Google Assistant® compatibility. Included for the first year of ownership.
  - Lexus mobile app services (Lexus Enform Remote®, Lexus Drivers and more)
  - Four USB® ports (two front/two rear)
  - NuLuxe® interior trim
  - SmartAccess® with push-button Start/Stop
  - 10-way power-adjustable front seats
  - Dual-zone climate control with interior air filter
  - 10 standard airbags
  - Trailer Sway Control
  - Backup camera

**GX PREMIUM**
- Includes GX features and Navigation Package, plus:
  - Wood trim
  - Intuitive Parking Assist
  - LED foglamps
  - Rain-sensing windshield wipers
  - Windshield wiper de-icer
  - Heated and ventilated front seats
  - Heated second-row outboard seats
  - Three-zone automatic climate control with interior air filter
  - 18-in split-six-spoke alloy wheels with Dark Gray Metallic finish

**GX LUXURY**
- Includes GX Premium features, and adds or replaces:
  - Headlamp washers
  - Adaptive Variable Suspension
  - Auto-leveling rear air suspension
  - Semi-aniline leather interior trim
  - Wood- and leather-trimmed heated steering wheel
  - Power-reclining and -folding third-row seats
  - Auto-dimming heated power-folding outside mirrors
  - Cargo-area tonneau cover
  - Illuminated door scuff plates
  - 19-in split-six-spoke alloy wheels with Gray and machined finish

**PACKAGES**

**NAVIGATION PACKAGE**
- Navigation System
  - Lexus Enform App Suite®
  - High-resolution color LCD display
  - Lexus Enform Destination Assist.® Included for the first year of ownership.

**MARK LEVINSON® PREMIUM SURROUND SOUND AUDIO PACKAGE (GX LUXURY)**
- Includes Navigation Package, plus:
  - A Mark Levinson® 17-speaker, 330-watt Premium Surround Sound Audio System
  - 71-channel architecture

**SPORT DESIGN PACKAGE (GX PREMIUM, GX LUXURY)**
- 19-in split-six-spoke alloy wheels with Dark Gray and machined finish
- Sport Design front fascia with Dark Gray finish
- Lower grille surround with Satin Chrome finish
- Sport Design mirrors
- Exhaust tip with Gunmetal Metallic finish
- Sport Design rear valance with Dark Gray finish
- Scarlet tail lamps

**OFF-ROAD PACKAGE (GX LUXURY)**
- Panoramic View Monitor® with Multi-Terrain Monitor®
- Heated and ventilated front seats (GX)
- Blind Spot Monitor® with Rear Cross-Traffic Alert® (GX)
- Intuitive Parking Assist® (GX)
- Headlamp washers (GX, GX Premium)
- Wood- and leather-trimmed steering wheel (GX Premium)
- Dual-screen DVD Rear Seat Entertainment System® (GX LUXURY)
- Second-row captain’s chairs® (GX Premium)

**OPTIONS**
- Panoramic View Monitor® with Multi-Terrain Monitor®
- Heated and ventilated front seats (GX)
- Blind Spot Monitor® with Rear Cross-Traffic Alert® (GX)
- Intuitive Parking Assist® (GX)
- Headlamp washers (GX, GX Premium)
- Wood- and leather-trimmed steering wheel (GX Premium)
- Dual-screen DVD Rear Seat Entertainment System® (GX LUXURY)
- Second-row captain’s chairs® (GX Premium)

DISCLOSURES

Your use of the Lexus Enform5™ and Lexus Cloud Services5™ requires a navigation and telematics system capable of reading GPS data and having access to cellular networks. The availability of Lexus Enform5™ services is dependent on the vehicle’s grade, location, radio frequency interference, and other factors. Operations are subject to change at any time without notice. See.lexus.com for details. Lexus Enform5™ services are subject to change at any time without notice. Owners may opt-out of having their vehicle’s location and certain other data collected by Lexus Enform5™ for purposes of improving services. See.lexus.com/privacyvts/ for more information.

Lexus Enform’s data collection, use, sharing and retention, please visit https://www.lexus.com/privacyvts/.

Data charges may apply for senders, receivers and destinations. Data charges may also apply to the use of applications and services, which may be subject to additional terms and conditions.

G Wirless keyless entry system must be enabled to use applications and services. Closed-caption TV is not available on all channels; e.g., computer, mobile device, or print

Your use of Lexus Enform’s data collection, use, sharing and retention, please visit https://www.lexus.com/privacyvts/.

For additional limitations and details.

The maximum you can tow depends on the total weight of any cargo, occupants and available weight limit of your trailer. Your vehicle is designed to assist drivers in avoiding potential collisions. Certain vehicle and environmental factors, including an older system, it is necessary to use a weight-distributing hitch with sufficient capacity. For additional limitations and details.

Before towing, confirm your vehicle and trailer e.g., computer, mobile device, or print

For additional limitations and details.

Before towing, confirm your vehicle and trailer

For additional limitations and details.

Intuitive Parking Assist is designed to assist drivers in avoiding potential collisions at speeds of 9 mph or less. Certain vehicle and environmental factors, including an older system, it is necessary to use a weight-distributing hitch with sufficient capacity. For additional limitations and details.

Panoramic View Monitor and Multi-Terrain Monitor do not provide a comprehensive view of the area surrounding the vehicle. You should also look around outside your vehicle and use your mirrors to confirm surrounding clearance. Environmental conditions may limit effectiveness and view may become obscured. See owner's manual.

Do not exceed any Weight Ratings and follow all instructions and cautions from your trailer-hitch manufacturer and vehicle

WARRANTY Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/ unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available

Do not exceed any Weight Ratings and follow all instructions and cautions from your trailer-hitch manufacturer and vehicle

For additional limitations and details.

The GX 460 is designed to meet most off-road driving requirements, but off-roading is inherently dangerous and may result in vehicle damage. Lexus encourages responsible operation to help protect you, and your passengers, and your vehicle. When outdoors, never exceed the recommended speed for the condition. For additional limitations and details.
