Lexus Personalized Settings

Your vehicle includes a variety of electronic features that can be programmed to your preferences. Programming of these features is performed once at no charge by your Lexus Dealer provided you obtain the service at the 6-month/5,000-mile scheduled maintenance service.

It is also possible to customize certain vehicle features yourself using the navigation system screen.

Vehicles with Navigation system:

**Door Lock Settings**

1. **Automatic Door Lock**
   - The automatic door locks can be programmed as follows:
     - The doors automatically lock when the vehicle speed is 12 mph or higher = By speed
     - The doors automatically lock when the vehicle is taken out of Park and shifted into another range (Standard) = By shift from P
     - The doors will not automatically lock = Off

2. **Automatic Door Unlock**
   - The automatic door locks can be programmed as follows:
     - The doors automatically unlock when the vehicle is shifted into Park (Standard) = By shift to P
     - All the doors automatically unlock when the driver door is opened = By driver door
     - The doors will not automatically unlock = Off

3. **Remote 2-Press Unlock**
   - When using the electronic key to unlock the doors:
     - Pressing the unlock button one time unlocks the driver’s door and two times unlocks all doors (Standard) = On
     - Pressing the unlock button one time unlocks all doors = Off

4. **Wireless Lock When Door Opened**
   - Pressing lock button on electronic key will lock doors when they are open:
     - Off
     - On (Standard)

Settings that can be customized by:

LPS options were correct at time of development. All options are subject to change without prior notice.
Door Lock Settings (cont’d)

5. Select Doors to Unlock
When using Smart Access to unlock the doors:

- ☐ Gripping the driver door handle will unlock all doors = All doors
- ☐ Gripping the driver door handle will unlock the driver’s door (Standard) = Driver’s door

6. Auto Re-lock Timer
When the doors are unlocked and not opened:

- ☐ They will automatically re-lock in 120 seconds
- ☐ They will automatically re-lock in 60 seconds (Standard)
- ☐ They will automatically re-lock in 30 seconds
- ☐ They will not re-lock = Off

7. Lock/Unlock Feedback - Lights
When the lock or unlock button on the electronic key is pressed:

- ☐ Lock button makes lights flash once/Unlock button makes lights flash twice (Standard) = On
- ☐ Lights will not flash = Off

8. Lock/Unlock Feedback - Tone
When the lock button is pressed on the electronic key, the system volume can be programmed as follows:

- Off
- Volume 1
- Volume 2
- Volume 3
- Volume 4
- Volume 5 (Standard)
- Volume 6
- Volume 7

Climate Settings

9. Auto Seat Temperature FR L (Front Left)
Sensitivity level for climate controlled (AC, heater) driver seat:

- Very High
- High
- Normal (Standard)
- Low
- Very Low

10. Auto Seat Temp. FR R (Front Right)
Sensitivity level for climate controlled (AC, heater) front passenger seat:

- Very High
- High
- Normal (Standard)
- Low
- Very Low

11. Smog Sensor Sensitivity
When in AUTO recirculation mode, the sensor will determine when to switch from outside air to recirculated air based on outside air quality:

- Lowest sensitivity
- Sensitivity 2
- Sensitivity 3
- Normal (Standard)
- Sensitivity 5
- Sensitivity 6
- Highest sensitivity

12. Auto A/C Mode
When Auto A/C is selected:

- ☐ It will automatically engage the air conditioner compressor to reach the set temperature (Standard) = On
- ☐ It will automatically achieve a set temperature, warm or cool, without engaging the air conditioner compressor* = Off

*The AC compressor will be engaged when the Auto AC button is pressed a second time
**Lights Settings**

13. **Headlamps-On Sensitivity**
   The front headlamps can be programmed to turn On under varying degrees of ambient light conditions (headlight switch must be in AUTO mode):
   - very dark
   - dark
   - normal (standard)
   - light
   - very light

14. **Headlights Auto-Off Timer**
   When the ignition is turned off and all the doors are closed (headlight switch must be in the ON or AUTO mode):
   - The headlights will turn off in 90 seconds
   - The headlights will turn off in 60 seconds
   - The headlights will turn off in 30 seconds (Standard)
   - The headlights will turn off immediately when the vehicle is turned off and the driver door is opened

15. **Daytime Running Lights**
   Illumination of daytime running lights:
   - On (Standard)
   - Off

16. **Interior Lights Off Timer**
   The interior lights can be adjusted to stay on after closing the door as follows:
   - 30 seconds
   - 15 seconds (Standard)
   - 7.5 seconds
   - Off

17. **Exterior Lights Off Timer**
   The exterior lights can be adjusted to stay on after closing the door as follows:
   - 30 seconds
   - 15 seconds (Standard)
   - 7.5 seconds
   - Off

**Other Vehicle Settings**

18. **Driver’s Seat Easy Exit**
   When the vehicle is placed in park and the ignition turned off, the driver seat can be set as follows:
   - Automatically move fully away from the steering wheel (Standard) = Full
   - Automatically move partially away from the steering wheel = Partial
   - Remain in the current position, as set by the driver = Off
   * If equipped

19. **Power Back Door Opening Adjustment**
   Adjust the opening of the back door:
   - max (standard)
   - large
   - middle
   - small
   - minimum
