Can you see with your ears?

Can your vehicle make weather nearly irrelevant?

Can hearing less of the road help you enjoy more of it?
To craft the most amazing machines, you don’t start with machines at all. You start with people.

The 2021 Lexus ES

**ES 350**
Experience a 302-horsepower, 3.5-liter direct injection V6 engine and precision-tuned Direct-Shift eight-speed automatic transmission with paddle shifters. Amazon Alexa compatibility is included across the ES line. And every ES model features Apple CarPlay integration and class-leading standard Lexus Safety System+ 2.0.

**ES 250 AWD**
Pave your path with more confidence with new all-wheel drive capability—available for the first time ever on an ES—and a new, 2.5-liter in-line four-cylinder engine for an impressive 28-MPG combined estimate. Featuring the same evocative design and seamless connectivity as its ES 350 counterpart, the ES 250 AWD delivers refined luxury for every season.

**ES 300h**
Two lightning-fast electric motors combine with a potent 2.5-liter engine for the most powerful ES Hybrid yet. The most fuel-efficient among all non-plug-in luxury vehicles,** it features a 44-MPG combined estimate. Low-light pedestrian-detection technology and the world’s first Mark Levinson® PurePlay sound system are available on all ES models.

**ES F SPORT MODELS**
The exhilarating ES F SPORT models feature styling and performance upgrades, such as an available Adaptive Variable Suspension system with Sport S+ mode, exclusive bolstered sport seats, and 19-inch wheels.

**ES F SPORT shown in Ultra White (left), ES shown in Moonbeam Beige Metallic (middle), ES shown in Nebula Gray Pearl (right)**

*To craft the most amazing machines, you don’t start with machines at all. You start with people.*

The 2021 Lexus ES
Informed by omotenashi, the Japanese art of hospitality, the ES welcomes you into a spacious and inviting cabin with class-leading rear legroom. Other interior comforts include an available power rear sunshade and supple semi-aniline leather–trimmed seats, which feature a caliber of leather derived from only a fraction of the world’s hides.
An available panorama glass roof allows more light into the cabin than conventional moonroofs. Its unique outer-sliding design creates a seamless appearance while providing ample natural light and added rear headroom.
ES 350 SPORT shown in Atomic Silver
Offering three powerful engines, new all-wheel drive capability and an eight-speed automatic transmission, this is the most engaging ES ever.

EXHILARATING PERFORMANCE

Craftsmanship isn’t only about creating the finest materials—it’s about creating the most visceral experience behind the wheel. After years of research and exhaustive testing, one result is a robust 302-horsepower, 3.5-liter direct injection V6 engine. Further amplifying its performance, an eight-speed automatic transmission delivers intuitive responsiveness and seamless acceleration. Inspiring confidence at every curve, the first-ever ES 250 AWD features all-wheel drive capability and a potent new 2.5-liter in-line four-cylinder engine. The ES line also includes more aggressive F SPORT models and a powerful ES Hybrid. And paddle shifters are featured on all models, putting the thrill of lightning-fast gear changes at your fingertips.
MORE CONFIDENCE.  
MORE CONTROL.  
MORE ROADS.

With its low, wide stance and new all-wheel drive capability, the ES takes you further than ever before.

Explore more roads with more confidence with added all-wheel drive capability and the highly responsive, fuel-efficient 2.5-liter in-line four-cylinder engine of the new ES250 AWD. Featured for the first time ever on an ES, this new all-wheel drive system empowers drivers by delivering greater responsiveness and control in a variety of weather conditions. All while sharing the coupe-like styling, highly rigid chassis and low center of gravity of the other ES models.
TWO POWER SOURCES.  
ONE EXHILARATING DRIVE.

Experience the most powerful ES Hybrid yet, and the most fuel-efficient Lexus ever.

Combining next-generation hybrid technology and a highly potent 2.5-liter engine, this is the best of everything the ES has to offer. Its battery is not only remarkably small and lightweight, but also strategically placed as close to the middle of the vehicle as possible for optimized front/rear weight distribution and a lower center of gravity. And with paddle shifters that deliver driving dynamics similar to the ES 250 AWD and ES 350, the ES Hybrid brings you closer to the road than ever before. Paring powerful performance with a 44-MPG combined estimate, it isn’t just the most fuel-efficient Lexus ever—it’s the most fuel-efficient among all non-plug-in luxury vehicles, period.
Inheriting the DNA of Lexus high-performance vehicles, the F SPORT versions of the ES 250 AWD and ES 350 feature a specially tuned suspension for greater agility. And taking performance to the next level, the ES 350 F SPORT offers the same next-generation Adaptive Variable Suspension system found on the LC for reduced body roll and maximum responsiveness. And, complementing its thrilling performance, it emits an even more throaty engine note at higher rpm.

**F SPORT PERFORMANCE**

With agile handling, the ES F SPORT offers performance as dynamic as its style.

ES F SPORT shown in Ultra White
F SPORT STYLING

From sliding gauges inspired by the world-renowned LFA supercar to Circuit Red–trimmed sport seats with enhanced bolsters, every aspect of the ES F SPORT interior is designed to ignite your senses. The sport steering wheel features the same varied grip profile used in the high-performance LC for optimal control. Strikingly styled from the ground up, the ES F SPORT also features exclusive 19-inch wheels with a daring Dark Graphite finish.

ES F SPORT shown with Circuit Red NuLuxe® and Hadori Aluminum interior trim
With a long, wide, and athletic stance, the ES is captivating from every angle.
With sculpted character lines, the ES pairs daring exterior design with innovative engineering for a dynamic yet refined ride. Boasting an incredibly low center of gravity and a forward-leaning stance, the ES doesn’t just make you feel more connected to the road; it helps you hear less of it.

Building on the sound-dampening capabilities of the flagship LS, the ES features numerous components that minimize engine vibration and significantly reduce road noise, allowing you to focus on what matters most—the drive.
Exclusively available on the ES F SPORT, the Hadori Aluminum trim is inspired by a traditional Japanese sword-making technique. Our Lexus takumi master craftsmen exhaustively researched the centuries-old process, and then developed a special polishing technique to mimic the design. The result? A one-of-a-kind interior trim with exceptional depth and luster. Complementing this ornamentation, intricate hand-stitching on the dash provides a unique tactile quality and dimension that elevate the interior even further.

CRAFTSMANSHIP BORN FROM IMAGINATION

Every curve, innovation and feeling is a product of mastery.

From the hand-stitching on the dash to the available Hadori Aluminum accents and three-dimensional quilted seat design, this is the epitome of unconventional craftsmanship. The ES features exquisite Linear Espresso and Linear Dark Mocha wood trims, multilayered works of art inspired by a Lexus-exclusive design that requires 67 manufacturing steps over 38 days. It also inherits the precision-crafted steering wheel found in the uncompromising LS. By measuring the distribution of palm pressure on multiple points of the wheel during countless hours of test-driving, its unique shape was created to provide the most natural grip regardless of hand position. And pairing optimal performance with optimal comfort, this unrivaled wheel offers heating around its entire circumference.
LUXURY, CENTERED AROUND YOU

Experience where refinement and innovation combine in a driver-centric cockpit and the largest available display in its class.¹

With contemporary styling and cutting-edge technology, the ES offers a refreshing point of view on modern luxury. Discover thoughtful amenities like 10-way power-adjustable seats with available heating and ventilation, designed to envelop you and connect you to the road. Unlike conventional ventilated seats, these pull air directly from the climate-control system to more effectively and efficiently cool you. These refined luxuries are complemented by numerous expressions of modern style and technology, from an available 12.3-inch split-screen multimedia display to available ambient lighting that accentuates the sculpted lines throughout the cabin.

ES shown with Chateau semi-aniline leather and Linear Dark Mocha wood interior trim.
The ultimate expression of the ES, the ES Hybrid builds upon its bold exterior styling with a sleek, concealed exhaust. Providing an incredibly refined ride, the rigid platform and Lexus-first Hybrid-Acoustics™ offer unprecedented sound-damping measures, such as high-precision noise-canceling technology, to ensure the quietest drive possible. And a Super Ultra-Low Emission Vehicle certification means it produces fewer smog-forming emissions than conventionally powered vehicles.13
The ES offers numerous breakthroughs, from Amazon Alexa® compatibility to Android Auto™ to the world’s first Mark Levinson® PurePlay sound system. With the most advanced soundstage technology available in a Lexus, this system features speakers placed higher within the cabin to reduce reflections as well as create tonal synergy and nuances not found in any other vehicle. The result: audio that’s not only heard, but experienced like never before.

EMPOWERING TECHNOLOGY

Offering class-leading audio technology® and innovations like Apple CarPlay integration and Android Auto, the ES helps keep you more connected than ever before.
PEACE OF MIND, STANDARD

Presenting Lexus Safety System+ 2.0, an integrated suite of class-leading standard active safety equipment.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

By enhancing the radar and camera capabilities, it’s possible for the system to help detect not only the vehicle ahead, but also a preceding bicyclist in daytime and even a preceding pedestrian in daytime and low-light conditions. Should it detect a potential frontal collision, it can help automatically brake the vehicle to a stop.

LANE TRACING ASSIST

When All-Speed Dynamic Radar Cruise Control is enabled, this hands-on system monitors visible lane markings or the path of the preceding vehicle to help the driver keep their vehicle centered in the lane by providing steering assistance. Designed for added convenience and to help reduce driver strain, the system can even be used in traffic and on highways with gradual curves.

LANE DEPARTURE ALERT WITH STEERING ASSIST

This system utilizes a camera to monitor visible lane markings. If an inadvertent lane departure is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take slight corrective measures to help keep you within your visibly marked lane.

ROAD SIGN ASSIST

This system uses a built-in camera to help provide road sign information in the instrument panel. In addition to displaying speed limit information, the system can alert you of certain detected signs you otherwise might have missed.

ALL-SPEED DYNAMIC RADAR CRUISE CONTROL

This system uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. Whether at highway speeds or in stop-and-go traffic, the system is designed to detect if you get closer than the preset distance and automatically slow your vehicle—even to a complete stop. If driving at highway speeds and the road ahead clears, your Lexus returns to its preset speed.

INTELLIGENT HIGH BEAMS

To help provide greater visibility for you as well as other drivers, Intelligent High Beams offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it detects the headlamps or taillamps of vehicles ahead.

TECHNOLOGY
In addition to class-leading standard Lexus Safety System+ 2.0, the ES offers a Blind Spot Monitor to help you safely switch lanes and an Adaptive Front Lighting System to seamlessly illuminate curves as you steer.
DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other features in your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime®. Learn more about these complimentary services at lexus.com/specialists.

LEXUS ENFORM

Lexus Enform® elevates connected technology and provides concierge-level convenience. From emergency assistance and onboard Wi-Fi® to the ability to start your engine remotely® using your smartphone, smartwatch, the Lexus skill on Amazon Alexa® built-in devices, or the Lexus Action on Google with your Assistant-enabled® devices, our premium suite of connected technology offers peace of mind with every drive.

AMAZON ALEXA

Bring all the convenience of Amazon Alexa® on the road with the Lexus+Alexa® app. Using only your voice, you can easily access thousands of the same functions you get with Alexa at home. Listen to audiobooks, stream Amazon Music®, make lists, check the weather, get news briefings and much more. You can also use it to control compatible smart-home devices® such as lighting, thermostat and security systems. Offering added in-vehicle convenience, Alexa can even sync to your Navigation System® or provide on-the-go directions via the Waze® app on compatible devices.

APPLE CARPLAY

With Apple CarPlay® integration, you can access the same familiar interface from your iPhone® through the vehicle’s multimedia display. Simply connect your iPhone to get directions, make calls, send and receive messages via Siri®, and get access to your favorite apps like Waze, Spotify® and Apple Audiobooks. ™

ANDROID AUTO

With Android Auto™, you can now seamlessly cast your device’s interface onto the vehicle’s multimedia display. Play your music via your favorite apps such as Spotify and Pandora®, send messages through a range of commonly used apps like WhatsApp®, navigate with Google Maps®, and request information—all with your voice. Just say “Hey Google,” to get started. For added convenience, Android Auto can also help shorten your commute by automatically finding alternate routes if it detects heavy traffic.

HEAD-UP DISPLAY

The available 10.2-inch full-color Head-Up Display can project key information including speed, current gear and rpm onto the windshield. Display information can also be adjusted to suit the driver.

PANORAMIC VIEW MONITOR

This available system® utilizes four high-resolution cameras mounted on the front, sides and rear of the vehicle to give you a bird’s-eye view of the near environment. Moving View and See-Through View options create a composite image of the vehicle’s surroundings as on-screen guides assist with parking and tight maneuvering. The advanced Panoramic View Monitor is also linked to the Rear Cross-Traffic Braking system® which is designed to help you avoid a potential collision with a static object, or even a pedestrian.

HANDS-FREE POWER TRUNK

The available power open/close trunk with kick sensor® can be operated using a button on the key fob, the trunk lid or next to the steering wheel. For added convenience when your hands are full, the open/close function can be performed by waving your foot under the rear bumper.

INNOVATION AT YOUR FINGERTIPS. AND BEYOND.

TECHNOLOGY
ES 250 AWD
Standard features:
- 203-horsepower in-line 4 engine
- SmartAccess™, with push-button Start/Stop
- Drive Mode Select
- Paddle shifters
- Power moonroof
- Lexus Multimedia System™ with 8-inch display
- Lexus 10-speaker Premium Sound System
- Lexus Enform Remote™ with Amazon Alexa™ and Google Assistant™ compatibility. Accessed via the Lexus app. Included for the first three years of ownership.
- Lexus app (Enform remote engine start, service scheduling, Vehicle Health Reports/Alerts, and more.)
- Lexus Enform Wi-Fi. 4GB/three-month trial is included.
- Amazon Alexa compatibility
- Apple CarPlay® integration
- Android Auto™ connectivity
- Subscription-free Traffic and Weather updates via HD Radio™
- Voice Command and Siri Eyes Free™
- Color LCD multi-information display
- Dual-zone climate control with interior air filters, smog sensor and automatic recirculation mode
- Perforated NuLuxe® interior trim
- 10-way power-adjustable front seats
- Bi-LED headlamps, LED taillamps and daytime running lights
- Backup camera™
- Vehicle Stability Control®
- 10 standard airbags®
- Lexus Safety System+ 2.0 (Pre-Collision System with Pedestrian Detection, Lane Tracing Assist™, Lane Departure Alert with Steering Assist™, Road Sign Assist™, All-Speed Dynamic Radar Cruise Control™ and Intelligent High Beams™)
- Lexus Enform Safety Connect™ Included for the first three years of ownership.
- Lexus Enform Service Connect™ Included for the first 10 years of ownership.
Complimentary maintenance services.(5) (Please refer to the Warranty and Services Guide for details.)

ES 250 LUXURY AWD
Includes ES 250 AWD features and Premium Package, plus:
- Wood trim with ambient lighting
- Wood- and leather-trimmed steering wheel
- Blind Spot Monitor™ with Rear Cross-Traffic Alert™ and Intuitive Parking Assist™ with Auto Braking™
- Perforated leather interior trim
- Driver’s-seat power cushion extender
- 14-way power-adjustable driver’s seat
- Power rear sunshade

ES 250 ULTRA LUXURY AWD
Includes ES 250 LUXURY AWD features, and adds or replaces:
- Heated wood- and leather-trimmed steering wheel, windshield wiper de-icer and fast-response interior heater
- Navigation System™ with 12.3-inch color multimedia display
- Perforated semi-aniline leather interior trim
- Power rear sunshade with manual rear-door sunshades
- Power open/close trunk with kick sensor™
- Lateral performance dampers

ES 250 F SPORT AWD
Includes ES 250 AWD features and Premium Package, and adds or replaces:
- F SPORT 19-in split-five-spoke alloy wheels with Dark Graphite finish
- F SPORT suspension tuning
- Lateral performance dampers
- Rear spoiler
- F SPORT interior details including Hadori Aluminum trim, aluminum pedals and black headliner
- F SPORT bolstered heated and ventilated front seats
- Leather-trimmed shift knob and steering wheel with F SPORT logo
- F SPORT exterior styling including unique front bumper and grille
- Performance-inspired instrumentation
- Blind Spot Monitor™ with Rear Cross-Traffic Alert, Intuitive Parking Assist with Auto Braking and Rear Pedestrian Detection

WHEELS

The ES offers noise-reduction wheels that force sound waves through resonator holes, increasing friction and converting unwanted sound energy into heat energy that’s then dissipated into the air. It’s a stylish ride made that much smoother.
