Lexus Enform with Safety Connect is a suite of services ranging from safety to convenience features.* Available by subscription on your Lexus vehicle, this on-board communications system can help lend security and everyday expediency on the road—letting you choose the information you need along the way.

What Is Safety Connect?

Safety Connect services help you stay secure on the road. With your vehicle’s built-in cellular technology and GPS system, you can be in touch with our 24/7 response center at the touch of a button. And should you ever experience an accident, Safety Connect is like an added safety net to help ensure that you receive the quick response and care you need from emergency service providers.

A Safety Connect Subscription Offers These Four Safety and Security Features:

- **Emergency Assistance (SOS)** — An in-vehicle button that you can push anytime you need help on the road with emergencies. Assistance is available 24/7 from our response center, where agents are ready to take your call.

- **Enhanced Roadside Assistance** — A supplement to the Lexus warranty-based roadside assistance, Safety Connect will allow our response center to more easily locate your vehicle and to help dispatch the assistance you need on the road.

- **Automatic Collision Notification** — Should your vehicle experience an airbag deployment or a severe rear-end collision, the response center will automatically be notified so that agents can help to send the emergency support you need.

- **Stolen Vehicle Location** — In the event that your Lexus vehicle is stolen, after you have filed a police report our response center agents can assist the authorities in locating your vehicle.

Safety Connect services are available by subscription.

*Please see pages 38 and 39 for detailed product terms, conditions, and availability.*
What Is Lexus Enform?

With a Lexus Enform subscription, you receive all of the safety and security features of Safety Connect and add to them an extra level of convenience. These two premium features can help you stay informed and prepared wherever you go:

**Destination Assist** – By making a single call to the Lexus Enform response center, you can receive assistance finding the location of your choice and have the coordinates sent straight to your navigation system. Then, with the push of a button, you have directions to where you want to go. Our 24/7 response center agents can help you find a specific address by name, or a type of business—like a gas station, movie theater, etc.—and even Zagat-rated restaurants. Wherever you choose to go, Lexus Enform can help you find your way. And your navigation system will automatically store the 100 most recently downloaded destinations from your Destination Assist calls.

**eDestination** – This destination management system lets you easily pick, organize, and name your preferred destinations online via any personal computer and then send them wirelessly to your Lexus vehicle. Up to 200 destinations can be sent at a time—all of which can be sorted into up to 20 personalized folders holding as many as 10 destinations each. You can even access the acclaimed Zagat restaurant database.

Online, you can create personal location names, if you choose, to make them easier to recognize and remember, and even create notes about them. The best part? All of this information will appear exactly as you record it—right in your vehicle.

*Destination Assist and eDestination are available via a Lexus Enform subscription, which also includes all Safety Connect services.*

**Lexus Insider™**

A complimentary, optional service, Lexus Insider provides audio messages, or articles, right to your vehicle. Lexus Insider articles can help keep you up-to-date on how to use important Lexus vehicle technologies or provide insights into local events and exclusive owner benefits—all helping to further enhance your Lexus experience. Some Lexus Insider articles will even provide a downloadable point of interest (POI, or destination) that can be saved to your vehicle’s navigation system, so you can easily find the destination.

Don’t want to receive Lexus Insider articles? You can easily opt out of receiving them via your navigation system’s settings.

*Lexus Insider is a complimentary service on all Lexus Enform-equipped vehicles and does not require a subscription.*
XM Services

As a supplement to Lexus Enform’s premium services, a variety of XM subscriptions are available—adding even more convenience to your Lexus vehicle.

**XM Sports and Stocks**

**XM Sports** gives you access to customized sports information—right in your vehicle. You pick the teams, up to five personally selected professional sports teams (MLB®, NHL®, NBA®, NFL®), and the system shows you available game results, schedules, and XM Radio air times.

**XM Stocks** helps keep you up-to-date with investment data, providing information for up to 10 personally selected stocks via your Lexus vehicle’s navigation system.

**XM Sports and Stocks is included with an XM Radio subscription.**

**XM NavTraffic®**

XM NavTraffic provides real-time traffic information for 77 U.S. and expanding metro areas and is the first satellite-based traffic information system to provide personalized traffic information for your location and real-time traffic information displayed on your Lexus vehicle’s navigation system. With this service, you receive detailed available reports on accidents, construction, and traffic flow—all helping you make time-saving decisions on the go.

**XM NavWeather™**

XM NavWeather provides a three-day forecast for 100 cities based on National Weather Service data. Featuring Threat Matrix™ technology, the system tracks nationwide weather for up to 20 conditions, in an easy-to-read format. In addition to easily accessible forecasts, the service provides weather warnings to alert you of severe weather conditions nearby—before you drive into them.

**XM NavTraffic and XM NavWeather are available via separate XM subscriptions.**

- An included 1-year trial subscription of Lexus Enform with Safety Connect is offered on all new Lexus Enform-equipped vehicles at purchase.
- A 90-day trial of all available XM services is offered on new Lexus vehicle purchases.

Please see your Lexus dealer for more information about the Lexus Enform with Safety Connect features and enrollment.
Your vehicle comes equipped with Safety Connect, which includes four safety and security features. You must be actively subscribed in order to receive these services.

**Emergency Assistance Button (SOS)**

In the event of an emergency on the road, push the SOS button to reach the Safety Connect response center. The agent who answers your call will determine your vehicle’s location, assess the emergency, and dispatch the necessary assistance.

*TIP: If you accidentally press the SOS button, please inform the response center agent that you are not experiencing an emergency when he or she comes on the line.*

**Enhanced Roadside Assistance (via the SOS button)**

Safety Connect roadside service will enhance the already included warranty-based Lexus roadside service by adding GPS data. Press the SOS button to reach a Safety Connect response center agent, who can help with a wide range of needs such as towing, jump starts, flat tires, and fuel delivery. For a description of the roadside assistance services and their limitations, please see the Safety Connect Terms and Conditions, which are available at Lexus.com.

**Automatic Collision Notification**

In case of an airbag deployment or a severe rear-end collision, the Safety Connect system is designed to automatically call the response center. The responding agent receives the vehicle’s location and attempts to speak with the vehicle occupants to assess the level of emergency. If the occupants are unable to communicate, the agent automatically treats the call as an emergency, contacts the nearest emergency services provider to describe the situation, and requests that assistance be sent to the location.
Stolen Vehicle Location

If your vehicle is stolen, Safety Connect® can work with local authorities to assist them in locating and recovering the vehicle after you have filed a police report. Call the Safety Connect response center at 1-800-25-LEXUS (1-800-255-3987) and follow the prompts for Safety Connect to initiate this service.

In addition to assisting law enforcement with recovery of a stolen vehicle, Safety Connect–equipped vehicle location data may, under certain circumstances, be shared with third parties to locate your vehicle. Further information is available at Lexus.com.

Safety Connect System Components Visible in Your Vehicle

1. Microphone
2. Light indicators
3. SOS button

Understanding the Safety Connect Light Indicators

The Following Light Patterns Indicate Specific System Conditions:

- Green indicator light on: The Safety Connect service is active.
- Green indicator light flashing: A Safety Connect call is in progress.
- Red indicator light (except at vehicle start-up): System malfunction. Please contact your Lexus dealer.
- No indicator light (off): The Safety Connect service is not active.

TIP: When the “ENGINE START STOP” button is pushed to “IGNITION ON” mode, the red indicator light comes on for two seconds then turns off. Afterward, the green indicator light comes on, indicating that the service is active.
Destination Assist

Lexus Enform® Services
Your vehicle comes equipped with Lexus Enform, whose premium services are available by subscription. You must be actively subscribed in order to receive these services.

Call Destination Assist to Find a Location

IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:

1a. Push the “MENU” button on the remote touch controller, then select “Destination” from the “Start” screen.

IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:

1b. Push the “DEST” hard button on the navigation console.

2. Select “Destination Assist.”

4. An agent will answer your call.

TIP: During a Destination Assist call, you can adjust the call volume by pressing the “–” or “+” buttons on the Destination Assist screen, or on the steering wheel.
5. The agent can help you find:
   • A location’s specific address,
   • A particular business by name, or
   • A type of business, such as a gas station, movie theater, shopping center, etc.

**After Determining Your Desired Location, the Agent Will:**
   • Locate the destination,
   • Send the destination’s coordinates to your vehicle’s navigation system,
   • Ask you to select “Go to” or “Enter” on the navigation screen, in order to save the destination, and
   • End the call.

Note: Exiting this screen during this process will result in losing destination data.

6. Select “Go to” or “Enter” to set the location as your destination with route guidance via your navigation system. The downloaded destination will be automatically saved to the Destination Assist history for future reference.

---

**Call Destination Assist with Voice Command**

1. Push the steering-wheel talk button.
2. After the beep, say: “Destination.”
3. Wait for the verbal prompt to finish, and after the next beep, say: “Call Destination Assist.”

**TIP:** You can end a Destination Assist call yourself by selecting “Disconnect” on the navigation screen during the call or by pushing the steering-wheel phone on-hook (hang-up) switch.
Retrieve Locations from Your Destination Assist History

Locations you receive via Destination Assist calls will be automatically saved to the navigation system once you have received them. The 100 most recently received destinations will be stored in the Destination Assist history.

**IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1a. Push the “MENU” button on the remote touch controller, then select “Destination” from the “Start” screen.

2. Select “Destination Assist.”

4. Select the desired location. You will see its data and be able to be set it as a destination.

**IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1b. Push the “DEST” hard button on the navigation console.

**TIP:** To sort the locations by date or name, select “Sort” and follow the prompts.
Delete Locations from Your Destination Assist History

You can delete one or all locations from your history.

**IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1a. Push the “MENU” button on the remote touch controller, then select “Destination” from the “Start” screen.

![Remote Touch Controller](image)

**IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1b. Push the “DEST” hard button on the navigation console.

2. Select “Destination Assist.”

5. Select the destination you wish to delete or choose “Select All.”

7. Select “Yes” to confirm or “No” to cancel.

---

Lexus Enform® User’s Guide
Online eDestination Steps

In order to access eDestination, please register on the LexusDrivers.com Web site for Lexus owners.

After you register, you can create up to 20 personalized folders to store up to 200 locations of your choosing. You can update your folders and locations from any personal computer at any time and then send your saved online eDestination locations to your vehicle.

**Create Your Owner’s Site Account**

If you are not registered on LexusDrivers.com, please:
2. Click “REGISTER.”
3. Complete the registration form, then click “NEXT.”

**Sign In to Your Lexus Owner’s Account**

2. Enter your username and password to log in and click “Submit.”
3. Click on the Lexus Enform tab to go to eDestination.

**TIP:** When registering on LexusDrivers.com, please input your name and address as they appear on your Lexus Enform Subscriber Agreement.

If you do not have a Subscriber Agreement, please call 1-800-25-LEXUS (1-800-255-3987) and select the prompt for Lexus Enform with Safety Connect Subscriber Services.
In-Vehicle eDestination Steps

Download eDestination Data to Your Vehicle

After selecting locations and updating your eDestination folders online, you will need to download the information to your vehicle.

**IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1a. Push the “MENU” button on the remote touch controller, then select “Destination” from the “Start” screen.

**IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1b. Push the “DEST” hard button on the navigation console.

2. Select “Point of Interest.”

3. Select “eDestination.”

4. Select “Download.”

5. Select “Yes” to confirm or “No” to cancel.
6. Your most recent online eDestination data will be loaded into the navigation system.

7. Your eDestination folders will now appear in the dropdown list.

**TIP:** If your most updated eDestination folders do not download into the vehicle, please confirm that you have sent them to your vehicle via the LexusDrivers.com Web site.

Set an eDestination in the Navigation System for Guidance

Once downloaded into the vehicle, your eDestination locations can be set in the navigation system for route guidance. You can program up to five destinations per route at a time.

**IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1a. Push the “MENU” button on the remote touch controller, then select “Destination” from the “Start” screen.

**IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1b. Push the “DEST” hard button on the navigation console.
2. Select “Point of Interest.”

3. Select “eDestination.”

4. Select the eDestination folder that contains your desired location.

5. Select the desired location.

Your desired location will display on the map.

From here you can:
• Select the “Info.” button to display more information about the location.
• Select the “Go to” or “Enter” button to set the location as a destination with route directions.

Displaying Detailed Information About an eDestination

If you select “Info.” you can then select:
• “Mark” to mark the location on the navigation map.
• “Go to” to program route directions.
• “Add to Route” if a route is already programmed for route guidance.

Or, while stopped, you can select:
• “Detail” to read any notes you entered online about this location.
Receive Notification of New Lexus Insider Articles
When a new Lexus Insider article is available, a notification will appear on the navigation screen when the vehicle is first powered on.

The notification will disappear after approximately six seconds. While it is on-screen, you can select:
• “Listen Now” – The Lexus Insider article will begin playing.
• “Remind Me Later” – The notice will disappear, and the new article will not play. The notice will be displayed again the next time the vehicle is powered on.
• “Ignore” – The notice will disappear, and the new article will not play, but will be saved to your articles list.

View and Play Lexus Insider Articles

IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:
1a. Push the “MENU” button on the remote touch controller, then select “Info. Phone” from the “Start” screen.

IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:
1b. Push the “Info. Phone” hard button on the navigation console.
2. Select “Lexus Insider” from the “Information” screen.

3. The Lexus Insider screen appears.

4. Select an article title from the Lexus Insider menu to start the playlist from that article, or select “Read All” to start the playlist from the beginning.

- You can control the article read-out volume with the audio knob on the stereo or with the steering-wheel control.
- To stop the Lexus Insider audio read-out, change the audio source by pushing the “MODE” button on the steering wheel, or by pushing the “FM,” “AM,” “SAT,” or “CD” (if a CD is loaded) buttons on the audio system.

TIP: You can select Previous Article or Next Article on the nav screen to listen to another article, or you can use the steering-wheel up or down arrow buttons to move through the available articles.

Icons next to Lexus Insider articles indicate their status.

- Unread article
- Previously read article
- Article with downloadable point of interest (POI)
Download a Location (POI) from a Lexus Insider Article

Some Lexus Insider articles will contain a downloadable location, or point of interest (POI), based on the article’s content. Those articles will be displayed as follows:

After beginning to play the article (see page 16), you can set the location for route guidance.

1. Select “Go to” on the article’s display.
2. Select “Go to” again on the map screen.

Delete Lexus Insider Articles

From the Lexus Insider articles list (see page 17):

1. Select “Delete.”
2. Select the individual article or articles that you would like to delete, or choose “Select All.”
3. The article or articles you select will be highlighted in blue. Select “Delete” again.
4. Select “Yes” to confirm or “No” to cancel.
Change Your Lexus Insider Settings (opt in/opt out)

You can customize your Lexus Insider settings. You can also restore the factory default settings at any time.

IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:

1a. Push the “MENU” button on the remote touch controller, then select “Setup” from the “Start” screen.

IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:

1b. Push the “Setup” hard button on the navigation console.

2. Select “Other.”

3. Select “Lexus Insider.”

4. The Lexus Insider Settings screen will display.

TIP: Default settings are set to receive articles and new article notification. If you wish to restore the default settings, simply:

1. Select “Default.”
2. Select “Yes” to confirm or “No” to cancel.
From the “Lexus Insider Settings” Screen, You Can Change Your Settings in the Following Ways:

**Opt in or opt out of receiving Lexus Insider articles**

1. Select “Receive Lexus Insider.”

2. Select “Yes” to receive Lexus Insider articles or select “No” not to receive articles.

3. Select “Save.”

**Opt to receive or stop receiving new article notification**

1. Select “New Article Notification.”

2. Select “On” or “Off.”

3. Select “Save.”
XM Sports and Stocks

XM Sports

You will need to add your desired teams to the navigation system before you can receive any available team data.

Add Sports Teams

Teams must be added one at a time. You can save up to five teams in the system, and you can change your saved teams at any time. If there are already five teams input into your system, you will first have to delete a team in order to add another.

IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:

1a. Push the “MENU” button on the remote touch controller, then select “Info. Phone” from the “Start” screen.

IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:

1b. Push the “Info. Phone” hard button on the navigation console.

2. Select “XM Sports.”

3. Select “Options.”
4. Select “Add Sports Team.”

5. Select the sports league of the team you would like to enter.

6. Select the name of the team you would like to add. Scroll up or down by using the arrows on the right side of the screen to see the full list of teams.

7. Select “Yes” to confirm or “No” to cancel.

View and Hear Available Team Information (after inputting teams)

IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:

1a. Push the “MENU” button on the remote touch controller, then select “Info. Phone” from the “Start” screen.

IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:

1b. Push the “Info. Phone” hard button on the navigation console.
2. Select “XM Sports.”

3. Select the team whose information you would like to display.

![Image of XM Sports selection screen]

**TIP:** If there is no current data available for a team, the team name will be grayed out, and you will not be able to select it.

4. Select the specific information you would like to receive from the list, or select “Read All” to receive all available information for that team. The selected information will be read aloud in its entirety.

![Image of XM Sports information]

**Hear a Team’s Update with Voice Command**

1. Push the talk button on the steering wheel and wait for the verbal prompt to finish.
2. After the beep, say: “XM Sports.”
3. Wait for the verbal prompt to finish, and after the beep, say the name of your preprogrammed team.

**Delete Sports Teams**

**IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1a. Push the “MENU” button on the remote touch controller, then select “Info. Phone” from the “Start” screen.
IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:

1b. Push the “Info. Phone” hard button on the navigation console.

2. Select “XM Sports.”

3. Select “Options.”

5. Select the individual sports team or teams that you would like to delete, or choose “Select All” if you would like to delete all current teams.

6. Your selected team or teams will be highlighted in blue.

7. Select “Delete.”

8. Select “Yes” to confirm or “No” to cancel.
XM Stocks

You will need to add your desired stocks to the navigation system before you can begin receiving data.

**Add Stocks**

- Up to 10 stocks can be stored at a time.
- If you already have 10 stocks in the system, you will first need to delete a stock in order to add another.
- Stocks must be added one at a time.
- You must know the symbol of the stock you wish to enter. (There is no stock symbol look-up in the navigation system.)

**IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1a. Push the “MENU” button on the remote touch controller, then select “Info. Phone” from the “Start” screen.

**IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1b. Push the “Info. Phone” hard button on the navigation console.

2. Select “XM Stocks.”

3. Select “Options.”

4. Select “Add Stock.”

5. Type the stock symbol you would like to add, and when finished, select “OK” to enter.
Receive Available Stock News (after inputting stocks)

**IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1a. Push the “MENU” button on the remote touch controller, then select “Info. Phone” from the “Start” screen.

**IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1b. Push the “Info. Phone” hard button on the navigation console.

2. Select “XM Stocks.”

3. Select a single stock to receive news about it, or select “Read All” to hear available news about all your saved stocks.

Hear a Stock Update with Voice Command

1. Push the talk button on the steering wheel and wait for the verbal prompt to finish.

2. After the beep, say: “XM Stocks.”

3. Wait for the verbal prompt to finish, and after the next beep, say the name of your preprogrammed stock.

**TIP:** Stock quotes may be delayed by 15 minutes.
Delete Stocks

IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:

1a. Push the “MENU” button on the remote touch controller, then select “Info. Phone” from the “Start” screen.

1b. Push the “Info. Phone” hard button on the navigation console.

2. Select “XM Stocks.”

3. Select “Options.”

4. Select “Delete Stocks.”

5. Select the stock(s) you would like to delete, or choose “Select All.” Your selected stocks will be highlighted in blue.

6. Select “Delete.”

7. Select “Yes” to confirm or “No” to cancel.
**XM NavTraffic information is displayed on the map screen to help you to:**
- View detailed traffic information,
- View traffic flow,
- View traffic congestion and potentially reroute to avoid it.

**Traffic Display Settings**
You can select to display or hide traffic information on the map screen.

1. From the map screen, select "Show on Map."

2. Select "Traffic Information."

When the bar at the left of this tab is yellow, traffic information will display on the map screen.

When the bar is gray, traffic information will not display.

*Note: Clicking the bar will change the display status.*
View and Interpret XM NavTraffic® Information on the Map

**XM NavTraffic Indicator Icon**
When traffic information is received, the XM NavTraffic indicator icon on the navigation screen (see below) will change color based on the type of information received.

The traffic icon can be one of three potential colors, which indicate the following:

- General traffic information
- Traffic restriction on the guidance route
- Congestion on the guidance route

When there is no available data, the XM NavTraffic indicator icon will be dimmed.

**On-screen Traffic Flow Conditions**
Traffic flow conditions are displayed on the map screen with colored lines along major routes and freeways for which data is available. Three color codes indicate the specified type of traffic flow.

- **Green** - Freely flowing traffic
- **Yellow** - Moderate traffic
- **Orange** - Heavy congestion
XM NAVTRAFFIC

XM NavTraffic Icons on the Map Screen

Available traffic information is displayed on the map with on-screen icons. The icons represent such conditions as construction, accidents, road closures, etc. Some sample traffic icons appear as follows:

Receive a Verbal Description of Traffic Information About a Particular Icon
1. Select the XM NavTraffic icon on the map screen.
2. The information will be read aloud and display on the top of the screen.

Receive an On-screen Description of Traffic Information About a Particular Icon
1. Select the XM NavTraffic icon on the map screen. (This will begin the verbal traffic report.)
2. Select the “Info” box.
3. Select “Detail” to display further details about the incident or condition.
4. The traffic detail screen will appear.
Avoid Traffic Congestion

When the XM NavTraffic® system detects either heavy congestion or moderate traffic, it will alert you (with the below pop-up screen on the map) and prompt you to select another route in order to avoid the traffic congestion.

1. Select “Yes” to reroute or “No” to ignore and return to the map screen.
With XM NavWeather You Can:
• View weather information on the weather map,
• Display 3-day forecasts and information for available major U.S. cities,
• Listen to 1-day forecasts for available major U.S. cities, and
• Receive weather warnings issued for a surrounding area.

View XM NavWeather Information on the Weather Map Screen

**IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1a. Push the “MENU” button on the remote touch controller, then select “Info. Phone” from the “Start” screen.

**IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:**

1b. Push the “Info. Phone” hard button on the navigation console.

2. Select “XM NavWeather.”

3. The XM NavWeather screen is displayed.

Navigate the weather map
• You can scroll the weather map to view available on-screen weather conditions around the country and/or to select city icons for 3-day forecasts.
• After scrolling, select “Current Location” to return to your current location on the map.
• You can zoom in or out on the map with the “+” or “−” icons. There are three zoom levels: 16 miles (26 km), 30 miles (48 km), and 60 miles (97 km).
Weather icons and grids on the weather map
Surrounding inclement conditions will be displayed on the weather map. Weather icons and color grids on the map indicate inclement weather.

Select an inclement weather icon to display the related information at the top of the screen.

Receive Weather Forecasts
Display a 3-Day Weather Forecast for an Available Major U.S. City

IF YOU HAVE A REMOTE TOUCH CONTROLLER, START HERE:
1a. Push the “MENU” button on the remote touch controller, then select “Info. Phone” from the “Start” screen.

IF YOU DO NOT HAVE A REMOTE TOUCH CONTROLLER, START HERE:
1b. Push the “Info. Phone” hard button on the navigation console.
2. Select “XM NavWeather.”

3. Select “Forecast” on the weather map screen.

4. Select the city for which you would like to display the forecast.

5. The 3-day forecast will appear.

**TIP:** Use the up and down on-screen arrows to move through the city list, or use the alphabetical listings boxes to skip to a letter in the alphabet. Select a listing box again to skip to the next letter in that group.

**Display a 3-Day Forecast for a Major U.S. City via the Weather Map Screen**

1. Go to the weather map screen. (See page 32.)

2. Select the city icon.

4. The 3-day forecast will display.

View a Specific Day’s Weather Details via the 3-Day Forecast

1. Select the date for which you would like more detail.

2. The detail will be displayed.

TIP: You can use the back arrow to move back to the 3-day forecast screen.

Understanding the 3-Day Forecast Screen

Hear a 1-Day Weather Forecast with Voice Command

1. Press the talk button on the steering wheel and wait for the verbal prompt to finish.
2. After the beep, say: “XM NavWeather.”
3. Wait for the verbal prompt to finish, and after the beep, say the name of the major city of your choice.

TIP: After you push the talk button, be sure to wait until after the beep to say your command.

Receive Weather Warnings in Your Area

XM NavWeather can alert you to severe weather. A weather warning pop-up will appear on screen when severe weather is detected nearby.

You can:
• Select “Show Map” to display details on the weather map.
• Select “OK” to remove the warning pop-up and return to the navigation map.
**Receive Weather Warnings via the Weather Icon**

XM NavWeather™ can alert you to severe or inclement weather via the icon on the map screen. When the weather icon appears, it indicates that severe weather has been detected in your area.

![Weather Icon Example](image_url)

**View the detailed information on the weather map**

1. Select the warning icon.

2. The weather warning pop-up box will appear. Select “Show Map” to display the XM NavWeather map, or select “OK” to return to the navigation map.

3. The weather map will display if you selected “Show Map.”

Subscriptions, Enrollment, Terms & Conditions

• After you have signed the Telematics Subscription Service Agreement and are enrolled, you can begin receiving services. Contact your Lexus dealer, call 1-800-25-LEXUS (1-800-255-3987), or call Destination Assist (see page 8) from your vehicle for further subscription details.

• By using the Lexus Enform® and Safety Connect® services, you are agreeing to be bound by the Telematics Subscription Service Agreement and its Terms and Conditions, as in effect and amended from time to time, a current copy of which is available at Lexus.com. All use of the Lexus Enform and Safety Connect services is subject to such then-applicable Terms and Conditions.

• One-year trial subscription available only with new vehicle purchase of Lexus Enform-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected.

• Select Lexus Enform-subscribed vehicles are capable of communicating vehicle information, triggering owner reminder notifications. Owners who do not wish to have their vehicle transmit this information can opt out of the service at the time of enrollment or by calling 1-800-25-LEXUS (1-800-255-3987) and following the prompts for Safety Connect/Lexus Enform.

• Lexus Enform with Safety Connect services are not subject to section 255 of the Telecommunications Act and the device is not TTY-compatible.

• XMNavTraffic® and XM NavWeather™ each require a separate XM subscription. XM Sports and Stocks is included with an XM Radio subscription. After a complimentary 90-day trial, you must set up the appropriate XM subscription(s) to continue receiving these services.

• Operating certain Lexus Enform and Safety Connect services (SOS button push, Automatic Collision Notification) during a hands-free Bluetooth® call will disable the Bluetooth connection.

• For additional details about Lexus Enform or Safety Connect, please contact your Lexus dealer.
Availability of Services, Usage

- Lexus Enform® and Safety Connect® are available on select Lexus models. Contact with the Lexus Enform and/or Safety Connect response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data, and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Enrollment and Telematics Subscription Service Agreement required.
- Safety Connect services will function in the United States, including Hawaii and Alaska, and in Canada. The services will not function outside of the United States in countries other than Canada.
- Lexus Enform premium services Destination Assist and eDestination will function in the contiguous United States. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States.
- Please ask your dealer for detailed information on current Lexus Enform and Safety Connect coverage areas, which are subject to change.
- Lexus Insider™ and XM services will function in the contiguous United States and Canada.
- The XM NavTraffic®, XM NavWeather™, and XM Sports and Stocks services are available in the contiguous United States and Canada. For details about the XM service coverage areas, visit www.xmradio.com or call the XM Listener Care Center at 1-877-515-3987.
- Certain Lexus Enform tasks cannot be performed while the vehicle is in motion.
- Certain locations received via eDestination may be outside of the available navigation system’s map data. Directions to these locations will be approximate.
- All trademarks are the property of their respective owners.

Activation of Services

- Enrollment in Lexus Enform with Safety Connect is required to activate all Lexus Enform services.
- To receive XM NavTraffic, XM NavWeather, and XM Sports and Stocks services, XM service must be activated. To activate the service, call the XM Listener Care Center at 1-877-515-3987. Customers should have their radio ID ready. The radio ID can be found by selecting “channel 000” on the radio. XM Satellite Radio is responsible for all XM fees and services, which are subject to change.
CAUTION!
Important: Read This Information Before Using Safety Connect

Exposure to radio frequency signals
The Lexus Enform® with Safety Connect® system installed in your vehicle is a low-power radio transmitter and receiver. When the system is in ON mode, it receives and also sends out radio frequency (RF) signals.

In August 1996, the Federal Communications Commission (FCC) adopted RF exposure guidelines with safety levels for mobile wireless phones. Those guidelines are consistent with the safety standards previously set by both U.S. and international standards bodies:
- ICNIRP (International Commission on Non-Ionizing Radiation Protection) [1996]

Those standards were based on comprehensive and periodic evaluations of the relevant scientific literature. Over 120 scientists, engineers, and physicians from universities, government health agencies, and industry reviewed the available body of research to develop the ANSI Standard (C95.1). The design of Lexus Enform with Safety Connect complies with the FCC guidelines in addition to those standards.

Safety Connect License
Safety Connect is licensed by QUALCOMM Incorporated under one or more of the following United States Patents and/or their counterparts in other nations:

4,901,307  5,490,165  5,056,109  5,504,773  5,101,501

How to Receive Lexus Enform® & Safety Connect® Services

**Subscription and Enrollment**

A 1-year trial of Lexus Enform and Safety Connect services is included at no additional cost upon new vehicle purchase of all Lexus Enform–equipped vehicles.

At the time of your new Lexus vehicle purchase, you will be asked to either enroll in or decline Lexus Enform with Safety Connect services. Should you choose to receive the services, your Lexus dealer will be able to simply and easily enroll you electronically and help you to:

- Select the term of service (should you choose to subscribe for an extended period of time),
- Confirm your services’ activation in the vehicle,
- Review a cellular coverage map for the services’ availability, and
- Demonstrate the services in your vehicle.

Should you elect not to subscribe at the time of your new vehicle purchase and you would like to enroll at a later date, please either contact your Lexus dealer or call 1-800-25-LEXUS (1-800-255-3987) and follow the prompts for Lexus Enform.

**Subscription Renewals**

After your included 1-year trial subscription, or at the end of your extended subscription term, you can easily renew your subscription services by contacting the Lexus Enform and Safety Connect response center at 1-800-25-LEXUS (1-800-255-3987) and following the prompts for Lexus Enform.

**Previously Owned Vehicles**

If you have purchased a noncertified or Certified Pre-Owned (CPO) Lexus Vehicle that is equipped with Lexus Enform with Safety Connect, you will be asked by your Lexus dealer to either enroll in or decline the services.

If you have made a private-party purchase of a previously owned Lexus vehicle that is equipped with Lexus Enform with Safety Connect and you would like to subscribe to the services, please contact your Lexus dealer or call 1-800-25-LEXUS (1-800-255-3987).
