Can you escape it all while still being connected to everything?

Can off-road technology make paved roads more enjoyable?

Can you feel at home when you’re miles away from it?
To craft the most amazing machines, you don’t start with machines at all. You start with people.

The 2021 Lexus GX
In addition to the 40/20/40-split second-row seats, the driver and front passenger enjoy 10-way power seats with lumbar adjustability. The third-row seats prove generous and convenient, as the seating folds flat into the cargo area floor manually, or, when equipped, with the press of a button. And a lift-and-slide second-row seat feature simplifies passenger-side access to the third row. Available heated and ventilated front seats, heated outboard second-row seats and three-zone climate control offer additional indulgence.
GX shown in Black Onyx
DESIGNED TO CAPTIVATE

From contemporary craftsmanship to evocative illumination, the 2021 GX leaves an unforgettable impression.

Embracing a sophisticated design all its own, the muscular GX features an imposing stance, a modern front fascia with Premium Triple-Beam LED headlamps, available 19-inch wheels and more. Feel at home in unparalleled craftsmanship, bold details and a striking balance of comfort and capability from a luxury utility vehicle that exceeds all expectations.
Every GX comes from the hands of masters. The interior leather trim is carefully selected from around the world, and only a fraction is considered worthy. The available semi-aniline leather trim, offered in a striking Rioja Red, is dyed all the way through, unlike leathers with conventional surface dyes. A higher grade of leather must also be used, since imperfections cannot be hidden. The available Gray Sapele wood trim adds another level of refinement. It marries the natural expression of fine wood with the clean sophistication of brushed aluminum by layering the juxtaposing materials—laser technology engraves the wood surface to reveal the delicate metallic lines underneath. With an intuitive, three-spoke steering wheel featuring convenient controls, plus an available three-zone climate control to personalize temperature settings, the 2021 GX provides a memorable first-class experience.
MARK LEVINSON® AUDIO

While most audio systems are adapted to and installed in a vehicle after it’s produced, Mark Levinson® technicians work alongside Lexus engineers from the outset of the development process. That’s why the GX features a dynamic soundstage uniquely fitted to the cabin. Enabling you to hear music in its purest, highest fidelity, the system even allows listeners to experience the arrangement of individual instruments and performers, to more accurately express the artist’s original intent. The available Mark Levinson® Premium Surround Sound Audio System features 17 speakers and 330 watts of maximum power. The resulting audio experience immerses the cabin in multidimensional sound that was once reserved for six-figure home audio systems.

SOUND THAT STIRS THE SENSES

GX shown with Sepia Nu.Luxe® and Gray Sapele wood with Aluminum interior trim.
ENGINEERED TO CONQUER

Remarkable capability and responsiveness make nearly every terrain yours for the taking.

Experience the luxury utility vehicle that combines rally-proven off-road performance and responsive on-road handling, to boldly take on adventures of all kinds. With an intelligent V8 engine, a robust towing capacity, and full-time four-wheel drive, the 2021 GX offers high strength in high style.

GX shown in Starfire Pearl™
Utilizing technology proven in FIA World Rally Championship competition, the Kinetic Dynamic Suspension System is designed to automatically act on the front and rear stabilizer bars to vary the degree of roll stiffness depending upon road conditions. This system not only improves on-road handling and ride comfort, it allows for greater suspension travel and articulation off-road so that the vehicle remains remarkably level, making all roads more enjoyable.

ON-ROAD
The system automatically optimizes the stabilizer bars to increase agility and reduce body lean, especially while cornering.

OFF-ROAD
The stabilizer bars automatically loosen in off-road scenarios for greater wheel articulation while crawling over rocks and navigating uneven terrain.

POWER. POISE.
Experience peak performance on any road with a highly advanced suspension system unlike any in its class.
6,500-LB TOWING CAPABILITY

Engineered to accommodate almost any excursion, the GX is capable of towing up to 6,500 pounds, thanks to a solid body-on-frame construction and a 4.6-liter V8 with 329 lb-ft of torque at low engine speeds. Taking a smart approach to strength, Trailer Sway Control helps detect and prevent excessive trailer movement. To help reduce sway, braking is applied independently to each wheel, and the throttle is moderated to help reduce vehicle speed. For added peace of mind, a flashing indicator alerts the driver when the system is taking corrective measures.

329
lb-ft of torque
With a variety of on-road technologies, the 2021 GX conquers perhaps the most challenging terrain of all for utility vehicles: the city. The available Adaptive Variable Suspension system monitors and adjusts the electronically controlled shock absorber settings of each wheel according to driving conditions or personal preference. The Torsen® torque-sensing limited-slip center differential efficiently distributes engine power between the front and rear axles to optimize traction. And when navigating some of the most challenging city-driving scenarios, the GX also features Downhill Assist Control® to help keep the vehicle at a slow, constant descent speed and prevent the wheels from locking up, while Hill-start Assist Control® helps you feel secure when ascending from a stop by applying the brakes to all four wheels until the vehicle begins moving forward.
MASTER THE POSSIBILITIES

Experience next-level adventures with advanced technologies that take on nearly any road.

In addition to full-time 4WD, commanding performance reaches a new peak with the available Off-Road Package. Multi-Terrain Select allows you to choose from multiple surfaces such as loose rocks, mud and sand, moguls and more to optimize drivability. And for greater visibility to match, the Multi-Terrain Monitor™ works with Multi-Terrain Select to display a variety of distinct camera views, including a convenient under-vehicle view. The 2021 GX also offers a Crawl Control™ system that features five speed modes. Activated with the simple push of a button, it helps automatically maintain an optimal slow and steady pace over challenging terrain. And to give the most avid off-road driver peace of mind, the package even features a transmission oil cooler and a fuel-tank protector.

MULTI-TERRAIN MONITOR

UNDER VIEW
Useful when traversing rocks or moguls, this view™ displays the terrain and tire location underneath your vehicle.

SIDE VIEW
When your excursion leads you into tight spaces, this view™ allows you to clearly see the areas to the left and right of your vehicle.

FRONT VIEW
This view™ displays both the front panoramic and overhead views to give you a 360-degree perspective of your vehicle.

REAR VIEW
When you put the vehicle in reverse, the backup camera™ and overhead views™ are shown on the multimedia display in full color with dynamic gridlines to help you avoid obstacles.

GX shown in Nebula Gray Pearl
Offering innovations like Amazon Alexa capability, this is the most advanced GX ever.

CRAFTED TO CONNECT

Offering new Amazon Alexa compatibility, you can stay connected even while escaping it all. In addition, Lexus Enform offers concierge-level convenience, allowing you to access your favorite apps, receive destination assistance, start your vehicle remotely using your smartwatch, and more. All while advanced camera technologies help provide greater visibility via the main display, for added peace of mind.

GX shown with Ecru leather and Gray Sapura wood with Aluminum interior trim
SEE MORE. DO MORE.

With advanced camera technology and the flexibility to start your engine remotely from your smartphone, the GX offers a new perspective on exploration.

**PANORAMIC VIEW MONITOR**

Designed to help drivers avoid potential obstacles and make parking more convenient, the available Panoramic View Monitor uses four high-resolution cameras to create a composite image of the vehicle’s near surroundings. It can be paired with backup view or wide back view to assist with parking and maneuvering in hard-to-see areas in real time.

**LEXUS ENFORM**

Lexus Enform elevates connected technology and provides concierge-level convenience. From available access to a live response center agent and new Amazon Alexa compatibility to the ability to start your engine remotely using your smartphone, smartwatch, the Lexus skill for Amazon Alexa built-in devices, or the Lexus Action on Google with your Assistant-enabled devices, our premium suite of connected technology offers peace of mind with every drive.

**LEXUS APP**

Manage your vehicle on the go with the new Lexus app. You can do everything from starting your vehicle remotely with your smartphone to scheduling a service appointment with a few simple taps, and much more. The Lexus app is available for download from the Apple App Store or Google Play store.

**BLIND SPOT MONITOR WITH REAR CROSS TRAFFIC ALERT**

To help you change lanes with confidence, the Blind Spot Monitor is designed to help detect and warn you of vehicles approaching or positioned in the adjacent lanes. And for added confidence, Rear Cross Traffic Alert is designed to help you when backing out of a parking space by notifying you of vehicles approaching from either side.

**DELIVERY AND TECHNOLOGY SPECIALISTS**

To help you get the most out of these and other features in your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime. Learn more about these services at lexus.com/specialists.
PEACE OF MIND, STANDARD

Presenting Lexus Safety System+, an integrated suite of the most advanced standard active safety equipment ever offered on the GX.25

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

This system26 is engineered to help detect a vehicle or a pedestrian in the path of your Lexus under certain conditions. Should it detect a potential frontal collision, it’s designed to automatically prepare Brake Assist27 for increased brake force and, in some cases, even automatically brake the vehicle to a stop.

LANE DEPARTURE ALERT

This system28 utilizes a high-resolution camera to monitor visible lane markings and determine the vehicle’s position within a lane. If an inadvertent lane departure is detected at speeds above 32 mph, the system attempts to alert the driver with audible and visual warnings and steering-wheel vibrations.

HIGH-SPEED DYNAMIC RADAR CRUISE CONTROL

This system29 uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. If you get closer than the preset distance, the throttle is automatically reduced and the brakes may be applied. As soon as the road ahead clears, your Lexus returns to its preset speed.

INTELLIGENT HIGH BEAMS

To help provide greater visibility for you as well as other drivers, Intelligent High Beams30 offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode; then temporarily switches to low beams when it detects the headlamps or taillamps of vehicles ahead.
GX Standard features on every GX:
- Body-on-frame construction
- Premium Triple-Beam LED headlamps
- Color multi-information display
- Lexus Multimedia System with color display and nine speakers
- Voice Command
- Bluetooth® and USB® smartphone connectivity
- Subscription-free Traffic and Weather updates via HD Radio®
- Siri® Eyes Free®
- Lexus Enform Safety Connect® and Service Connect.® Included for the first 10 years of ownership.
- Lexus Enform Remote® with Amazon Alexa® and Google Assistant® compatibility. Accessed via the Lexus app. Included for the first three years of ownership.
- Lexus app (Enform Remote engine start, service scheduling, Vehicle Health Reports/Alerts, and more)
- Four USB® ports (two front/two rear)
- NuLuxe® interior trim
- SmartAccess® with push-button Start/Stop
- 10-way power-adjustable front seats
- Reclining, sliding middle-row seats with 40/20/40-split seatback
- Fold-flat third-row seats
- Dual-zone climate control with interior air filter
- Lexus Memory System
- Power moonroof
- Privacy glass
- Illuminated running boards
- Lexus Safety System® (Pre-Collision System with Pedestrian Detection®, Lane Departure Alert®, High-Speed Dynamic Radar Cruise Control®, and Intelligent High Beams®)
- Blind Spot Monitor® with Rear Cross-Traffic Alert®
- 10 standard airbags®
- Trailer Sway Control®
- Backup camera®
- Complimentary maintenance services® (Please refer to the Warranty and Services Guide for details.)

GX PREMIUM Includes GX features and Navigation Package, plus:
- Gray Sapele wood with Aluminum trim
- Intuitive Parking Assist®
- LED foglamps
- Rain-sensing windshield wipers
- Windshield wiper de-icer
- Heated and ventilated front seats
- Heated second-row outboard seats
- Three-zone automatic climate control with interior air filter

GX LUXURY Includes GX Premium features, and adds or replaces:
- Headlamp washers
- Adaptive Variable Suspension
- Auto-leveling Rear Air Suspension
- Semi-aniline leather interior trim
- Power third-row seats
- Heated power-folding outside mirrors
- Cargo-area tonneau cover
- Illuminated door scuff plates
- 19-in split-six-spoke alloy wheels with Gray and machined finish

PACKAGES

You can also call 800-730-3000 or 800-874-7050 for additional limitations and details.

Lexus provides complimentary maintenance for your vehicle for the first two scheduled visits. To obtain these services, contact your Lexus dealership. Complimentary services applicable for new Lexus vehicle registered owners and service intervals may vary, depending on model. Please refer to your warranty terms and conditions for additional limitations and details.

Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Use of aftermarket accessories may pose an increased risk of injury to occupants in the vehicle in the event of an accident.

Your mileage will vary for many reasons, including your vehicle’s condition and how/where you drive. See www.fueleconomy.gov. Your vehicle. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment.

Genuine Lexus Paint Protection Film by 3M™ is designed for specific sections of the hood and front fenders. Depending on the model, it may also be applied to select portions of the front bumper. See Owner’s Manual for additional limitations and details. 16. The available Audio/Video Navigation System with Lexus Enform is designed to provide maps, directions, locations of points of interest, safety and incident information, and real-time traffic information using third-party data providers. See Owner’s Manual for additional limitations and details. 17. Distribution Assist depends on an appropriate information device, a cellular connection, navigation data, GPS signal strength and other factors outside of Lexus’ control, all of which can limit system functionality or availability. See Owner’s Manual for additional limitations and details.

If you have any questions about these or any other accessories, please contact your Lexus dealer. They will be able to help you with your selection and the installation.
