Obsessively designed.
Methodically engineered.
Passionately crafted.

Experience the fusion of refined luxury and peak performance.

The 2020 Lexus LC
LC 500
Experience a world-class luxury coupe crafted for an era of uncompromising performance and design. A platform built specifically for the LC, a highly rigid chassis, an exhilarating zero-to-60 time, and a thundering engine note all come together to connect you to the road like never before.

LC 500h
Experience a profound shift in hybrid performance. Hit the pedal and feel the roar as the breakthrough Lexus Multistage Hybrid Drive pairs a potent gas engine with powerful electric motors to put on a truly invigorating performance—and put the entire category on notice.
A dynamic, low body with menacing, wide shoulders. An aggressive, broad stance. An impossibly low center of gravity. Every design note is engineered to provide direct, responsive performance. With four air intakes and rear aero ducts to help reduce lift and drag, even the air itself contributes to the high-speed handling. By bringing all these elements together, the LC stands apart.
A MONUMENTAL LEAP

The obsessively crafted Lexus LC is more than a car. It's a feeling.

To bring a breakthrough concept vehicle into reality, we had to go to extremes. To engineer a car that conquers every corner as well as rewards the driver, we took every detail even further.
UNPRECEDENTED PERFORMANCE

The LC boasts one of the most powerful naturally aspirated 5.0-liter V8 engines available, for a truly visceral experience.

All that power means nothing if it doesn’t make you feel something. With an impressive 5.0-liter V8 engine, 471 horsepower, and a blistering 6.4-second zero-to-60 time, the LC 500 is finely tuned to give the driver a full-throttle experience. Take it up to its 7,300-rpm redline, and the Active Sport Exhaust delivers a potent, full-throated engine howl unlike anything you’ve ever heard. Or felt.

A 10-speed Direct-Shift automatic transmission with magnesium paddle shifters was specifically designed for the LC. This exclusive transmission has one of the fastest shift times among conventional automatic transmissions, changing gears in 0.12 seconds. Or, half the time it takes the average human to blink. The system also learns your habits every time you drive, selecting the optimum gear based on vehicle speed, acceleration and your driving habits—even choosing the ideal gear while cornering.

LC shown in Ultra White (left), LC shown in Obsidian (right)
THE POWER TO CONTROL

A near-perfect weight balance so you don’t have to sacrifice power for control.

Experience the front-engine, rear-wheel drive platform developed specifically for the LC. Uniting dynamic proportions with ground-hugging luxury coupe elegance, the front-midship design with a multilink suspension system delivers the ideal balance in every way—from the near-perfect weight distribution to the combination of exceptional handling, stability and ride comfort. Such equilibrium was achieved by placing the engine’s central mass behind the front axle, positioning the wheels close to the vehicle’s outer edges, and lowering the hood height and driving position. And, when combined with additional features like available Active Rear Steering and a rear wing that extends at speeds above 50 mph to enhance downforce, the result is one of the most direct, precise driving experiences we’ve ever created—and that you will ever encounter.
The LC wasn’t just about creating the definitive performance car; it was about redefining performance for Lexus. Which meant going to extremes. Decades of takumi craftsmanship and a tradition of relentless engineering and refinement were taken even further. Everything was pushed to the limit to deliver this high-performance, high-strength coupe. A high-tensile steel chassis was built to lower the driving position by just 10 millimeters. Intake valves were made of titanium to make them a few grams lighter. An available carbon fiber roof was developed to lower the vehicle’s center of gravity. Lightweight carbon fiber-reinforced sheet-molding compound allowed the complex shape of the inner doors to be molded as a single piece, and the outer doors were engineered with 6000-series aluminum that’s 47% lighter than its steel counterpart. Materials were evaluated by weight, strength, mass and optimal placement. And then reevaluated for one purpose—the driver’s connection to the road.

Masterfully crafted, then relentlessly tested and scrutinized to deliver a groundbreaking vehicle that lays the groundwork for the future of Lexus high performance.
Feel the adrenaline as lightning-fast electric motors and a powerful gas engine propel you to 60 miles per hour in a mere 4.7 seconds.

It’s a difference you’ll feel instantaneously. The LC 500h is built on an advanced Lexus Multistage Hybrid powertrain—a 3.5-liter, 24-valve V6, powerful yet compact electric motors and a lightweight lithium-ion battery. With 354 total system horsepower1 and thrilling response off the line, the LC 500h signals a major shift in the category. You’ll feel the rush of instant torque the moment you press the pedal, and continuous, seamless acceleration that increases as the engine power and vehicle speed climb. Along with the instinctive feel of a 10-speed transmission through magnesium paddle shifters, the impact of our most responsive, fastest and highest-performance hybrid will be felt through the entire category. Because there’s more to h than hybrid.
A study in uninhibited passion and exhilaration, the LC demanded a completely different approach to design and engineering. A single character line that took months to perfect. A total of 700 individual engineering checkpoints verified by two of our most skilled craftsmen. An available high-back sport seat that required over 50 prototypes to achieve the ideal driving posture. Any sacrifice of design or performance was unacceptable. The driving experience ultimately had to be as inspiring as the final form.

A REVOLUTIONARY APPROACH

Every step of the design and engineering process demanded everything from our engineers, who demanded nothing less than amazing.
ABSOLUTE PRECISION

An unwavering attention to detail, impeccable materials and countless hours crafting the LC not just for how it feels, but for how it makes you feel.

No detail was spared when creating the LC. The painstakingly crafted steering wheel, which provides optimal grip when cornering, is the result of countless hours of testing and track development with Lexus takumi masters. Alcantara®-trimmed door panels with deep, flowing lines form a distinctive look and feel. A leather-trimmed shift knob was crafted from four strips of high-quality leather that were then meticulously hand-sewn. And ambient illumination accentuates the bold contours and details throughout the cabin. To take interior comfort even further, a Climate Concierge system integrates climate control, heated and ventilated seating as well as an available heated steering wheel. Every element of the LC was carefully considered to elevate the driver’s connection to the road. Even the alignment of the driver’s hip point with the vehicle’s center of gravity was studied carefully. Because extreme craftsmanship isn’t only about creating an exceptional finished product. It’s about creating an even more exceptional feeling when you get behind the wheel.
AVANT-GARDE IS IN THE DETAILS

PREMIUM TRIPLE-BEAM LED HEADLAMPS
The triple-projector ultra-compact LED headlamps are more than striking. They’re among the thinnest LED projector headlamps in the industry. Half the size of conventional lamps, the polaric ellipsoid system combines with the daytime running lights and LED cornering lamps to create an unmistakable Lexus signature.

21-INCH FORGED ALLOY WHEELS
Available 21-inch forged alloy wheels offer a lightweight design, Gloss Black accents and a polished finish.

FLUSH EXTERIOR DOOR HANDLES
A flush-surface door handle with illumination enhances aerodynamics and creates a sophisticated first impression. When the handle is extended outward, inset LEDs illuminate the door. As the doors close, or after 15 seconds, the lighting fades.

DIMENSIONAL REAR COMBINATION TAILLAMPS
One of the most stunning features of any Lexus vehicle to date, the dimensional taillamps were inspired by the dramatic glow of a jet’s afterburners. Through the adoption of the infinity mirror principle, an endless, dimensional motif is illuminated when lamps are on, and a sleek gray look appears when off. Eighty LEDs on either side create an even illumination with impressive depth and no visible grain.
LCh shown with Bespoke White leather interior trim

A TECHNOLOGICAL FEAT

With access to more apps and thousands of Amazon Alexa skills, the LC keeps you even more connected to the driving experience.

With Amazon Alexa compatibility, thousands of the same skills you enjoy at home can now be conveniently accessed in your vehicle. While Lexus Enform, our premium suite of connected technology, offers added service, security, entertainment and remote access through your smartphone or smartwatch.
THE LEADING EDGE. OF YOUR SEAT.

APPLE CARPLAY
With Apple CarPlay integration, you can access the same familiar interface from your iPhone through a 10.3-inch multimedia display. Simply connect your iPhone to get directions, make calls, send and receive messages via Siri, and get access to your favorite apps like Waze, Spotify and Apple Audiobooks.

AMAZON ALEXA
Bring all the convenience of Amazon Alexa on the road with the Lexus+Alexa app. Using only your voice, you can easily access thousands of the same skills you get with Alexa at home. Listen to audiobooks, stream Amazon Music, make lists, check the weather, get news briefings and much more. You can also use it to control compatible smart-home devices such as lighting, thermostat and security systems. Offering added in-vehicle convenience, Alexa even syncs to your Navigation System to provide on-the-go recommendations.

LEXUS ENFORM
Lexus Enform elevates connected technology and provides concierge-level convenience. From emergency assistance and onboard Wi-Fi to the ability to start your engine remotely using your smartphone, smartwatch, the Lexus skill on Amazon Alexa, built-in devices, or the Lexus action on Google Assistant-enabled devices, our premium suite of connected technology offers peace of mind with every drive.

MARK LEVINSON AUDIO SYSTEM
While most audio systems are adapted to and installed in a vehicle after it’s produced, Mark Levinson technicians work alongside Lexus engineers from the outset of the development process. That’s why the LC offers a rich, dynamic, 13-speaker, 915-watt sound stage uniquely fitted to the cabin—and as pure as the performance of the vehicle itself.

DELIVERY AND TECHNOLOGY SPECIALISTS
To help you get the most out of these and other features in your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime. Learn more about these complimentary services at lexus.com/specialists.
PEACE OF MIND, STANDARD

Presenting Lexus Safety System+, an integrated suite of the most advanced active safety equipment ever offered on the LC.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION
This system is engineered to help detect a vehicle or a pedestrian in the path of your Lexus under certain conditions. Should it detect a potential frontal collision, it’s designed to automatically prepare Brake Assist for increased brake force and, in some cases, can even automatically brake the vehicle to a stop.

LANE DEPARTURE ALERT WITH LANE KEEP ASSIST
This system utilizes a camera to monitor visible lane markings. If an inadvertent or potential lane departure is detected, it’s designed to warn you and can take slight corrective measures. And, if Dynamic Radar Cruise Control is engaged, the system can even help you remain in the center of the visibly marked lane, helping to prevent drifting before it occurs.

ALL-SPEED DYNAMIC RADAR CRUISE CONTROL
This system uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. Whether at highway speeds or in stop-and-go traffic, the system is designed to detect if you get closer than the preset distance and automatically slow your vehicle—even to a complete stop. If driving at highway speeds and the road ahead clears, your Lexus returns to its preset speed.

INTELLIGENT HIGH BEAMS
To help provide greater visibility for you as well as other drivers, Intelligent High Beams offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it detects the headlamps or taillamps of vehicles ahead.
**LC STYLES**

**LC 500**
- Standard on every LC
- Adaptive Variable Suspension
- Vehicle Dynamics Integrated Management
- Drive Mode Select with Sport S/S+ modes
- Active Sport Exhaust (LC 500 only)
- Aluminum pedals
- Magnesium paddle shifters
- LFA-inspired instrumentation including G-meter
- Navigation System with 10.3-in color LCD multimedia display
- Remote TouchPad
- Lexus Enform App Suite 2.0
- Lexus Enform Safety Connect and Service Connect. Included for the first 10 years of ownership.
- Lexus Enform Remote app with Amazon Alexa and Google Assistant compatibility. Included for the first year of ownership.
- Lexus Enform Wi-Fi, 4GB one-year trial is included.
- Amazon Alexa compatibility
- Dynamic Voice Command
- Lexus 12-speaker Premium Audio System
- Bluetooth and USB smartphone connectivity
- Dual-zone climate control with Climate Concierge
- Heated and ventilated power-adjustable front seats
- SmartAccess with push-button Start/Stop
- Glass roof with sunshade
- Flush exterior door handles
- Premium Triple-Beam LED headlamps
- LED taillamps and turn signals
- Lexus Safety System+ with Pre-Collision System, Lane Departure Alert, Lane Keep Assist, All-Speed Dynamic Radar Cruise Control and Intelligent High Beams
- Blind Spot Monitor with Rear Cross-Traffic Alert
- Eight airbags
- Backup camera
- Complimentary maintenance services (please refer to the Warranty and Services Guide for details)

**LC 500h**
Includes LC 500 features, plus:
- Lexus Multistage Hybrid Drive
- 20-in forged alloy wheels with polished finish

**PACKAGES**

**TOURING PACKAGE**
- Semi-aniline leather-trimmed front seats
- Alcantara headliner
- Mark Levinson 13-speaker, 915-watt Reference Surround Sound Audio System
- Intuitive Parking Assist

**SPORT PACKAGE**
- Carbon fiber or glass roof
- Eight-way power-adjustable front sport seats with Alcantara inserts
- TORSEN limited-slip rear differential
- 20-inch staggered-width 10-spoke forged alloy wheels with polished finish or 21-inch staggered-width split-five-spoke forged alloy wheels with polished finish and Gloss Black accents
- Intuitive Parking Assist

**PERFORMANCE PACKAGE**
Includes Sport Package (with carbon fiber roof), and adds or replaces:
- Active Rear Steering
- Variable Gear-Ratio Steering
- Speed-activated rear wing
- Alcantara headliner
- Carbon fiber door scuff plates
- 21-inch staggered-width split-five-spoke forged alloy wheels with polished finish and Gloss Black accents

**ALL-WEATHER PACKAGE**
- Heated leather-trimmed steering wheel
- Windshield wiper de-icer
- Electronic heater (LC 500h only)

**OPTIONS**

**TORSEN limited-slip rear differential**
- Head-Up Display
- Mark Levinson 13-speaker, 915-watt Reference Surround Sound Audio System
- Intuitive Parking Assist

ACCESSORIES

The Lexus accessory line is an elegant and well-crafted on your expertly designed Lexus vehicle. And ours are the only Lexus accessories that are sourced from our for up to 48 months/50,000 miles and 48 months/50,000 miles, from the vehicle’s in-service date, which is the same coverage as the new vehicle’s basic warranty. For more information, visit our accessory line.

A. All-weather floor mats
B. All-weather trunk mat
C. Carbon fiber rear spoiler
D. Carbon fiber lower grille insert
E. Emergency resistance kit
F. First aid kit
G. Glass breakage sensor
H. Illuminated doorjams
I. Key gloves with Lexus logo
J. Paint protection film by 3M®
K. Spoiler cargo net

DISCLOSURES

To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.

on the model, it may also be applied to select portions of the front bumper for an additional charge. Lexus Genuine Accessory Warranty will only apply when the installation is performed by a trained Lexus-approved installer. See Lexus dealer for details.
