Craftsmanship born from passion.
Technology that marries innovation and emotion.
Performance pushed to breathtaking heights.

Experience a flagship vehicle
that transcends every standard of prestige.

The 2020 Lexus LS
Pairing a potent 3.5-liter V6 engine with powerful electric motors and a lightweight lithium-ion battery, the Lexus Multistage Hybrid Drive system delivers seamless acceleration and torque without requiring a charge. Providing you the direct, instinctive feel of a 10-speed automatic transmission, this is efficiency at the peak of luxury.

Built upon the platform of the high-performance LC coupe and adopting a sports coupe-like profile, the LS boasts a twin-turbocharged 455-hp V6 engine paired with a thrilling 10-speed automatic transmission. And, offering three premium wood trim designs so unique they can take up to four months and 32 steps to complete, it immerses you in craftsmanship like none other.

Featuring LFA-inspired gauges; 28-way power, bolstered front sport seats; larger brakes; aluminum pedals; and our most advanced available vehicle dynamics control system yet, the LS F SPORT delivers the most engaging LS driving experience ever. And the exclusive Performance Package with Active Rear Steering and active stabilizers pushes the intensity even higher.

DESIGN THAT STIRS

Experience the culmination of thoughtful design and unconventional craft.

Countless steps in the search for one pure emotion. That’s the design philosophy behind our most evocative LS yet. With its sleek, coupe-like profile, evocative Premium Triple-Beam LED headlamps and available Art Wood trims like a herringbone design that demands the same process used to craft top-quality musical instruments, including being arranged and sliced by hand, the 2020 LS represents the pinnacle of distinctive design.
THE ART OF HOSPITALITY

Omotenashi is the Japanese concept of hospitality, and the artfully crafted interior of the LS is the ultimate expression of it. This interior isn’t just responsive—it’s revelatory. The enhanced available electronically controlled Adaptive Variable Air Suspension system not only helps to maintain the vehicle’s low center of gravity while driving, but it can also automatically raise the vehicle to make it even easier to step into or out of the LS. In addition, the available outboard seat-cushion side supports automatically adjust to facilitate a smooth, easy entry and exit, as well as to fit comfortably to your body while you’re seated.

LS shown with Parchment leather and Art Wood Organic interior trim
LS shown with Parchment leather and Art Wood Organic interior trim

**DESIGN WORLD-CLASS CRAFTSMANSHIP**

**ART WOOD ORGANIC**
Sustainably and responsibly sourced from the Agathis tree, available Art Wood Organic trim features a vibrant grain pattern reminiscent of flickering flames. Like nothing else in an automobile, or in nature itself, it is created by a takumi craftsman slicing multiple sheets of wood across the grain and applying a natural gloss to enhance the vibrancy.

**AMBIENT LIGHTING**
Inspired by the warm glow of traditional Japanese andon lanterns and the welcoming spirit of omotenashi, soft LED illumination warmly invites the driver and passengers into the cabin. And light sources behind the armrest and door trim give the impression that the armrest is elegantly floating, adding to the serene atmosphere.

**POLISHED MAGNESIUM DETAILS**
With fluid, delicate lines reminiscent of the traditional Japanese harp (koto), the dash accents of the LS are made of magnesium because of its unique tactile qualities. The manufacturing process requires several layers of surface treatment in order to create the distinct feel and dynamic appearance.

**KIRIKO CUT GLASS**
With its delicately etched pattern and luminous glow, available Kiriko glass is designed by hand to catch the eye and light. Then a laser-scanning technique creates data from ten thousand different cuts in order to capture the uniqueness of this human touch. Each piece of glass requires up to 147 points of polishing, which can take hours to complete.

**HAND-PLEATED TRIM**
Created from a single piece of cloth, the available hand-pleated interior trim is a tribute to the art of origami. Simply yet painstakingly crafted, this masterful trim started as true origami and took four years to develop. The final expression is so complex and precise that it can only be folded by human hands.
VISIONARY FORM.

VISCEcRAL FEELING.

Technology in the LS has never been more advanced, yet commanding it has never been this easy. By aligning the lines of the dash horizontally, the LS helps to deliver vehicle information more easily because of the reduced vertical eye movement required by the driver. And the meticulously crafted steering wheel is the result of rigorous testing and track development with Lexus takumi masters. By measuring the distribution of palm pressure on the wheel during countless hours of test-driving, designers were able to dynamically vary the shape in order to provide optimum grip everywhere on the wheel, forging an incomparable connection to the road that you won’t see coming. Or soon forget.
To achieve the finest passenger experience we’ve ever created, the Executive Package offers two exceptional levels of refinement. In addition to generous rear legroom, Lexus Climate Concierge and rear-seat butterfly headrests, the first level also features an extendable right-rear ottoman, an impressive rear-seat reclining angle, and heated and ventilated rear seats with a massager. The second level of the package offers the remarkable style of Kiriko glass and hand-pleated trim. To help you make the most of every indulgence, the rear-seat passenger control panel enables you to manage the finest details—from individual climate zones to seven different massage settings.
Performance That Invigorates

Experience engineering crafted to not just move you, but move the entire industry forward.

From the powerful twin-turbo LS 500 to the groundbreaking Multistage Hybrid system in the LS 500h, this is invigorating performance on demand. Boasting a thrilling Adaptive Variable Suspension for razor-sharp handling and an even more daring LS F SPORT that offers our most advanced vehicle dynamics control system to date, the LS proves that only unconventional engineering can create unparalleled results.
Connecting with the driver in unprecedented ways demands engineering that’s just as extraordinary. Consider the twin-turbo engine in the LS 500. While most carmakers outsource their turbocharger development, Lexus researched, tested and crafted the turbochargers in the LS 500 in-house—something almost unheard of in the industry. This powerful 416-hp V6 engine is paired with an equally exhilarating 10-speed Direct-Shift automatic transmission. It delivers the optimal gear for a wide variety of driving conditions and one of the fastest shift times among conventional automatic transmissions. This is performance technology designed to create a response from the vehicle—and evoke one in the driver as well.
DUAL POWER SOURCES.
FIRST-CLASS PERFORMANCE.

The LS 500h is the first multistage hybrid prestige luxury sedan, and, with the instinctive feel of a 10-speed automatic transmission, the most responsive and fastest LS Hybrid we’ve ever created. Built on an advanced powertrain, it boasts a combined 354-hp\textsuperscript{a}\textsuperscript{b} 24-valve gas engine, powerful yet compact electric motors, and our lightest, most compact lithium-ion battery. With these groundbreaking innovations, the LS 500h is the breakthrough that recasts the entire concept of excellence in the category.
ALL-WHEEL DRIVE.
ALL POWERFUL.

Never sacrifice style for capability with all-wheel drive, available on every LS model. Full-time all-wheel drive delivers engine power to all four wheels, and a Torsen® limited-slip center differential efficiently distributes it between the front and rear axles, helping optimize traction, handling and control in a variety of driving conditions.

LS AWD shown in Manganese Luster®
LSF Sport shown in Atomic Silver

The razor-sharp handling of the Lexus high-performance line meets aggressive, track-inspired design with the LS Sport. Sharing a platform with the intense LC coupe and DNA with the LFA, it includes a specially tuned suspension system engineered by the same team behind the iconic supercar. Beyond larger brakes, optimized brake pads and deeply bolstered front sport seats, you can take the exhilarating drive even further with the LS Performance Package. Boasting Variable Gear-Ratio Steering, Active Rear Steering and active stabilizers, it also features our most advanced vehicle dynamics control system—the first to control all six forms of vehicle movement.
FSPORT STYLING

The FSPORT is a passionate expression of pure performance, both inside and out. Exclusive exterior styling features include FSPORT 20-inch wheels10 with Dark Graphite finish, a dynamic front fascia and mesh grille, exterior badging, darkened chrome lower trim, and large six-piston front and four-piston rear brakes. On the inside, FSPORT bolstered 28-way power front seats feature an exclusive perforated L-motif pattern. And aluminum pedals, a perforated leather–trimmed shift knob and steering wheel, LFA–inspired sliding instrumentation, and an Ultrasuede® headliner are just a few indicators of the passion that lies under the hood.
INNOVATION THAT INSPIRES

Experience world’s-first technology that anticipates every need and elevates every moment.

The most advanced safety system ever offered on a Lexus. The world’s first Mark Levinson® Quantum Logic® Immersion audio system. Lexus Enform™ smartwatch functionality. With cutting-edge safety innovations and leading-edge in-vehicle technology, every touchpoint in the LS was crafted around the driver’s every desire. For added visibility, it offers a 24-inch Head-Up Display—one of the world’s largest†—that not only projects key information such as speed, current gear and rpm onto the windshield, it’s also one of the first displays to warn you about the possibility of pedestrians or cross traffic ahead.†
APPLE CARPLAY®
With Apple CarPlay® integration, you can access the same familiar interface from your iPhone® through the vehicle’s multimedia display. Simply connect your iPhone to get directions, make calls, send and receive messages via Siri®, and get access to your favorite apps like Waze, Spotify® and Apple Audiobooks™.

AMAZON ALEXA
Bring all the convenience of Amazon Alexa™ on the road with the Lexus+Alexa app. Using only your voice, you can easily access thousands of the same features and skills you get with Alexa at home. Listen to audiobooks, stream Amazon Music™, make lists, check the weather, get news briefings and much more. You can also use it to control compatible smart-home devices such as lighting, thermostat and security systems. Offering added in-vehicle convenience, Alexa even syncs to your Navigation System™ to provide on-the-go recommendations.

LEXUS ENFORM
Lexus Enform® elevates connected technology and provides concierge-level convenience. From emergency assistance and onboard Wi-Fi™ to the ability to start your engine remotely® using your smartphone, smartwatch, the Lexus skill on Amazon Alexa™ built-in devices, or the Lexus action on Google Assistant-enabled® devices, our premium suite of connected technology offers peace of mind with every drive.

DELIVERY AND TECHNOLOGY SPECIALISTS
To help you get the most out of these and other features in your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime®. Learn more about these services at lexus.com/specialists.
Inspired by omotenashi, the Japanese concept of hospitality, our vision is to anticipate the driver’s needs and form a relationship that is seamless and intuitive. That’s why we partnered with Mark Levinson® to create the world’s first audio system that delivers a totally unique, totally immersive listening experience for every occupant in the vehicle. Featuring 23 speakers (including four in the ceiling), it creates one of the largest sound stages in the industry. And with Quantum Logic® Immersion, it also offers one of the most sophisticated 3D audio technologies available in an automobile. To further envelop you in the inviting interior, the LS features four customizable temperature zones throughout the cabin, available 28-way adjustable front seats, and a seat-cushion extender on the front-seat edge that can extend to fully support your thighs.

EVERY ELEMENT DESIGNED AROUND YOU
PEACE OF MIND, STANDARD

Presenting Lexus Safety System+ 2.0, an integrated suite of class-leading standard active safety equipment.†

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

By enhancing the radar and camera capabilities, it’s now possible for the system† to help detect not only the vehicle ahead, but also a preceding bicyclist in daytime and even a preceding pedestrian in daytime and low-light conditions.

Should it detect a potential frontal collision, it can help automatically brake the vehicle to a stop.

LANE DEPARTURE ALERT WITH STEERING ASSIST

This system utilizes a camera to monitor visible lane markings. If an inadvertent lane departure is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take slight corrective measures to help keep you within your visibly marked lane.

ROAD SIGN ASSIST

This system uses a built-in camera to help provide road sign information in the instrument panel or even on the available Head-Up Display. In addition to displaying speed limit information, the system can alert you of certain detected signs you otherwise might have missed.

ALL-SPEED DYNAMIC RADAR CRUISE CONTROL

This system uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. Whether at highway speeds or in stop-and-go traffic, the system is designed to detect if you get closer than the preset distance and automatically slow your vehicle—even to a complete stop. If driving at highway speeds and the road ahead clears, your Lexus returns to its preset speed.

INTELLIGENT HIGH BEAMS

To help provide greater visibility for you as well as other drivers, Intelligent High Beams offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it detects the headlamps or taillamps of vehicles ahead.

LEXUS SAFETY SYSTEM + 2.0

LS shown in Atomic Silver
Honed on one of the most complex highway systems in the world, the Tokyo Metropolitan Expressway, available Lexus Safety System+ A is the pinnacle of Lexus driver assistance systems. It includes our most advanced lane assistance technologies, as well as a way for the LS to scan the road ahead and alert you if a pedestrian is on a trajectory to make an impact with the vehicle. This highly intelligent system now helps you manage your speed around curves to handle turns with added confidence. The LS can also help brake or steer away if it detects an impending collision, while still remaining in its lane. And with Lane Change Assist, the LS is even designed to help automatically change lanes for you when it’s safe to do so. It’s one step closer to realizing our vision of an accident-free world.
**LS STYLES**

**LS 500**

- Standard on every LS
- Adaptive Variable Suspension
- Drive Mode Select with Sport S and Custom modes
- Vehicle Dynamics Integrated Management
- Lexus Enform App Suite 2.0
- Lexus Enform Safety Connect and Service Connect.
- Included for the first three years of ownership.
- Lexus Enform Wi-Fi (4GB; one-year trial is included)
- Amazon Alexa and Lexus Enform Safety Connect and Service Connect (37 years of ownership)
- Smartphone connectivity
- Navigation System with 12.3-in color LCD multimedia display
- Lexus 12-speaker Premium Audio System
- Amazon Alexa compatibility
- Apple CarPlay integration
- Active Sound Control and Active Noise Cancellation
- Remote Touchpad
- Heated leather-trimmed steering wheel with paddle shifters
- 16-way power-adjustable heated and ventilated front seats
- Power-adjustable front headrests
- Electrochromic (auto-dimming) inside and outside mirrors with puddle lamps
- Dual-zone climate control
- Power rear sunshade
- Power moonroof
- Hands-free power open/close trunk
- Auto door closer
- Smart Access Keyless entry with push-button Start/Stop
- Premium Triple-Beam LED headlamps
- LED taillamps and turn signals
- Lexus Safety System+ 2.5 (Pre-Collision System, Pedestrian Detection, Lane Departure Alert, Lane Tracing Assist, Dynamic Radar Cruise Control, and Intelligent High Beams)
- Blind Spot Monitor with Rear Cross-Traffic Alert
- Intuitive Parking Assist with Auto Braking
- Backup camera
- Rain-sensing windshield wipers

**LS 500h**

- Includes LS 500 features, plus:
  - Lexus Multistage Hybrid Drive
  - EV drive mode

**LS 500 F SPORT**

- Includes LS 500 features, and adds or replaces:
  - F SPORT exterior styling including front bumper, upper and lower grille inserts, rear diffuser and lower door trim
  - 20-in split-five-spoke alloy wheels with Dark Graphite finish
  - Six-piston front brake calipers with 15.7-in ventilated discs
  - Four-piston rear brake calipers with 14.3-in ventilated discs
  - F SPORT-tuned Adaptive Variable Suspension
  - F SPORT perforated leather-trimmed interior with Ultra suede headliner
  - F SPORT perforated leather-trimmed steering wheel and shift knob
  - F SPORT 28-way power-adjustable front seats with enhanced bolsters, perforations and embossed headrests
  - Passenger seat power cushion extender
  - Aluminum pedals and interior trim

**PACKAGES**

**INTERIOR UPGRADE PACKAGE**

- Outed-stitch perforated semi-aniline leather interior trim
- 28-way power-adjustable driver’s seat with multifunction massage and cushion extender
- Ultra suede headliner and sun visors
- Power front seatbelt buckles
- Wood- and semi-aniline leather-trimmed center console
- Semi-aniline leather-trimmed door armrests
- Heated rear seats
- Leather-wrapped heated steering wheel with wood trim
- Premium wood trim
- 19-in split-10-spoke alloy noise-reduction wheels with Dark Silver and machined finish or 20-in split-10-spoke alloy noise-reduction wheels with Vapor Chrome finish

**LUXURY PACKAGE**

- Includes Interior Uplgade Package, and adds or replaces:
  - 28-way power-adjustable passenger seat with multifunction massage and cushion extender
  - Remote adjustment for passenger seat
  - 18-way power-reclining outboard rear seats with memory
  - Four-zone Climate Concierge with climate-comfort front and outboard rear seats, infrared sensors and air purifier
  - Power side-window sunshades
  - Semi-aniline leather-trimmed rear armrest with 7.0-in touchscreen controller
  - Rear seat knee airbags
  - Adaptive Variable Air Suspension with rapid height function

**EXECUTIVE PACKAGE (LS 500)**

- Includes Luxury Package, and adds or replaces:
  - Butterfly power-retractable front headrests
  - 22-way power-adjustable rear seats with butterfly headrests, memory and multifunction massage with heat
  - Right-rear power recliner with sliding ottoman
  - 20-in split-five-spoke forged alloy wheels with polished finish
  - Mark Levinson 23-speaker, 2,400-watt Quantum Logic
  - Immersion Reference Surround Sound Audio System

**EXECUTIVE PACKAGE WITH KIRIKO GLASS**

- Includes Executive Package, and adds or replaces:
  - Kiriko Glass interior door trim
  - Hand-plated interior door trim

**COLD-WEATHER PACKAGE (STANDARD WITH AWD)**

- Windshield wiper de-icer
- Headlamp washers
- Enhanced interior heater for faster heat output in cold weather

ACCESSORIES

The Lexus accessory line is an elegant and well-crafted ensemble designed for your Lexus vehicle. Listed are the only accessories that are warranted for up to 40 months/50,000 miles and warranted at any Lexus dealership in the nation. For more details visit the Lexus website. (Note: certain accessories may not be available on all models.)

- All-weather floor mats
- All-weather truck bed kit
- Alloy wheel locks
- Cargo net
- Carpet floor mats
- Carpet trunk mat
- Cargo hold hex key cup
- Door edge guards
- Emergency assistance kit
- Fuel and lift kit
- Glass breakage sensor
- Illuminated door sills
- Key gloves with Lexus logo
- Paint protection film by 3M
- Rear bumper applique
- *SPORT ACCESSORIES*
- Key gloves with F logo
- Rear bumper applique

DISCLOSURES

The Pedestrian Detection System does not provide a comprehensive view of obstacles in front of the vehicle. Always drive safely, obey traffic laws and focus on the road while driving.

The Blind Spot Monitor system is designed to monitor the vehicle’s blind spot areas for up to 122 feet on either side of the vehicle. The monitored area includes blind spot areas from the rear of the vehicle up to 40 feet behind the vehicle and from side mirrors to the rear of the vehicle. The system is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as road conditions, weather conditions, object size, speed, distance from object, where the object is located in the monitored area and performance of the system. It is not intended to be a substitute for safe and attentive driving. Effectiveness is dependent on many factors, including road, weather and vehicle conditions. See the Owner’s Manual for additional limitations and details.

The Rear Cross-Traffic Alert system is designed to detect vehicles approaching from the rear of the vehicle. Always drive safely, obey traffic laws and focus on the road while driving. The system is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as road conditions, weather conditions, object size, speed, distance from object, where the object is located in the monitored area and performance of the system. It is not intended to be a substitute for safe and attentive driving. Effectiveness is dependent on many factors, including road, weather and vehicle conditions. See the Owner’s Manual for additional limitations and details.

The Lane Departure Alert system, Lane Departure with Steering Assist system, Adaptive Cruise Control and Radar Cruise Control systems are not collision-avoidance systems, and are not designed to prevent collisions. They depend on an operative telematics device, a cellular connection, navigation map data and GPS satellite signal reception, and other factors outside of Lexus’ control, which can limit the ability or functionality of the system. To learn about Lexus Enform’s functionality is available for in-vehicle use. The Lexus+Alexa app requires an Android smartphone using version 5.0 and above. App download required. Skills and services subject to change at any time without notice.

The Backup Camera does not provide a comprehensive view of the rear area of the vehicle. Always look around outside your vehicle and use your mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See the Owner’s Manual.

See the Owner’s Manual for additional limitations and details.
